Innovative Practice Description

- **Unit / Topic:** Unit II /Cassandra and its data model with examples
- **Course Outcome:** CO2
- **Topic Learning Outcome:** LO12
- **Activity Chosen:** Live Quiz
- **Justification:**

A Live quiz activity was conducted to assess students' understanding of Big Data concepts. This activity reinforces their knowledge of Cassandra and its data model.
- **Time Allotted for the Activity:** 45 Minutes
- **Details of the Implementation:**
 1. 20 Multiple Choice Questions on “Cassandra and its data model” were created for an online format.
 2. The quiz was hosted on a suitable online platform to facilitate individual participation.
 3. During the lab hours, the 59 students participated individually to complete the quiz.
 4. Each student submitted their chosen answer for each question.
 5. After submission, participants received instant feedback on their answers.
 6. Students explained their justifications for their answers, followed by a discussion of the correct answers.

- **Reflective Critique:**

- ❖ **Feedback of practice from students and other stakeholders:**

- ✓ Students felt the quiz was well-received, serving as a valuable tool for learning and self-assessment in the context of Apache Cassandra.
- ✓ Some students suggested including more Cassandra example-based questions to better apply theoretical knowledge.

- ❖ **Benefit of the practice:** (E.g.: Outcome attainment would have increased due to innovative practice over conventional practice)

- ✓ Students can think outside the box or from diverse perspectives by participating in this activity
- ✓ Discussing answers within group and come together with a conclusion

- ❖ **Challenges faced in implementation:**

- ✓ Only some students understand the basic of Cassandra so they could answer the quiz well where others couldn't.
