NAAC Accredited with 'A+' Grade & An ISO 9001: 2015 Certified Institution

NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Computer Science and Business Systems

Academic Year 2024 – 2025 (Even Semester)

Degree, Semester & Branch: III Semester B.E. ECE 'A'

Course Code & Title: CCW332 & Digital Marketing

Name of the Faculty member (s): Mrs.M.Jeya Sundari, AP/CSBE

Innovative Practice Description

- **Unit / Topic: Unit IV / Engagement Marketing**

- **Course Outcome: CO4**

- **Topic Learning Outcome: TLO4**

- **Activity Chosen: Think Pair Share**

- **Justification:**

The **Think-Pair-Share** strategy is an effective innovative practice for teaching **Engagement Marketing** as it encourages active participation, critical thinking, and collaboration—core elements of engagement itself. By first allowing students to reflect individually, then discuss with a partner, and finally share with the class, this method mirrors the interactive and personalized nature of engagement marketing. It helps students connect theoretical concepts with real-world brand strategies, enhances understanding of consumer interaction techniques, and fosters creative thinking essential for designing engaging marketing campaigns.

Time Allotted for the Activity: 40 Minutes

- **Details of the Implementation:**

- ✓ Pose a thought-provoking question related to engagement marketing (e.g., *"How can a brand build long-term relationships with customers through social media?"*). Give students 2–3 minutes to think and jot down their ideas individually.
- ✓ Ask students to pair up and discuss their thoughts. They compare strategies, examples, and ideas, encouraging deeper understanding through peer interaction (5 minutes).
- ✓ Invite pairs to share their key points with the whole class. Facilitate a short discussion, highlighting diverse perspectives and linking them to engagement marketing principles.
- ✓ Summarize the shared ideas and relate them to engagement marketing concepts like personalization, emotional branding, or customer journey mapping, reinforcing the lesson objectives.

- **CO – PO / PSO mapping:**

CO	PO1	PO2	PO8	PO9	PSO1	PSO2
CO2	2	2	2	2	3	2

(1 – Low 2 – Moderate 3 – High)

PO / PSO mapped:

Innova tive practi ce	PO1	PO2	PO8	PO9	PSO1	PSO2
	2	2	2	3		2
Justifica tion for correlati on	Students apply concepts of engagement marketing in a structured learning activity.	Through discussion, students analyze brand engagement issues and suggest creative solutions.	Sharing ideas improves marketing communication skills.	Pair and group discussions encourage cooperative learning and teamwork.	Students relate engagement marketing to real brand strategies.	The activity fosters creativity in developing customer engagement techniques.

Reflective Critique:

❖ **Feedback of practice from students and other stakeholders:**

- Students actively participated in discussions, shared diverse brand strategies, and demonstrated improved communication and analytical skills.
- The collaborative format encouraged peer learning and helped connect theoretical knowledge with real-world marketing practices.
- Overall, the method proved valuable in making the learning process interactive, reflective, and application-oriented.

Benefit of the practice:

- ✓ Students practice articulating marketing ideas clearly with peers and the class.
- ✓ Stimulates individual reflection and the generation of innovative engagement strategies.
- ✓ Helps students apply marketing concepts to actual brand scenarios, improving practical understanding.

Challenges faced in implementation:

- Some students may hesitate to share their thoughts due to lack of confidence or communication barriers.
- Students unfamiliar with real-world marketing examples may struggle to contribute meaningfully.
