

Department of Artificial Intelligence and Data Science

Academic Year 2023 – 2024 (Odd Semester)

Degree, Semester & Branch: B.Tech, V & Artificial Intelligence and Data Science

Course Code & Title: CCS334 & Big Data Analytics

Name of the Faculty member (s): Ms. S. Selva Birunda, AP/AD

Innovative Practice Description

- **Unit / Topic:** Unit - 2 / Master-Slave Replication
- **Course Outcome:** CO2
- **Topic Learning Outcome:** TLO10
- **Activity Chosen:** Think Pair Share
- **Justification:**
 - As part of the think-pair-share method of collaborative learning, students are involved to think individually and sharing their understanding of a topic with their classmates.
 - **Step 1 (5 Minutes)**
Team of students pay attention to the instructor's question.
 - **Step 2: (10 minutes)**
Students think about the given topic and then write their responses.
 - **Step 3: (20 minutes)**
Students discuss their response with their peers
 - **Step 4: (15 minutes)**
Students share their thoughts and ideas with the whole class
- **Time Allotted for the Activity:** 50 minutes
- **Details of the Implementation:**
 - Think-Pair-Share, a Collaborative active learning practice, conducted for III AI & DS students, in which students work on a question posed by instructor.
 - T (Think):** Students think about the given topic Master-Slave Replication individually and then write the responses.
 - P (Pair):** Each student is paired with their peers or groups to discuss the concepts of Master-Slave Replication.

S (Share): Students discussed with their peers and expand the share to the whole class discussion. Mr. Shunmugavel and Ms. Nishanthini of III AI & DS shared their views to the whole class.

- **Images / Screenshot of the practice:**

- **Reflective Critique:**

- ❖ **Feedback of practice from students and other stakeholders:**

- Students felt they had adequate time to think critically.
 - Students felt this activity provides a chance to collaborate in groups.

- ❖ ***Benefit of the practice:*** (E.g.: Outcome attainment would have increased due to innovative practice over conventional practice)
 - Students share the concept ideas with their peers that helps to build communication skills.
 - Students can be able to get more clarity in the particular topic through discussion and sharing their views with the other students in the class.
- ❖ ***Challenges faced in implementation:***
 - Students may not have enough time to independently reflect before delivering their ideas, depending on the time limits.

Academic Year 2023 – 2024 (Even Semester)

FEEDBACK

Active Learning Best practices: Think-Pair-Share Cooperative Learning Technique

Degree, Semester & Branch : V Semester & B. Tech AI / DS

Course Code & Title : CCS334 & Big Data Analytics

Name of the Faculty member (s) : Ms. S. Selva Birunda, AP / AD

Theme of discussion: Master – Slave Replication

Date and Time: 10.10.2023 & 9.00 am to 09.50 am

Feedback collected in class and also through online

Feedback Questionnaire:

- Does the activity encourage cooperative learning among yourself? **Yes No**
- Do you have a clear understanding about the Master-Slave Replication concepts?
Excellent Very Good Good Satisfactory
- Does this activity learning improve listening, communication and problem-solving skills?
Excellent Very Good Good Satisfactory

Feedback Analysis:
