2022-2023 (Even Semester)

ABOUT THE DEPARTMENT

- The Department of Civil Engineering was established in the year 2013. At present, it offers undergraduate programme, B.E. in Civil Engineering with a sanctioned intake of 60 students.
- The Department broadly covers important fields such as Surveying, Geotechnical Engineering, Structural Engineering, Hydraulics and Water Resources Engineering, Construction Materials and Practices, Environmental Engineering and Transportation Engineering.
- The Department has well established modern laboratories to cater to the needs of academic and research activities. It is well equipped with computational facilities and resources both in terms of hardware and software.
- The Department constantly facilitates students from other departments of the Institute as a gesture of support to their academic, co-curricular and research desires.
- The Department has well-qualified and committed faculty members, lab technicians and modern infrastructure in the form of elegant and smart classrooms, spacious laboratories, latest machinery and equipment.
- Students are encouraged to participate in co-curricular and extra-curricular activities to acquire leadership qualities. The Civil Engineering Association RIT STRUCTA has been functioning for the benefit of the students.
- It serves as a platform for students to make technical presentations, gain knowledge about recent advancements and bring together novel ideas.
- This Association aims at bridging the gap between the academic and the industry by inviting renowned industrialists and academicians to interact with students.
- Guest lectures, industrial visits, site visits, etc., are organized and value added courses are conducted on regular basis to ensure that students are conversant with recent developments in the field of Civil Engineering.
- The Department encompasses professional societies such as Indian Concrete Institute (ICI), ISTE chapters, which provides students a platform to acquire knowledge in various technical activities. It offers Engineering, Geotechnical Engineering, Environmental Engineering, Surveying and Highway Engineering.

VISION & MISSION

VISION OF THE DEPARTMENT

To Create knowledgeable and professionally competent Civil Engineers who are capable of providing global solutions to the problems related to Civil Engineering.

MISSION OF THE DEPARTMENT

1. Impart high quality education and technical skills to transform students into Professional Civil Engineers.
2. Establish state-of-the-art infrastructure for updating knowledge in recent developments and cutting edge technology.
3. Bridge the gap between academics and industry by practical training and providing solutions for design projects related to Civil Engineering.
4. Motivate the faculty members and students in the teaching learning process for achieving excellence to meet the global standards.
5. Produce graduates with high professional and ethical standards for fulfilling the needs of the industry and society.

Programme Educational Objectives

- Graduates of the programme will be professionally competent and apply the fundamental concepts of mathematics, science and Civil Engineering to solve problems in Civil Engineering.
- Graduates of the programme will perform their responsibilities as professional Civil Engineers with quality and ethics.
- Graduates of the programme, as part of an organization or as Entrepreneurs, will continue to learn with evolving technologies.
- Graduates of the programme will innovate and provide global solutions for a sustainable built environment.
- Graduates of the programme will contribute to the development of sustainable Infrastructure for the betterment of society.

Programme Specific Outcomes

- Communicate and present civil engineering projects effectively.
- Use the techniques, skills, and modern engineering tools necessary for civil engineering practice and project management.
- Provide sustainable solutions to civil engineering problems.
- Perform as design consultants in construction industry for the design of civil engineering structures.

Programme Outcomes

- **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
- **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
- **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
- **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- **Individual and teamwork:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to ones own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
- **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Events Organized

- Department of Civil Engineering, in association with RIT- Institution's Innovation Council (RIT-IIC), organized a National level workshop on "AN OVERVIEW OF PATENTS & PROCEDURE FOR PROTECTION" on 20.01.2023. Mrs. Suganya Jayavelu, Patent Analyst, Puthran & Associates, Chennai, was a resource for this event. Around 100 Participants (Research Scholars, Faculty, and Students) from all over the state attended this workshop. Faculty coordinators are Mrs. C. Subha, Assistant Professor (Senior Grade).
- Mrs. R. Kalaimani, Assistant Professor, and Mrs. A. Leema Margret, Assistant Professor, Civil Engineering, RIT. Department of Civil Engineering in association with the ICI Students chapter organized a Hands-on Training on "STAAD.Pro Connect Edition V22" from 27.01.23 to 28.01.23. Mr.R.Ganesh Kumar, Sr.Structural Consultant, TechApps Consulting, Chennai acted as a resource person for this training programme. III year Civil & IV year Civil Engineering Students actively participated in this programme. Mr.G.Karthikeyan, AP(Sr.Gr.)/Civil, acted as a coordinator for this training programme.

Workshop

A one day Workshop on “Mapping using Total station & GPS” was organized by the Department of Civil Engineering in association with RIT Structa on 10.02.2023. First, Second and Third-year civil engineering diploma students of 95 numbers and 9 faculty members from various Polytechnic Colleges of Tamilnadu participated, gained field experience on Total station & GPS and gathered knowledge about emerging technologies in Surveying. The students provided great feedback and discussed their workshop learnings. Dr. M.S. Dharmar, Head of the Department, Civil Engineering and Mr.A.Manickamamallan, Assistant Professor, Civil Engineering were the resource persons for this workshop. The practical field experience of using total station and EDM was given by Mr.G.Karthikeyan, AP(SG)/Civil, Mr.A.Manicka Mamallan, AP/Civil, Mrs.D.Darling Helen Lydia, AP/Civil and Mr.A.Arumugaganesh, Surveying Lab Technician. Mrs.A.Leema Margret, AP/Civil and Mr.T.Chockalingam, AP(SG)/Civil coordinated the entire workshop.

Workshop

Department of Civil Engineering, in association with the RIT ICI Students chapter, organized a Workshop on "Simulation & Design of Building Using STAAD Pro" on 24.02.2023. Mr. R. Muruganatham, Assistant Professor, Civil Engineering Department, Ramco Institute of Technology, Rajapalayam, was the resource person for the event. Around 47 Participants - II & III-year Civil Engineering Students of various Polytechnics Colleges attended this workshop. Faculty coordinators are Mrs. C. Subha, Assistant Professor (Senior Grade), Mrs. R. Kalaimani, Assistant Professor, and Mr. V. Ragavan, Assistant Professor, Civil Engineering, RIT.

- A Guest Lecture on “An overview on TEKLA Software” was organized by the Department of Civil Engineering in association with RIT STRUCTA on 26th April 2023 at Civil Seminar Hall. The Resource person for this workshop was our distinguished alumni Ms.R.Abinaya, Tekla Modeller, Struct Mech Engineers Pvt. Ltd., Bangalore. from 2016-2020 batch. She explained about Tekla software and its recent advancements in the design field especially in steel buildings. She also explained the step by step procedure on analyzing a building using the software. This workshop benefited a total of 66 Participants – II- & III- Year Civil Engineering Students.
