

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University

Accredited by NAAC & An ISO 9001:2015 Certified Institution

NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Computer Science and Business Systems

Academic Year 2024 – 2025 (Odd Semester)

Degree, Semester & Branch: III Semester B.Tech. CSBS

Course Code & Title: CS3391 Object Oriented Programming

Name of the Faculty member (s): Dr.S.Erana Veerappa Dinesh, ASP/CSBS

Innovative Practice Description

Unit/Topic: Unit III / Inter Thread Communication

Course Outcome: CO3

Topic Learning Outcome: TLO8

Activity Chosen: Think Pair Share

- **Justification:**

The understanding of inter thread communication is essential for developing java programming. Hence the students have to think the way of writing program using thread. Hence this activity is chosen to make them think and communicate whether their thought process is correct or not with their neighbors.

- **Time Allotted for the Activity:** 30 Minutes

- **Details of the Implementation:**

A Collaborative, active learning strategy, in which students work on a question posed by instructor, first individually (Think), Write in a paper, then work in pairs or groups (Pair) to solve the problem, and finally share their solution with the entire class (Share).

- **Think** – Write- Students were provided with questions on reading and writing files. The student has to think individually and write the answer on a paper.

- **Pair**- After writing the answers, the students were allowed to discuss with neighbors and justify the resultant answer to each other. The pair with neighbor was shown in Fig.2

- **Share** - Once the conclusion is made between the pair, then it is to be shared among the whole class by any of the student from the team and Santhosh G of II Year CSBS was share the answers to whole class was shown in Fig 3 .

- **CO – PO / PSO mapping:**

CO	PO1	PO2	PO3	PO9	PO10	PO12	PSO1	PSO2	PSO3
CO 3	3	3	3	1	1	1	3	1	1

(1 – Low

2 – Moderate

3 – High)

- **PO / PSO mapped:**

Innovative practice	PO1	PO2	PO3	PO9	PSO1
	3	3	3	1	3
Justification for correlation	The students apply the knowledge of inter thread communication in java	The students evaluate given problem statements and identify solutions	The students evaluate given problem statements and identify solutions	The students demonstrate problem-solving skills as a team.	The students can use inter thread concepts to apply the various cutting-edge technologies

- **Images / Screenshot of the practice:**

Figure 2 Pair of Students

Figure 3 Santhosh G Share the answer

Reflective Critique:

❖ Feedback of practice from students and other stakeholders:

- Some of the students write answers for the questions easily and share their ideas with others.
- Some of them need more explanation and examples to get clarity on the generic methods.

❖ Benefit of the practice: (E.g.: Outcome attainment would have increased due to innovative practice over conventional practice)

It helps the students to share ideas with classmates and builds oral communication skills. They completed the task by coordinating with each other and get more confidence, clear understanding in this topic when discussing with their peers.

❖ **Challenges faced in implementation:**

- Students who did not fully grasp the concept were unable to complete the activity within the allotted time.
- Ensuring active participation and involvement from all students in this activity proved to be a challenge.
