ABOUT THE DEPARTMENT

The Department of Civil Engineering was established in the year 2013. At present, it offers undergraduate programme, B.E. in Civil Engineering with a sanctioned intake of 60 students. The Department broadly covers important fields such as Surveying, Geotechnical Engineering, Structural Engineering, Hydraulics and Water Resources Engineering, Construction Materials and Practices, Environmental Engineering and Transportation Engineering.

The Department has well established modern laboratories to cater to the needs of academic and research activities. It is well equipped with computational facilities and resources both in terms of hardware and software. The Department constantly facilitates students from other departments of the Institute as a gesture of support to their academic, co-curricular and research desires.

The Department has well-qualified and committed faculty members, lab technicians and modern infrastructure in the form of elegant and smart classrooms, spacious laboratories, latest machinery and equipment. Students are encouraged to participate in co-curricular and extra-curricular activities to acquire leadership qualities. The Civil Engineering Association RIT STRUCTA has been functioning for the benefit of the students. It serves as a platform for students to make technical presentations, gain knowledge about recent advancements and bring together novel ideas. This Association aims at bridging the gap between the academic and the industry by inviting renowned industrialists and academicians to interact with students.

Guest lectures, industrial visits, site visits, etc., are organized and value added courses are conducted on regular basis to ensure that students are conversant with recent developments in the field of Civil Engineering.

The Department encompasses professional societies such as Indian Concrete Institute (ICI), ISTE chapters, which provides students a platform to acquire knowledge in various technical activities. It offers consultancy services in the fields of Structural Engineering, Geotechnical Engineering, Environmental Engineering, Surveying and Highway Engineering.

Vision

Create knowledgeable and professionally competent Civil Engineers who are capable of providing global solutions to the problems related to Civil Engineering.

Mission

- Impart high quality education and technical skills to transform students into Professional Civil Engineers.
- Establish state-of-the-art infrastructure for updating knowledge in recent developments and cutting edge technology.
- Bridge the gap between academics and industry by practical training and providing solutions for design projects related to Civil Engineering.
- Motivate the faculty members and students in the teaching learning process for achieving excellence to meet the global standards.
- Produce graduates with high professional and ethical standards for fulfilling the needs of the industry and society.

Program Outcomes (POs)

Engineering Graduates will be able to:

- **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
- **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
- **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
- **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- **Individual and teamwork:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
- **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Events Organized

One Day Hands On Training On Mapping Using DGPS” was organized by the Department of Civil Engineering (Association: RIT- STRUCTA) on 24th July 2024 at Civil Seminar Hall from 10.00AM to 4.00 PM. Mr. A.ManickaMamallan, Assistant Professor, Civil Engineering explained about the emerging fields and scope for drone Surveying. This guest lecture benefited a total of 36 Participants and Faculty from Academic Institutions, Practicing Engineers from Industry and UG & PG Students.

The Department of civil engineering in association with IE(I) Students chapter organized a Hands-on Training on Building Information Modeling was conducted on 24.07.2024 and 25.07.2024 at the CAD Laboratory, Ramco Institute of Technology, Rajapalayam, for IV year Civil Engineering students. Mr. Mohammed Muneeb, Senior BIM , TechApps Consulting, Chennai, was the resource person for this training program

Department of Civil Engineering in association with ICI student chapter organizes a Guest Lecture on " Design and Testing of Transmission line Towers" for III & IV year Civil Year students on 31 August 2024. The Resource Person of this event Dr.R.Balagopal, Principal Scientist, Tower Testing and Research Station,CSIR-SERC, Taramani.

