

RAMCO INSTITUTE OF TECHNOLOGY
Department of Electronics and Communication Engineering
Academic Year: 2019- 2020 (Even Semester)

Innovative Practices Description

Degree, Semester& Branch: VIII Semester B.E. ECE B
Course Code & Title: GE6075 Professional Ethics in Engineering
Name of the Faculty member: Mrs.V.SrIREngaNachiyar
Name of the Topic: Self-confidence, Character & Spirituality
Name of the Innovative Practice: Brainstorming
Date & Time: 13.01.2020 & 20 Minutes

Description:

Brainstorming Technique:

Brainstorming is a method for generating ideas to solve a design problem. It usually involves a group, under the direction of a facilitator. The strength of brainstorming is the potential participants have in drawing associations between their ideas in a free-thinking environment, thereby broadening the solution space. The purpose of this is to gain as many ideas as possible for later analysis. Out of the many ideas suggested there will be some of great value. Because of the free-thinking environment, the session will help promote radical new ideas which break free from normal ways of thinking.

Learning Outcomes:

1. The students will be able to remember and easily understand the important terms and definitions

Use of appropriate method:

Justification for choosing Brainstorming Activity:

The students should know about human values, ethics and morals to be followed in our personal as well as professional life. For that reason, I have chosen Brainstorming activity for this topic. Definitely, it helps to understand the human values.

Effective presentation:

I have planned the activity for 20 minutes but students hesitate to do and then I encouraged the students. I gave another 5 minutes to recall it. Totally, it took 25 minutes to complete it.

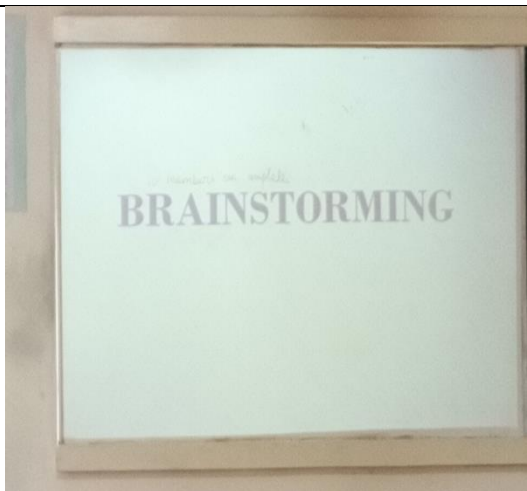

Reflective Critique:

Challenges:

Some of the students couldn't able to recall the important terms and definitions while doing the activity. It takes more time to recall about human values which was taught in previous lectures.

Benefits:

After that, students eagerly participated and brainstormed their views about self-confidence, character and spirituality. At last, I concluded about the human values and its importance.

Innovative Teaching Method Execution	
Self-confidence, Character & Spirituality - Brainstorming	
	
	

Course Outcome	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12
CO1	2	2	1	3	-	3	1	3	1	2	-	3

Innovative Practices Description

Degree, Semester& Branch: VIII Semester B.E. ECE B
Course Code & Title: GE6075 Professional Ethics in Engineering
Name of the Faculty member: Mrs.V.SrirengaNachiyar
Name of the Topic: Caring, Sharing & Honesty
Name of the Innovative Practice: Crossword puzzle
Date & Time: 08.01.2020 & 20 Minutes

Description:

Crossword Puzzle:

A **crossword** is a word puzzle that usually takes the form of a square or a rectangular grid of white- and black-shaded squares. The game's goal is to fill the white squares with letters, forming words or phrases, by solving clues, which lead to the answers. In languages that are written left-to-right, the answer words and phrases are placed in the grid from left to right and from top to bottom.

Learning Outcomes:

1. The students will be able to remember the important terms easily.
2. The students can be easily differentiated the important terms (Caring, Sharing & Honesty).

