

RAMCO INSTITUTE OF TECHNOLOGY
Department of Electronics and Communication Engineering
Academic Year: 2020- 2021 (Even Semester)

Innovative Practices Description

Degree, Semester& Branch: III Semester B.E. ECE A

Course Code & Title: EC8392 & Digital Electronics

Name of the Faculty member: Mr.D.Gopinath

Name of the Topic: Logic gates

Name of the Innovative Practice: Mentimeter

Date & Time: 07.08.2020 & 5 minutes

ICT Tool Used:- Google Meet (Online Class)

Description of One Minute Paper Activity:

Mentimeter is easy-to-use presentation software used by more than 25 million people. With Mentimeter one can create fun and interactive presentations. The events, presentations, lectures, and workshops can be made innovative and memorable with the help of mentimeter activity. In this subject, I have created quiz of logic gates using mentimeter portal.

Goals (Learning Outcomes):

1. The students will be able to acquire better knowledge about logic gates.

Use of appropriate methods:

Justification for choosing the Mentimeter Activity:

In the mentimeter activity, the mentimeter code is given to the students. The students were made log in to the www.menti.com and they need to enter the code to attend the quiz. Since the students were able to visualize the answers entered by them it creates more interest among the students and remembers the concepts more easily.

Effective presentation

Details of the Implementation:

Innovative Teaching Method Execution																					
Logic gates																					
Which of the following gate will give a 0 when both of its inputs are 1?  <table border="1"><thead><tr><th>Option</th><th>Count</th></tr></thead><tbody><tr><td>a: AND</td><td>0</td></tr><tr><td>b: OR</td><td>1</td></tr><tr><td>c: NAND</td><td>20</td></tr><tr><td>d: EX-OR</td><td>3</td></tr></tbody></table>	Option	Count	a: AND	0	b: OR	1	c: NAND	20	d: EX-OR	3	The expression of an Ex-OR gate is ____  <table border="1"><thead><tr><th>Option</th><th>Count</th></tr></thead><tbody><tr><td>a: $AB+AB'$</td><td>26</td></tr><tr><td>b: 3 bits</td><td>0</td></tr><tr><td>c: $A+AB$</td><td>0</td></tr><tr><td>d: $A+B'$</td><td>1</td></tr></tbody></table>	Option	Count	a: $AB+AB'$	26	b: 3 bits	0	c: $A+AB$	0	d: $A+B'$	1
Option	Count																				
a: AND	0																				
b: OR	1																				
c: NAND	20																				
d: EX-OR	3																				
Option	Count																				
a: $AB+AB'$	26																				
b: 3 bits	0																				
c: $A+AB$	0																				
d: $A+B'$	1																				
Electronic circuits that operate on one or more input signals to produce standard output ____  <table border="1"><thead><tr><th>Option</th><th>Count</th></tr></thead><tbody><tr><td>a: Series circuits</td><td>2</td></tr><tr><td>b: Parallel circuits</td><td>1</td></tr><tr><td>c: Logic signals</td><td>1</td></tr><tr><td>d: Logic gates</td><td>22</td></tr></tbody></table>	Option	Count	a: Series circuits	2	b: Parallel circuits	1	c: Logic signals	1	d: Logic gates	22	__ gate gives the output as 1 only if all the inputs signals are 1.  <table border="1"><thead><tr><th>Option</th><th>Count</th></tr></thead><tbody><tr><td>a: AND</td><td>26</td></tr><tr><td>b: OR</td><td>2</td></tr><tr><td>c: NOR</td><td>0</td></tr><tr><td>d: Ex-OR</td><td>1</td></tr></tbody></table>	Option	Count	a: AND	26	b: OR	2	c: NOR	0	d: Ex-OR	1
Option	Count																				
a: Series circuits	2																				
b: Parallel circuits	1																				
c: Logic signals	1																				
d: Logic gates	22																				
Option	Count																				
a: AND	26																				
b: OR	2																				
c: NOR	0																				
d: Ex-OR	1																				

Course Outcome	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12
CO1	2	2	2	1					2	1		

CO1: The Students will be able to apply the digital fundamentals in the present contemporary world.
