

Department of Artificial Intelligence and Data Science

Academic Year 2025 – 2026 (Odd Semester)

Degree, Semester & Branch: B.Tech, III & Artificial Intelligence and Data Science

Course Code & Title: AD3301 & Data Exploration and Visualization - 'B'

Name of the Faculty member (s): Dr. S. Selva Birunda, ASP/AD

Innovative Practice Description

- **Unit / Topic:** Unit I / Visual Aids for EDA

- **Course Outcome:** CO1

- **Topic Learning Outcome:** 1c

❖ **Activity Chosen:** Live Polls with Chart Interpretation

- **Justification:**

Live Polls with Chart Interpretation is an interactive teaching–learning method in which learners respond to questions in real time using digital polling tools. Their responses are instantly converted into visual charts (such as bar graphs, pie charts, or scatter plots), which are then interpreted and discussed during the session. This technique enhances engagement, provides immediate feedback, and supports data-driven teaching.

Time Allotted for the Activity: 45 Minutes

- **Details of the Implementation:**

Step 1(10 Minutes)

- This activity was implemented using digital polling tool, Mentimeter.
- Questions were aligned with the topic taught in the session.
- A presentation link or QR code was generated and shared with students before starting the poll.

Step 2(20 Minutes)

- Students were instructed on how to join the live poll using their mobile devices or laptops.
- A brief orientation on the rules (time limit, anonymity, honesty in responses) was given.
- The poll was conducted and students participated simultaneously, and their responses were recorded in real time.