Department of Civil Engineering in association with IE(I) student chapter organizing a Guest Lecture on "Introduction to Ocean Structures & Roles and Opportunities for Civil Engineering in Ocean Engineering Field. for III and IV year civil Students on 05.09.2024. The resource person for this lecture was Mr.K.Sridhar, Senior Research Fellow, PhD,. Research Scholar, Department of Ocean Engineering, Indian Institute of Technology, Madras

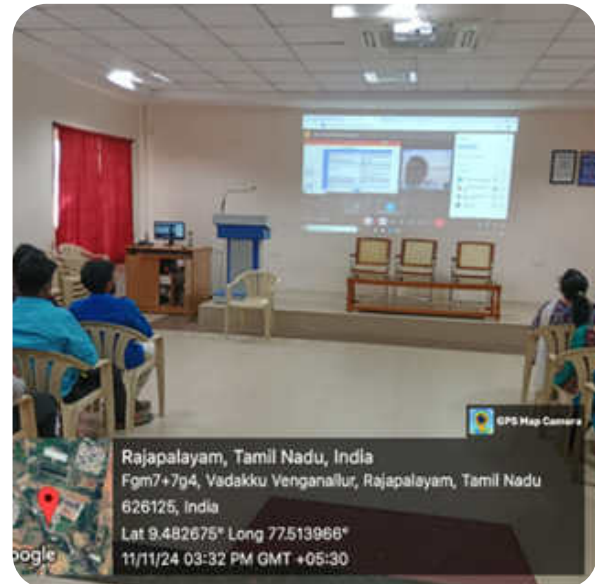

Guest Lecture on “Revolutionizing Structural Designs with Tekla” was organized by the Department of Civil Engineering (Association: RIT- STRUCTA) on 13.09.2024 at B3L05 Hall from 10.30 AM to 12.30 PM. The Resource person for this guest lecture was Mr. S. Jeffri, Tekla Operational Head Trainer, Design Drafting, Tekla Authorized Training Centre, Tirunelveli. Mr. S. Jeffri who explained the importance of the Tekla Software in Civil Engineering and its advantages. He offered live demonstrations and practical tips to help students understand the software’s features and functionality more effectively

Guest lecture on “Design of Compression Members” was organized by Department of Civil Engineering, Ramco Institute of Technology, Rajapalayam & RIT Structa, Association of Department of Civil Engineering on 24.10.2025 in the Civil Seminar Hall. The resource person for this event was Er.B.Muthukumarasamy, Adjunct Faculty, Dept of Civil, Structural Consultant, Valuer, Chartered Engineer, Proprietor, Absara Construction, Rajapalayam. The resource person provided an insightful introduction to compression members, behavior under compression, classification of sections, design principles and theories, design procedures, failure modes and prevention

A Guest lecture on "Introduction to SWAT MODEL" was organized by the Department of Civil Engineering in association with the RIT ICI Student Chapter on 11 November 2024 at Civil Seminar Hall from 03.30 PM to 4.30 PM. The chief guest invited for the lecture was Dr. P. Thirunavukkarasu, GIS Consultant, Centre for Social Justice and Equity, School of Social work, Chennai, Chennai. He gave a detailed lecture about Soil and Water Assessment Tool is a small watershed to river basin scale model used to simulate the Quality and Quantity of surface and ground water.

Seminar on “Energy Conservation” was organized by RIT IGBC Student Chapter on 30th August 2024 at Mechanical Seminar Hall from 03.30 PM to 4.30 PM. The Resource person for this session was Mr. R. Arun Kumar, IGBC Accredited Professional, AP(SG), Department of Mechanical Engineering, RIT, Rajapalayam. The resource person began by emphasizing the critical importance of energy conservation across various sectors, particularly for Civil, EEE, and Mechanical engineering fields. The speaker explained the role of engineers in designing energy-efficient systems and highlighted innovations in renewable energy, smart grids, and energy-efficient construction.

Eco Build Off - Quiz and Collaborate Event was organized by RIT IGBC Student Chapter on 13th September 2024 at RIT HARITA Centre of Excellence from 11.30 AM to 12.30 PM. Mr.S.Guru Balaji stated the importance of Celebrating the World Green Building Week 2024 and its theme to all the students. Then the students were split into 11 teams based on their own interest and the first round - Quiz were conducted with 25 Marks, second round - Connection were conducted with 25 Marks and the final round - Short term word were conducted with 50 Marks. Based on the evaluation, Team No 5 got first place, Team No 4 got second place and Team No 7 got third place and they were given with prizes and appreciation certificates from RIT IGBC Student Chapter Convener, Dr.S.Dharmar, HoD/Civil.

The session on “Sustainable Built Environment - Water & Wastewater Management” was organized by RIT IGBC Student Chapter in association with Department of Civil Engineering on 24th October 2024 at B3LO5 from 10.00 AM to 11.30 AM. The Resource person for this guest lecture was Dr.C. Ramprasad, IGBC Accredited Faculty, Senior Assistant Professor - I, School of Civil Engineering for Bioenergy, SASTRA Deemed University, Thanjavur.

FACULTY PARTICIPATION

Mrs.C.Subha AP(SG)/Civil, Mrs.R.Kalaimani AP/Civil, Mrs.A.Leema Margret AP/Civil and Mr.V. Ragavan AP/Civil have Participated in the Two Week Short Term Training Program (STTP) on “Research Writing, Funding Proposal Development, and Patent Drafting”-Jointly organized by Vidya Vihar Institute of Technology, Purnea, Bihar, India & RSP Science Hub, Coimbatore, Tamil Nadu, India during July 08- 20, 2024.

Mr.T.Chockalingam, Assistant Professor (Senior Grade) has participated in AICTE - QIP - Post Graduate Certificate Program on "3D Printing" organized by Indian Institute of Technology, Palakkad from 08.07.2024 to 16.07.2024

Mrs.C.Subha participated in the Virtual National Seminar on 26.07.2025 “Sustainable Plastics” conducted by Centre for Environmental studies in Anna University, Chennai – 600 025.

Mrs.R.Kalaimani AP/Civil and Mrs.A.Leema Margret AP/Civil have Participated in the one Week Short Term Training Program (STTP) on “Transformative Education: Integrating AI Tools with Outcome Based Learning”-Jointly organized by Department of Civil Engineering,Radhakrishna Institute of Technology and Engineering (RITE), Odisha, India & RSP Science Hub, Coimbatore, Tamil Nadu, India during 5 Aug.,2024 to 11 Aug., 2024.

Dr.G.Karthikeyan ASP/Civil participated Five days FDP on “3D Printing in Construction Technology” organized by Department of civil Engineering, National Engineering college, Kovilpatti during 02.09.2024 to 06.09.2024.

Dr.G.Karthikeyan ASP/Civil participated One day workshop on “Generative AI” conducted as a pre-conference workshop on 5th March 2024 during the International conference on “ Research Trends in AI & IOT for Infrastructure and Industry (AIII 2024) organized by Centre for Research, Anna University.

Dr.G.Karthikeyan ASP/Civil participated 5 day National workshop on the “Field Oriented Challenges in Civil Engineering FOCCE-2024 held virtually at National Institute of Jamshedpur during 05.08.2024 to 09.08.2024

Mr.T.Chockalingam, AP(SG)/Civil Engineering and Mr.R.Muruganantham, AP/Civil Engineering participated in Glass Academy Faculty Development Program held at Sankar Polytechnic College, Tirunelveli from 26th September 2024 to 28th September 2024.

Dr.G.Karthikeyan ASP/Civil participated One day workshop on “Generative AI” conducted as a pre-conference workshop on 5th March 2024 during the International conference on “ Research Trends in AI & IOT for Infrastructure and Industry (AIII 2024) organized by Centre for Research, Anna University.

Dr.G.Karthikeyan ASP/Civil participated 5 day National workshop on the “Field Oriented Challenges in Civil Engineering FOCCE-2024 held virtually at National Institute of Jamshedpur during 05.08.2024 to 09.08.2024

Mr.T.Chockalingam, AP(SG)/Civil Engineering and Mr.R.Muruganantham, AP/Civil Engineering participated in Glass Academy Faculty Development Program held at Sankar Polytechnic College, Tirunelveli from 26th September 2024 to 28th September 2024.

Guest Lecture delivered

	Issue No. 01	
--	----------------	--

Dr.G.Karthikeyan, Associate Professor (Grade I)/Civil, attended the Program Advisory Committee Meeting for the Academic Year 2024–2025 at PACR Polytechnic College, Rajapalayam, on August 14, 2024, and gave suggestions on the curriculum for Civil Engineering

Dr.M.Indhumathi ASP/Civil attended a Nan Mudhalvan Faculty Development programme from 05.08.2024 to 10.08.2024 in the title of "Interior design Techniques and demystified" at Anna university Tirunelveli.

Faculty Online Course

	Issue No. 01	
--	----------------	--

Mr.T.Chockalingam, AP(SG)/Civil Engineering has successfully completed the NPTEL Course of Duration 12 weeks on "Metal Additive Manufacturing" with Elite+Silver offered by Indian Institute of Technology, Kanpur.

Mr.T.Chockalingam, AP(SG)/Civil Engineering has successfully completed the NPTEL Course of Duration 12 weeks on "Fundamentals of Additive Manufacturing Technologies"with Elite offered by Indian Institute of Technology, Guwahati.

Mrs.R.Kalaimani AP/Civil, Mrs.A.Leema Margret AP/Civil Engineering has successfully completed the NPTEL Course of Duration 12 weeks on "Building Materials as a cornerstone to sustainability" with Elite+Silver offered by Indian Institute of Technology, Madras.

Mr.V.Ragavan AP/Civil Engineering has successfully completed the NPTEL Course of Duration 12 weeks on "Building Materials as a cornerstone to sustainability" with Elite+Silver 5% Topper offered by Indian Institute of Technology, Madras.

Mr.V.Jeevanantham AP/Civil Engineering has successfully completed the NPTEL Course of Duration 12 weeks on "Ground Improvement" with Elite+Silver offered by Indian Institute of Technology, Kharagpur.

Mr.V.Jeevanantham AP/Civil has successfully completed NPTEL Course of Duration of 4 Weeks Geotechnical Engineering Laboratory offered by Indian Institute of Technology, Bombay

Mrs.B.Bharani Baanu AP/Civil Engineering has successfully completed the NPTEL Course of Duration 12 weeks on "Natural Resource Management" with 5%Topper offered by Indian Institute of Technology, Guwahati.

Dr.G.Karthikeyan ASP/Civil Engineering has successfully completed the NPTEL Course of Duration 8 weeks on " Accreditation and Outcome Based Learning" with Elite offered by Indian Institute of Technology, Kharagpur.

Alumni Interaction

	Issue No. 01	
--	----------------	--

Ms. R. Harshani (2017-2021)AP/Civil, National Engineering College, Kovilpati has interacted with I year civil students on 10.09.2024. She insisted the students be active members of professional clubs and societies and also encouraged them to utilise the library in the department as well as the college. In addition to these, she highlighted the mistakes not to be made in four years of college life. She insisted on utilising each and every minute effectively.

Mr.S.Saravanan(2017-2021) Shanumugam construction, Sivakasi has interacted with I year civil students on 10.09.2024. He explained the construction field in civil engineering involves the planning, designing, and building of infrastructure like roads, bridges, buildings, and dams. It requires expertise in structural analysis, materials science, and project management. Civil engineers ensure safety, durability, and cost-efficiency in construction projects. The field also emphasizes environmental sustainability and efficient resource use. Innovations in construction technology, like automation and green building materials, are shaping the future of civil engineering.

What are the Steps to Secure a Government Building Tender?" held by RIT Alumni Association and Department of Civil Engineering on 05/10/2024 for IV year Civil. The resource person for this event was Mr.N.Venkatesh (2017-2021), Government Contractor, Virudhunagar. He has been created the aware of tender projects in government. He insists the keys to securing a tender is understanding the requirements, preparing the right documents, and submitting a strong proposal on time.

Technical Webinar on “Solar Water Pumping System” was organized by the Department of Civil Engineering in association with RIT IGBC Student Chapter on 28th Oct 2024 at Civil Seminar Hall from 3.30 PM to 04.30 PM. The Resource person for this Guest Lecture was Ms.B.Hema Karthicka (2016-2020), Sustainability Consultant, Grundfos Pumps India Pvt. Limited, Chennai. The resource person explained a solar water pumping system is a technology that uses solar energy to pump water. It's widely used for agricultural irrigation, domestic water supply, and livestock watering in remote areas where grid electricity is unavailable or unreliable

THE END