Use of appropriate method:

Justification for choosing the Mind Map Activity:

Crossword puzzle activity gives the clear ideas of the particular topic. It differentiates the important terms clearly which will be helpful for understanding the concepts to the students.

Effective presentation:

I have planned the activity for 20 minutes but students could not able to remember the terms. So, I recall some of the important points to the students to do this activity for the particular topic and also the benefits of this during examination. I encouraged the students which it takes another 5 minutes for completing the activity.

Reflective Critique:

Challenges:

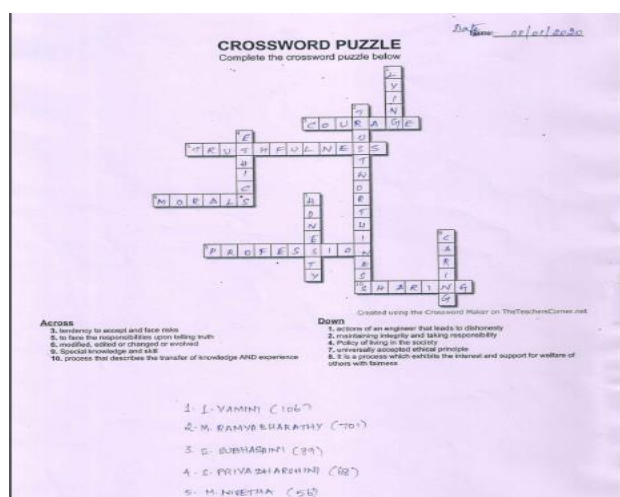

The students confused about the points and important definitions which was explained in the class room. After that, I have chosen Crossword puzzle as an Innovative practice method for better understanding about the definitions of caring, sharing, morals, ethics and honesty.

Benefits:

The Students eagerly participated in that activity and then they can easily remember the concept and definitions. Due to this activity, the students were able to recall the topic and remember the important terms easily.

Innovative Teaching Method Execution

Caring, Sharing & Honesty-Crossword Puzzle

Course Outcome	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12
CO1	2	2	2	2	-	2	1	3	3	2	-	2

CO1: The students will be able to apply ethics, morals and human values in society

Innovative Practices Description

Degree, Semester& Branch: VIII Semester B.E. ECE B
Course Code & Title: GE6075 Professional Ethics in Engineering
Name of the Faculty member: Mrs.V.SrirengaNachiyar
Name of the Topic: Kohlberg's theory, Gilligan's theory
Name of the Innovative Practice: Mind Map
Date & Time: 04.02.2020 & 20 Minutes

Description:

A mind map is an easy way to brainstorm thoughts organically without worrying about order and structure. It allows the student to visually structure the ideas which is used to help with analysis and recall.

A mind map is a diagram for representing tasks, words, concepts, or items linked to and arranged around a subject using a non-linear graphical layout that allows the student to build an intuitive framework around a central concept.

Learning Outcomes:

3. The students will be able to remember the important terms easily.
4. The students can be easily differentiated the Kohlberg's theory, Gilligan's theory and their three levels of moral development.

Use of appropriate method:

Justification for choosing the Mind Map Activity:

Mind map activity gives the clear ideas about the particular topic. It differentiates the important terms in Kohlberg's theory and Gilligan's theory clearly which will be helpful for understanding the concepts to the students. It clearly explains the three levels of moral development.

Effective presentation:

I have planned the activity for 20 minutes but students could not able to remember the terms. So, I recall some of the important points in three levels of moral development to the students to do this activity for the particular topic and also the benefits of this during examination. I encouraged the students which it takes another 5 minutes for completing the activity.

Reflective Critique:

Challenges:

The students confused about the points and important definitions which was explained in the class room about Kohlberg's theory and Gilligan's theory. After that, I have chosen Mind map as an Innovative practice method for better understanding about the three levels of moral development.

Benefits:

The Students eagerly participated in that activity and then they can easily remember the concept and definitions. Due to this activity, the students were able to recall the topic and remember the important terms in levels of moral development easily.
