ABOUT THE DEPARTMENT

- The Department of Civil Engineering was established in the year 2013. At present, it offers undergraduate programme, B.E. in Civil Engineering with a sanctioned intake of 60 students. The Department broadly covers important fields such as Surveying, Geotechnical Engineering, Structural Engineering, Hydraulics and Water Resources Engineering, Construction Materials and Practices, Environmental Engineering and Transportation Engineering. The Department has well established modern
- laboratories to cater to the needs of academic and research activities. It is well equipped with computational facilities and resources both in terms of hardware and software. The Department constantly facilitates students from other departments of the Institute as a gesture of support to their academic, co-curricular and research desires. The Department has well-qualified and committed faculty members, lab
- technicians and modern infrastructure in the form of elegant and smart classrooms, spacious laboratories, latest machinery and equipment. Students are encouraged to participate in co-curricular and extra-curricular activities to acquire leadership qualities. The Civil Engineering Association RIT STRUCTA has been functioning for the benefit of the students. It serves as a platform for students to make technical presentations, gain knowledge about recent advancements and bring together novel ideas. This Association aims at bridging the gap between the academic and the industry by inviting renowned industrialists and academicians to interact with students. Guest lectures, industrial visits, site visits, etc., are organized and value added courses are conducted on regular basis to ensure that students are conversant with recent developments in the field of Civil Engineering. The Department encompasses professional societies such as Indian Concrete Institute
- (ICI), ISTE chapters, which provides students a platform to acquire knowledge in various technical activities. It offers consultancy services in the fields of Structural Engineering, Geotechnical Engineering, Environmental Engineering, Surveying and Highway Engineering.

- Create knowledgeable and professionally competent Civil Engineers who are capable of providing global solutions to the problems related to Civil Engineering.

- Impart high quality education and technical skills to transform students into Professional Civil Engineers. Establish state-of-the-art infrastructure for updating knowledge in recent developments and cutting edge technology. Bridge the gap between academics and industry by practical training and providing solutions for design projects related to Civil Engineering. Motivate the faculty members and students in the teaching learning process for achieving excellence to meet the global standards. Produce graduates with high professional and ethical standards for fulfilling the needs of the industry and society.

Programme Educational Objectives

- Graduates of the programme will be professionally competent and apply the fundamental concepts of mathematics, science and Civil Engineering to solve problems in Civil Engineering. Graduates of the
- programme will perform their responsibilities as professional Civil Engineers with quality and ethics. Graduates of the programme, as
- part of an organization or as Entrepreneurs, will continue to learn with evolving technologies. Graduates of the programme will innovate and
- provide global solutions for a sustainable built environment. Graduates of the programme will contribute to the development of
- sustainable Infrastructure for the betterment of society.

Programme Specific Outcomes

- Communicate and present civil engineering projects effectively.
- Use the techniques, skills, and modern engineering tools necessary for civil engineering practice and project management.
- Provide sustainable solutions to civil engineering problems.
- Perform as design consultants in construction industry for the design of civil engineering structures.

Programme Outcomes

- **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
- **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
- **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
- **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- **Individual and teamwork:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to ones own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
- **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Events Organized:

Department of Civil Engineering in association with Ramco Cements, ICI Student Chapter and Training & Placement Cell jointly organized the Cube Contest 2 for III year and IV year Civil Students on 07.02.2024. Totally 54 students were participated. Finally 16 students were shortlisted for casting of cubes. The winner of the batch was Shreehari K, IV YEAR, Sibi Bala P, Anantha Murugan K, and Aathi Laxmi M of III YEAR. The runner of the batch was Devar Piran M, IV YEAR, Gowri G, Dineshbabu S, and Nivedha S of III YEAR. The chief of the guest of the event Mr.Parmeshwar, Virudhunagar zonal head and Mr.Rajendran, Tirunelveli zonal head, Ramco Cements Limited. The faculty coordinators are Dr.G.Karthikeyan ASP/Civil, Mr.T.Chockalingam AP(SG)/Civil and Mrs.R.Kalaimani, AP/Civil

Department of Civil Engineering of Ramco Institute of Technology signed an MoU with Land Coordinates Technology, Chennai towards the establishment of Centre for Geospatial Technology using DGPS & Drone technology for the benefit of students, faculty members and engineers on 20.02.2024

Department of Civil Engineering of Ramco Institute of Technology, Rajapalayam in association with Institution of Engineers India organized the TECHNICAL PAPER PRESENTATION on 03.04.2024. 22 students from First, Second and Third year Civil students actively participated in the event. The program was conducted through offline mode.

