

RAMCO INSTITUTE OF TECHNOLOGY

RAJAPALAYAM

Department of Artificial Intelligence and Data Science

Academic Year: 2023- 2024 (Odd Semester)

Degree, Semester & Branch: V Sem. B.Tech. Artificial Intelligence and Data Science.

Course Code & Title: CW3551 – Data and Information Security.

Name of the Faculty member: Mrs S. Jothi Lakshmi, AP/AD

Theme of discussion: X.509 Certificates – Categories of certificate extensions.

Date and Time: 10.10.2023 & 3.10 pm to 4.00 pm

1 Active learning practices: JIGSAW Cooperative Learning Technique

1.1 Topic

Discuss the three categories of certificate extensions of X.509 Certificate

1.2 Learning Outcomes

- Describe the categories of extensions in X.509 Certificates
- To improve listening, communication, and presentation skills.

1.3 Procedure

Step 1 (2 minutes)

- Form groups with 3 members.
- Share the Certificate extensions material to students.

Step 2 (2 minutes)

- Appoint one student from each group as the leader and each student in a group given a number as 1,2. Divide the course contents into 3 categories.

Step 3 (15 minutes)

- Give students time to read over the course content's segment.

Step 4 (15 minutes)

- Bring the students back into their jigsaw groups

Step 5 (10 minutes)

- Ask each student to present her/his segment to the group.
- Encourage others in the group to ask questions for clarification

Step 6(1 minutes)

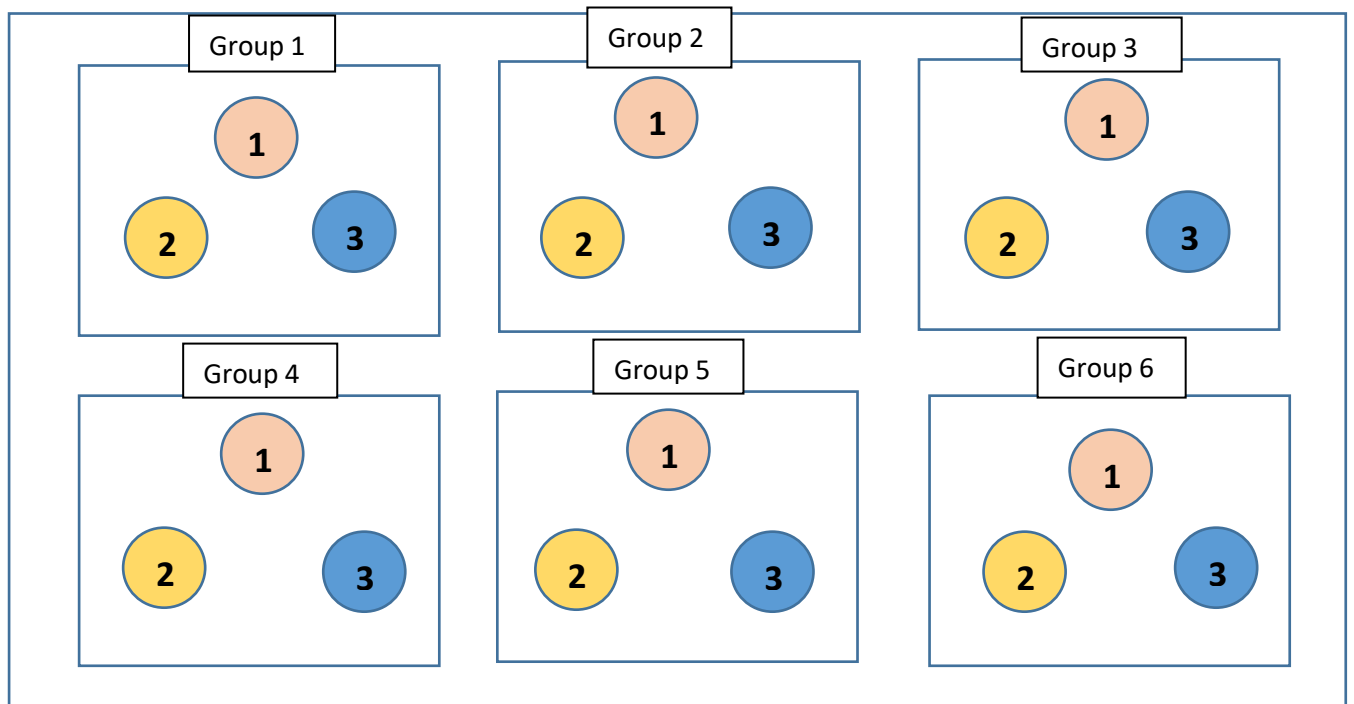

- Float from group to group, observing the process

Step 7(5 minutes)

- At the end of the session, ask questions to students.

1.4 Design and Implementation

- Procedure of Jigsaw activity posted in the course website in advance in which students knew the knowledge of this activity.
- Followed by step 1 and step 2, Group three students as a team and elect one as a team leader and other as a team member
- Students are provided with materials related to the topic and given time to read the content.
- Assemble the students according to their groups and encourage each one to share about his/her segment to the group.
- Other students from their team are encourage to ask doubts.
- At the end of the session, student from each group shared the knowledge what they learnt.

Glimpse:

1.5 Reflective report

1.5.1 Challenges and Strategies

- Make the slow learner participation in the activity
- Motivate the slow learners to involve the activity.
- Given materials about the certificate extensions categories while doing the activity

1.5.2 Observations:

The Jigsaw technique is designed for cooperative learning in small groups. Students are provided the opportunity to become experts in a particular content, and share that knowledge with their peers. This technique promotes both self and peer teaching which requires students to understand the material at a deeper level and engage in discussion, problem solving, and

learning Students are interested to involve the activity. The Jigsaw technique helps the students to develop expertise in a particular topic and practice self and peer teaching.

1.5.3 Students Response:

- Students done brainstorming with their team members about the segments actively.
- Bright students were actively participated to prepare the categories of certificate extensions.
- Slow learners expect to assist the content delivery and presentation.
- Most of the students were enjoyed the session.

Students response ensures the students could improve listening, communication, creativity and problem-solving skills.
