NAAC Accredited with 'A+' Grade & An ISO 9001: 2015 Certified Institution

NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Computer Science and Business Systems

Academic Year 2024 – 2025 (Even Semester)

Degree, Semester & Branch: III Semester B.E. ECE 'A'

Course Code & Title: CCW332 & Digital Marketing

Name of the Faculty member (s): Mrs.M.Jeya Sundari, AP/CSBE

Innovative Practice Description

- **Unit / Topic:** Unit II / One page & Off page technique

- **Course Outcome:** CO2

- **Topic Learning Outcome:** TLO2,3

- **Activity Chosen:** Flipped Class Room

- **Justification:**

The flipped classroom approach is highly effective for teaching On-Page and Off-Page SEO techniques, as it encourages students to explore foundational concepts before class through videos, articles, and tutorials. This allows classroom time to be used for deeper engagement, such as analyzing real websites, evaluating SEO elements, and participating in group discussions or live audits. By flipping the learning environment, students actively apply theoretical knowledge to practical situations, which enhances understanding and retention. It also supports self-paced learning, promotes critical thinking, and helps students develop problem-solving skills essential for executing successful SEO strategies in real-world digital marketing scenarios.

Time Allotted for the Activity: 40 Minutes

- **Details of the Implementation:**

- ✓ Pre-class materials such as video tutorials, reading content, and short quizzes on On-Page and Off-Page SEO were shared with students through the LMS/Google Classroom one week before the session.
- ✓ Students were instructed to watch and understand basic concepts like meta tags, keywords, backlinks, and content optimization before attending the class.
- ✓ During the classroom session, students were divided into groups and given real-world website case studies to analyze and identify SEO strengths and weaknesses using tools like Ubersuggest or Moz.
- ✓ Students participated in a collaborative discussion and presentation, applying their pre-learned knowledge to suggest improvements in On-Page and Off-Page strategies for the given websites.

- **CO – PO / PSO mapping:**

CO	PO1	PO2	PO5	PO10	PSO1	PSO2	PSO3
CO2	2	2	2	2	3	2	2

(1 – Low 2 – Moderate 3 – High)

PO / PSO mapped:

Innovative practice	PO1	PO2	PO5	PO10	PSO1	PSO2	PSO3
	2	2	2	3		2	2
Justification for correlation	Students can apply fundamental knowledge of digital marketing and SEO concepts to real-world scenarios.	Students can analyze website issues related to SEO and suggest improvements based on learned strategies.	Students will use digital marketing tools (e.g., Ubersuggest, Moz, Google Search Console) for analysis and evaluation.	Effectively present SEO findings and strategies during classroom discussions and presentations.	Apply core digital marketing and SEO concepts to analyze and improve website visibility and ranking.	Students Utilize modern SEO tools and techniques to evaluate and optimize on-page and off-page performance.	Demonstrate effective communication and teamwork skills during role-based marketing simulations.

Reflective Critique:

❖ **Feedback of practice from students and other stakeholders:**

- Students found the flipped classroom approach engaging and helpful for understanding practical SEO techniques.
- Stakeholders appreciated the use of real-world tools and case studies, enhancing industry relevance.

Benefit of the practice:

- ✓ Encourages active learning and better retention through pre-class preparation and in-class application.
- ✓ Enhances practical skills by exposing students to real-world SEO tools and techniques.
- ✓ Promotes teamwork, critical thinking, and communication during collaborative tasks.
- ✓ Allows self-paced learning, catering to different learning styles and improving concept clarity.

Challenges faced in implementation:

- Some students did not review pre-class materials, affecting in-class participation.
- Limited access to premium SEO tools are restricted.
- Varying levels of digital literacy created a gap in tool usage efficiency.
- Managing group dynamics during in-class activities was occasionally challenging.