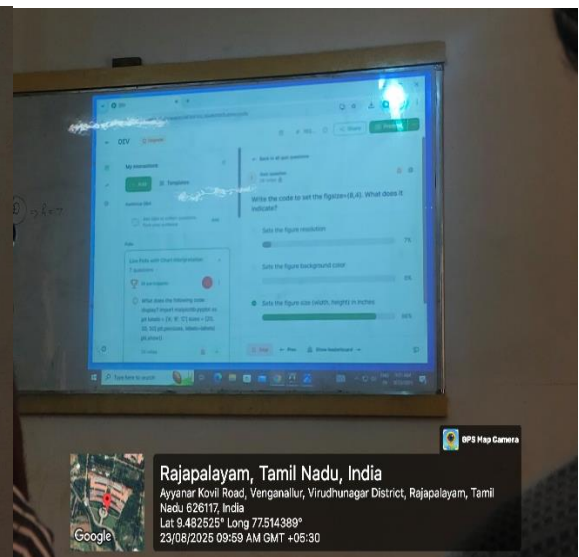

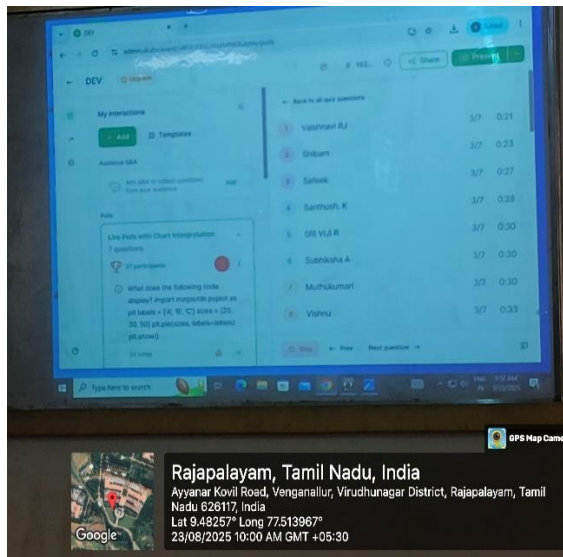

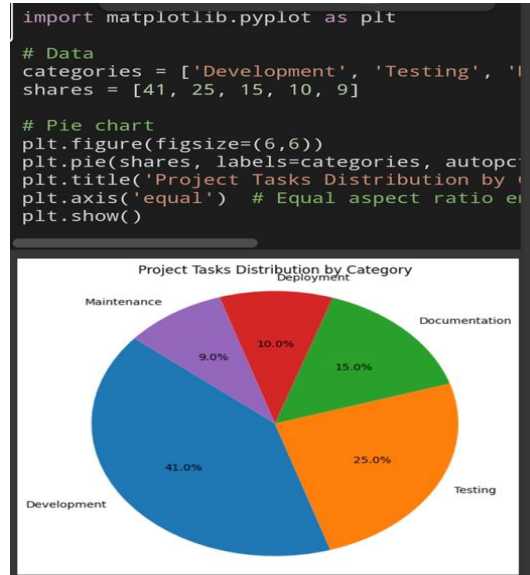

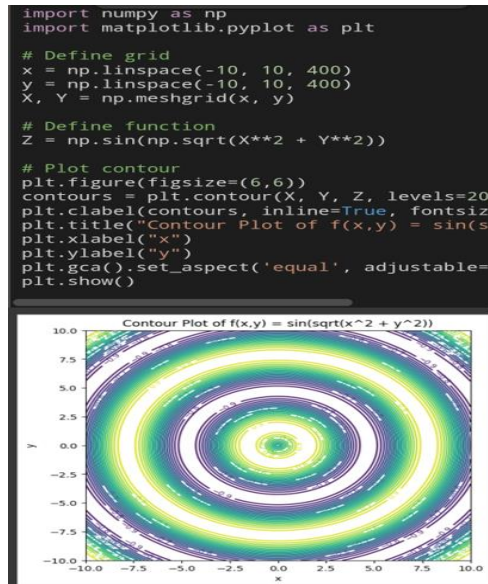

Step 3(10 Minutes)

- Live charts representing current responses were displayed on the classroom screen for immediate interpretation.
- Visualization graphs were analysed together with students.

Step 4(5 Minutes)

- Students justified their answers and compared with peers' responses, promoting deeper understanding.
- **Images / Screenshot of the practice:**

• Reflective Critique:

❖ *Feedback of practice from students and other stakeholders:*

- ✓ Students expressed high levels of engagement, noting that the live polls made the sessions more interactive and enjoyable compared to traditional questioning methods.
- ✓ Many students highlighted that the chart representations helped them instantly understand trends and patterns relative to peers.

❖ *Benefit of the practice:* (E.g.: Outcome attainment would have increased due to innovative practice over conventional practice)

- ✓ This activity encouraged active participation from all the students
- ✓ Group discussion based on chart interpretation encourages peer learning

❖ *Challenges faced in implementation:*

- ✓ Some students face difficulty in responding due to lack of familiarity with digital polling tools
- ✓ With many students participating, the charts became crowded, which made analysis more time-consuming.

FEEDBACK

Active Learning Best practices: Flash Cards Active Learning Technique

Degree, Semester & Branch : B. Tech, III Semester & AI / DS
Course Code & Title : AD3301 & Data Exploration and Visualization - 'B'
Name of the Faculty member (s) : Dr. S. Selva Birunda, ASP / AD

Theme of discussion: Visual Aids for EDA

Date and Time: 23.08.2025 & 9.45 pm to 10.30 pm

Feedback collected in class and also through online

Feedback Questionnaire:

1. How useful was the Live Polls with Chart Interpretation activity that we did in class today?

Very much useful Not useful

2. Do you have a clear understanding of the different visual aids for EDA?

Yes No

3. Did the live polls make the session more interactive and engaging?

Yes No

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University
NAAC Accredited with 'A+' Grade & An ISO 9001: 2015 Certified Institution
NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Feedback Analysis:

Attempts: 50 out of 50		-0
How useful was the Live Polls with Chart Interpretation activity that we did in class today?		Discrimination Index (0)
Very Much useful	50 respondents 100 %	100% answered correctly
Not Useful	0 %	

Attempts: 50 out of 50		-0
Do you have a clear understanding of the different visual aids for EDA?		Discrimination Index (0)
Yes	50 respondents 100 %	100% answered correctly
No	0 %	

Attempts: 50 out of 50		+1
Did the live polls make the session more interactive and engaging?		Discrimination Index (0)
Yes	48 respondents 96 %	96% answered correctly
No	2 respondents 4 %
