

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University
Accredited by NAAC & An ISO 9001:2015 Certified Institution
NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Artificial Intelligence and Data Science

Academic Year 2025 – 2026 (Odd Semester)

Degree, Semester & Branch: B.Tech,VII&Artificial Intelligence and Data Science ‘A’

Course Code & Title: OMG355 – MULTIVARIATE DATA ANALYSIS

Name of the Faculty member (s): Dr.S.V.Anandhi

Innovative Practice Description

- **Unit / Topic:** Unit I /Concepts in Multivariate Techniques

- **Course Outcome:** CO 1

- **Topic Learning Outcome:** TLO 1,2

- **Activity Chosen:** Visible Quiz

- **Justification:**

The Concepts related to Classification of Multivariate Techniques, a visible quiz activity was carried out to gauge the student’s level of understanding.

- **Time Allotted for the Activity:** 15 Minutes

- **Details of the Implementation:**

1. Initially, 15 questions covering the important topic in basic concepts of System call was taken and prepared in a power point presentation.
2. The students were split into a group of five members. Each member of the group was given with a card containing A, B, C, D.
3. Each group was provided with a paper to write down the answer for each question.
4. Once the question is displayed one by one. The group member should raise the correct option card for the question.
5. The other member will write the team answer in the paper given. Finally, the paper was interchanged with the group and discussed the correct answers.

- **CO – PO / PSO mapping:**

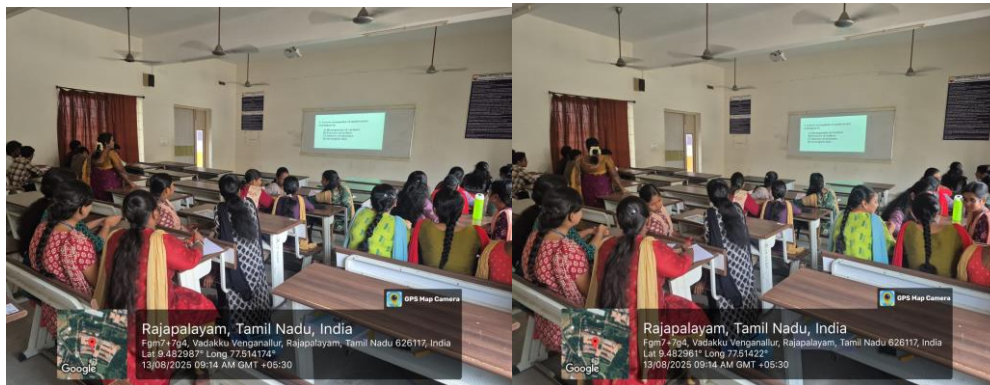

CO	PO1	PO2	PSO1
CO1	3	2	2

(1 – Low 2 – Moderate 3 – High)

- **PO / PSO mapped:**

Innovative practice	PO1	PO2	PSO1
Justification for correlation	Apply theory and principles of Multivariate Techniques to solve an engineering problem.	Identify algorithms of the statistical concepts applied to solve a complex problem.	Exhibit knowledge of Classification of Multivariate analysis for interpreting results.

- **Images / Screenshot of the practice:**

- **Reflective Critique:**

- ❖ **Feedback of practice from students and other stakeholders:**

The students felt easy to remember and recollect the concepts involved in the given topic which will make them to attend the questions.

1. Can you able to understand Multivariate concepts?

30 responses

2. Can you able to explore the concepts of Multivariate Techniques. ?

30 responses

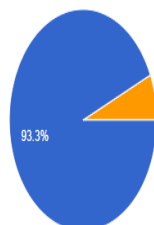

● Yes
● No
● May be

● Yes
● No
● May be

3. Can you able to explain the basics concepts of Multivariate Techniques

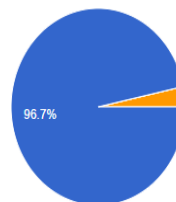

30 responses

● Yes
● No
● May be

4. Can you able to apply theory and principles of Multivariate Techniques to solve an engineering problem.

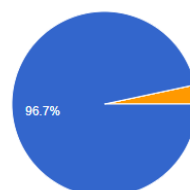

30 responses

● Yes
● No
● May be

5. Can you able to exhibit knowledge of Classification of Multivariate analysis for interpreting results.

30 responses

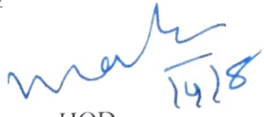

● Yes
● No
● May be

- ❖ ***Benefit of the practice:*** (E.g.: Outcome attainment would have increased due to innovative practice over conventional practice)
- ❖ This activity helped to quickly recap the important fundamental knowledge about Multivariate Techniques.
- ❖ Visible quiz is a team-based activity which supports collaborative learning through which the concepts will be made clear.
