

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University
Accredited by NAAC & An ISO 9001:2015 Certified Institution
NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Computer Science and Business Systems

Academic Year 2023–2024 (Odd Semester)

Degree, Semester & Branch: III Semester B.Tech CSBS

Course Code & Title: CS3391 Object Oriented Programming

Name of the Faculty member: Dr.S.Erana Veerappa Dinesh, AP/CSBS

Innovative Practice Description

- **Unit/Topic:** Unit 3/ Java's Built-in Exceptions
- **Course Outcome:** The students will able to make use of exception handling mechanism and multithreading to solve real world problems
- **Topic Learning Outcome:** TLO6
- **Activity Chosen :** Crossword Puzzle
- **Justification:**
Various Built In Exceptions in Java can be easily paired with the help of crossword puzzle which leads to the greater retention of the data among the students.
- **Time Allotted for the Activity:** 20 Minutes
- **Details of the Implementation:**
 - A crossword puzzle is a fun word game that encourages students to remember the idea and try to figure out the solution on their own. Instead of administering standard MCQ tests, it sparks pupils' curiosity.
 - The activity was conducted in a classroom for a duration of 20 minutes. The students were given 10 questions as a crossword puzzle in the topic of built in exceptions in java. They have to think and write the answers in the given puzzle.
 - The activity was conducted during the last 20 minutes of the class after that the answers were corrected. Sample answers were shown in figure 1. The answers for the wrong questions were discussed at the end of the class to make them to know the answer of all the questions.

CO–PO/ PSO mapping:

CO	PO1	PO2	PO3	PO8	PO9	PO10	PO12	PSO1	PSO2	PSO3
CO2	3	3	2	1	2	2	1	2	1	1

(1– Low 2 –Moderate 3 – High)

• **PO/ PSO mapped:**

Innovative practice	PO1	PO2	PO3	PO9	PSO1
	3	3	2	2	2
Justification for correlation	The students apply the knowledge of java built in exceptions	The students analyze the given questions and identify solutions	The students find the solutions for the given question.	The students demonstrate problem-solving skills as a team.	The students apply the methods of exceptions for solving the novel problems

CS3391 Object Oriented Programming
Unit III – Exception Handling and Multithreading
Innovative Practice Session- Crowned Puzzle
Java's Built in Exceptions

Across

- Exception and Error are direct subclasses of which class
- A Block must be preceded by try block
- Attempt to index outside the bounds of a string
- An exception occur when invalid use of a null reference
- Exception that is checked by the compiler

Down

- Code always executes, irrespective of occurrence of an Exception
- It is thrown when an input-output operation failed or interrupted
- Problems that arise beyond the control of the user
- Exception is raised when we try to access a class whose definition is not found
- Exception is found in which package in java
- Generate an exception explicitly
- It is thrown when an exceptional condition has occurred in an arithmetic operation

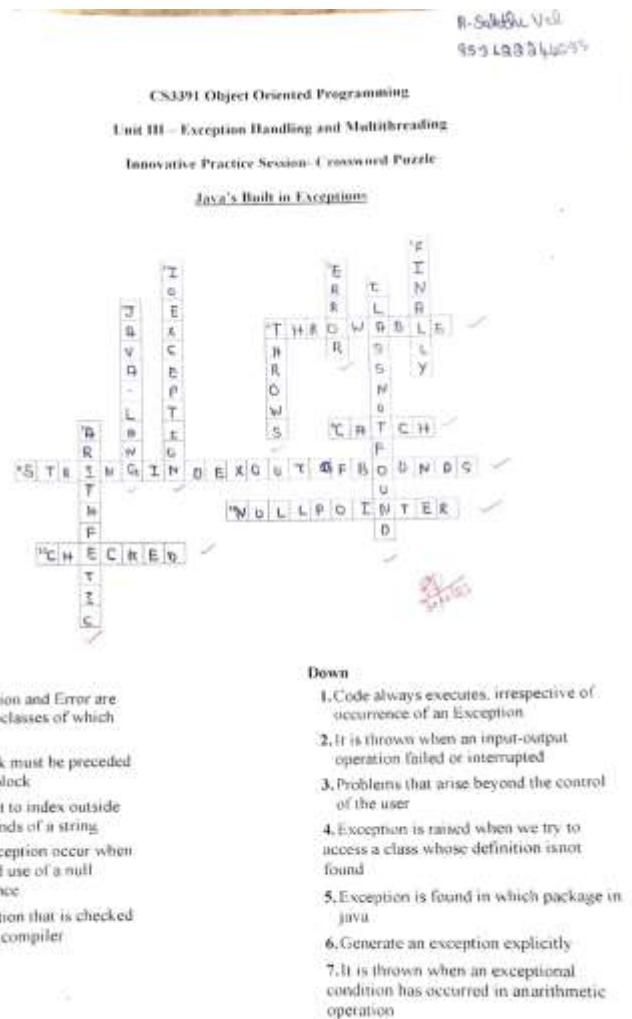

Fig1:Sample Answers by Haritha M and Sakthivel R of II year CSBS

- **Reflective Critique:**

- ✓ **Feedback of practice from students and other stakeholders:**

Some of the students find very easy to identify the various methods used in java built in exceptions.

Some of them take more time to complete the puzzle need more clarification on the some methods in exceptions.

- ✓ **Benefit of the practice :** (E.g.: Outcome attainment would have increased due to innovative practice over conventional practice)

It helps the students to think on their own and develop the java programs using built in exceptions. The students level of understanding on this topic gets increased.

- ✓ **Challenges faced in implementation:**

The students who didn't understand the concept clearly were unable to complete it within the allotted time.

Few of them were struggled to find the answer for the questions.
