

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University
Accredited by NAAC & An ISO 9001:2015 Certified Institution
NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Artificial Intelligence and Data Science

Academic Year 2024 – 2025 (Even Semester)

Degree, Semester & Branch: B.Tech, VI & Artificial Intelligence and Data Science 'B'

Course Code & Title: CCS369 & Text and Speech Analysis

Name of the Faculty member (s): Mrs. B. Revathi

Innovative Practice Description

- **Unit / Topic:** Unit II / Transformers

- **Course Outcome:** CO 2

- **Topic Learning Outcome:** TLO 13

- **Activity Chosen:** Flipped Classroom

- **Justification:**

The flipped classroom is an instructional strategy that reverses the traditional learning environment by delivering instructional content, often online, outside of the classroom, and moving activities traditionally considered homework into the classroom. In a flipped classroom model, students typically engage with pre-recorded lectures, videos, readings, or other materials before attending class.

- **Time Allotted for the Activity:** 45 minutes

- **Details of the Implementation:**

Exploring Transformer concepts was given to the students through e-sources like videos. They described about the the process of assigning predefined labels to text. Students were divided into groups. Each group will have prepared the detailed presentation of Transformers (BERT, RoBERTa and etc..).

- **CO – PO / PSO mapping:**

CO	PO1	PO3	PO9	PSO1
CO1	3	3	2	3

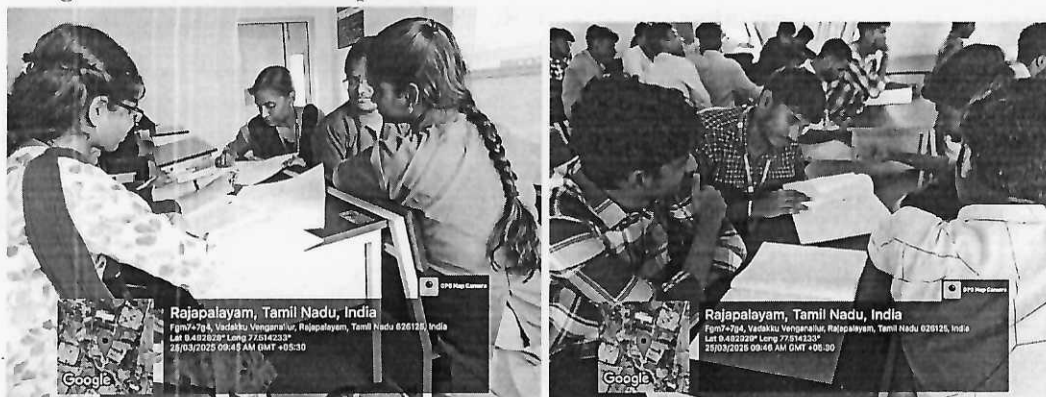

(1 – Low 2 – Moderate 3 – High)

- **PO / PSO mapped:**

Innovative practice	PO1	PSO1
	3	3
Justification for correlation	Able to apply Theory and Principles of Artificial Intelligence to understand the	Students can be able to apply the Transformers to solve real time

	Transformer Basics.	problems
--	---------------------	----------

• **Images / Screenshot of the practice:**

• **Reflective Critique:**

❖ **Feedback of practice from students and other stakeholders:**

Students were asked me to conduct such activities for forth coming classes.

❖ **Benefit of the practice:** (E.g.: Outcome attainment would have increased due to innovative practice over conventional practice)

By conducting this activity, Students engage actively with the material outside of class, often through videos or readings, allowing them to absorb foundational concepts at their own pace. They will also be able to reproduce the concepts in the exam. The students gave oral feedback that now they got a clear idea about Transformers and its use, and they asked to conduct more such activities like this.

❖ **Challenges faced in implementation:**

some students may struggle with accountability and may not complete assignments or review materials consistently.
