

RAMCO INSTITUTE OF TECHNOLOGY
Department of Electronics and Communication Engineering
Academic Year: 2020 - 2021 (Odd Semester)

Innovative Practices Description

UNIT- I INFORMATION THEORY

Degree, Semester & Branch: V Semester B.E.ECE B
Course Code & Title: EC8501 Digital Communication
Name of the Faculty member: Mrs.R.Ramalakshmi
Name of the Topic: Information, Entropy
Name of the Innovative Practice: Mentimeter
Date & Duration: 10.07.2020 & 10 Minutes
ICT Tool Used: Google Meet Online Class

Description:

Mentimeter is easy-to-use presentation software used by more than 25 million people. With Mentimeter one can create fun and interactive presentations. The events, presentations, lectures, and workshops can be made innovative innovative and memorable with the help of mentimeter activity.

Goals (Learning Outcomes):

- The students will be able to know about the concepts of information theory more easily with the help of mentimeter activity.

Use of appropriate methods:

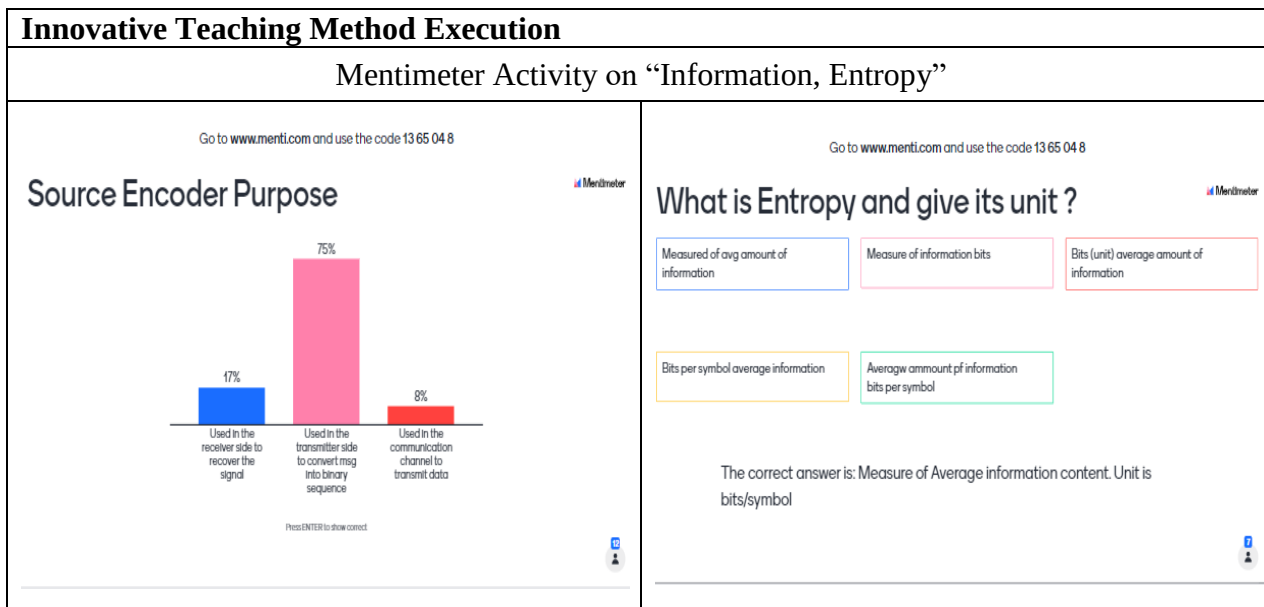

Justification for choosing the topic using Mentimeter activity:

The students will be able to understand the concepts of Information Theiory with the help of mentimeter activity more easily. The students will be able to easily remember the concepts if he is attending these type of activity.

Effective presentation

Implementation(Plan & Execution) with Proof:

In the mentimeter activity, the mentimeter code is given to the students. The students were made log in to the www.menti.com and they need to enter the code to attend the quiz. Since the students were able to visualize the answers entered by them it creates more interest among the students and remembers the concepts more easily.

Significance of Results:

Assessment of Effectiveness/Success of the Activity:

- ✓ The assessment of effectiveness of the activity was felt when the students were asked questions on the topic on the next week they were able to answer easily

Reflective Critique:

- **Benefits:**

The students were more interested in learning the concepts if they are attending the quizzes through mentimeter activity. They learnt the concepts of Information Theory. They asked more doubts in the topic and learnt many things.

- **Challenges:**

Basically some time is needed to prepare the quiz presentations in mentimeter activity. The students also need some time to think and answer the quiz questions.

CO1: The students will be able to design applications using the various source coding techniques.