RIT IGBC Student Chapter organizes Industrial Guest Lecture on “Global Green Initiative” on 26.02.2024. The Resource for this event was Civil Alumna Ms.R.Jeyasudha (2017-2021), Sustainability Engineer, LEED GA, Active Score AP, Innowell Engineering International Pvt Ltd. Sivakasi. She discussing "Global Green Initiatives" and exploring new perspectives was an incredible experience. Around 60 students from civil, EEE and Mechanical were benefited from this program. The faculty coordinator for this event were Mr.T.Chockalingam AP(SG)/Civil and Mr.V.Ragavan, AP/Civil.

Department of Civil Engineering in association with RIT Structa organizes a Guest Lecture on “Exploration of Steel Structure an Experiential Learning” on 18.03.2024. The Resource for this event was Civil Alumna Ms.R.Abinaya (2015-2019), Tekla Modeler, Struct Mech Engineers Pvt. Ltd. Bangalore. She explain experiential learning on steel structure.Around 30 Civil students were benefited from this program. The faculty coordinator for this event were Mr.T.Chockalingam AP(SG)/Civil and Mr.V.Ragavan, AP/Civil.

Parents Teachers Meeting

The Parents Teachers Meeting (Parents of I & II-Year students) was held on 24.05.2024 (Friday) at 3.00 PM – 4.30 PM in Civil Department Seminar hall

Faculty Participation:

Mr.T.Chockalingam, AP(SG)/Civil Engineering reviewed a conference paper titled "A Review-on Experimental Investigation of Metakaolin Behavior on Pervious Concrete" for the conference "International Conference on Sustainable Goals in Materials, Energy, and Environment (ICSMEE)" going to be organized by Mangalam College of Engineering, Ettumanoor, Kerala.

Mr.T.Chockalingam, AP(SG)/Civil Engineering participated in Naan Mudhalvan - Master Assessor Training Programme on "Product Design Engineering and Modelling" held at Bannari Amman Institute of Technology, Sathyamangalam from 08 Mar., 2024 to 09 Mar., 2024

Faculty Participation:

Mrs.R.Kalaimani, AP/Civil, Mrs.A.Leema Margret AP/Civil & Mr.V.Ragavan AP/Civil, One week faculty development program on Publishing Scopus indexed journal, Research centre, KLS institute of Mangement Education and Research, Belagavi during 12.02.2024 to 17.02.2024

Mrs.A.Leema Margret, AP/Civil & Mr.V.Ragavan Ap/Civil Online Training Programme on " Preparation of Bar Bending Schedule, Construction Management Training Institute, Bengaluru. 1.30 hours Daily / 7 Sessions from 12th March 2024

Dr.S.Dharmar HOD/Civil, Advancements in Transportation and Geotechnics for Furture Infrastructure during 01.04.2024 to 06.04.2024

Dr.S.Dharmar HOD/Civil, One week Faculty Development Programme on “Emerging Research Trends in Civil Engineering” during 06.05.2024 to 11.05.2024

Mr.A.Manicka Mammallan AP/Civil, 5 days International Faculty Development Program on Digital Marketing during 27th May to 31st May 2024.

Mr.V.Ragavan AP/Civil, One Week Faculty Development Programme / Short Term Training Programme on Importance of Soil Investigation in Construction Projects organised by National Institute of Technical Teachers Training and Research, Kolkatta from 8th April to 12th April, 2024 successfully.

Guest Lecture Delivered

Mr.T.Chockalingam, AP(SG)/Civil Engineering delivered a lecture titled "Ideation: Cultivating Creativity for Innovation" organized by Internal Quality Assurance Cell of Ayya Nadar Janaki Ammal College, Sivakasi on 25.03.2024.
