Approved by AICTE, New Delhi & Affiliated to Anna University

NAAC Accredited with 'A+' Grade & An ISO 9001: 2015 Certified Institution

NBA Accredited UG Programs: CSE, EEE, ECE and MECH

DEPARTMENT OF ARTIFICIAL INTELLIGENCE AND DATA SCIENCE

Academic Year 2024 – 2025 (Even Semester)

Degree, Semester & Branch: B.Tech, VI & Artificial Intelligence and Data Science

Course Code & Title: MX3085 & Wellbeing with Traditional Practices Yoga, Siddha and Ayurveda

Name of the Faculty Member: Mrs.S.Pradeepha, AP/AD

INNOVATIVE PRACTICE

Unit / Topic: Unit - 4 / Mental Wellness

Course Outcome: CO4

Topic Learning Outcome: TLO33

Activity Chosen: Case Cracker

Date of Implementation: 07/05/2025

What Is Mental Wellness?

Mental wellness is an internal resource that helps us think, feel, connect, and function; it is an active process that helps us to build resilience, grow, and flourish.

Mental wellness is a **resource** because it is dynamic, renewable, and positive.

Mental wellness is a **process** that we must engage in proactively, it is not a static state of being.

Mental wellness is not only “mental” but has **several dimensions**:

THINKING
Mental Dimension

CONNECTING
Social Dimension

FEELING
Emotional Dimension

FUNCTIONING
Psychological Dimension

Introduction

Case Cracker" is a **problem-based learning (PBL)** strategy where students are presented with real-life or simulated **case studies** (or "mysteries") and work in teams to **analyse, investigate, and solve them**. This practice mirrors the role of detectives or analysts trying to "crack a case." It's highly engaging, critical-thinking intensive, and mirrors real-world decision-making.

Objective

Enable students to analyse real-life inspired mental health scenarios, identify signs of distress, evaluate appropriate responses, and propose supportive actions — all in a safe, structured environment.

Learning Outcomes

- Critical thinking & problem-solving
- Collaboration & communication
- Real-world data analysis
- Structured decision-making

Steps

- **Present the Case-** Provide a detailed, but incomplete, scenario or problem. It should be realistic and challenging.
- **Assign Roles or Teams-**Individual or team-based.
- **Problem Identification-**Students identify core problems, stakeholders affected, and key issues.
- **Solution Development-**Brainstorm possible solutions, backed by reasoning, data, or examples.
- **Case Cracking / Presentation-**Individual present their conclusions and provide solution to the problem.

CO – PO mapping:

CO	PO2	PO3	PO8	P10
CO1	2	2	1	2

(1 – Low 2 – Moderate 3 – High)

PO mapped:

Innovative practice	PO2	PO3	PO8	P10
	3	2	2	3
Justification for correlation	Able to identify the root cause of the problem	Able to empathise the others Situation and provide corrective measures	Apply ethical principles and commit to professional ethics and responsibilities	Able to present complex information in an understandable manner.

Glimpses:

Reflective Critique:

❖ *Feedback of practice from students and other stakeholders:*

- Encourages students to step into someone else's shoes, breaking stigma around mental health.
- Scenarios often reflect what students themselves or their peers may be experiencing.
- Helps normalize conversations about emotional struggles.
- By modelling intervention strategies, students learn it's okay to ask for help and how to offer it.
- Integrates psychology, communication skills, ethics, and health education.
- Students may reflect on their own coping habits and rethink how they deal with stress.

❖ *Benefits of the Practise:*

- Recognize early signs of mental distress
- Practice empathy and supportive communication
- Understand when and how to escalate a concern
- Reduce stigma around mental health topics
- Build a culture of care in the classroom

❖ *Challenges in Implementation:*

- Some students may relate too closely to a case and feel triggered or vulnerable.
- Discussions must be handled with maturity. All should stress respect and avoid judgmental language.
- Students need to feel secure and supported during the activity. Ground rules are essential (e.g., no mocking, no personal disclosures unless voluntary).

FEEDBACK

Active Learning Best Practices: Case Cracker

Degree, Semester & Branch: V Sem B.Tech. Artificial Intelligence and Data Science.

Course Code & Title: MX3085 & Wellbeing with Traditional Practices Yoga, Siddha
and Ayurveda

Name of the Faculty member: S. Pradeepha AP/AD

Topic of discussion: Mental Wellness

Topics Covered: Unit- 4

Date and Time: 07.05.2025 & 2.40 P.M to 3.20 P.M

Google form Link : <https://forms.gle/3UHVihkxRrySxJdu8>

Feedback Questionnaire:

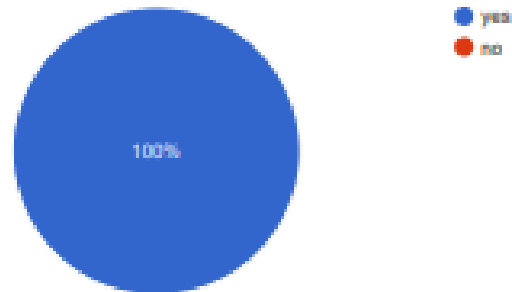

1. Did the plan align with your expectations? Yes no
2. How effectively was the Innovative Practice Plan implemented? 1 2 3 4 5
3. How well did you understand the Objectives and Purpose of the Innovative Practice Plan?
EXCELLENT GOOD SATISFCATORY
4. Were the necessary resources and support provided for successful implementation?
YES, NO
5. Did you notice any specific Benefits or Changes resulting from this plan? **YES, NO**
6. How were you engaged throughout the Practice Plan? 1 2 3 4 5
7. Did the plan provide Opportunities for Active Participation and Collaboration? **YES, NO**
8. Whether the Information system has been analysed in a best way using this Innovative Practice Plan? **EXCELLENT GOOD SATISFCATORY**
9. Does this activity learning improve Listening, Thinking, Describing and Problem--Solving skills? **YES NO**
10. Is the Practice Plan sufficient to understand and discuss the concepts? **YES NO**
