

Department of Computer Science and Business systems

Academic Year 2024 – 2025 (Even Semester)

Degree, Semester & Branch: VI Semester B.Tech Computer Science and business systems

Course Code & Title: CW3601 – Business Analytics

Name of the Faculty member (s): Mrs.M.Shabana Fathima, AP/CSBS

Innovative Practice Description

1. Unit / Topic: Unit I / Business Problem Definition-Data Collection

- **Course Outcome:** CO1
- **Topic Learning Outcome/UO:** 1
- **Activity Chosen:** Think-Pair-Share
- **Date of Implementation:** 27.02.2025
- **Justification:**
 - Business problem definition and data collection is one of the important step in analytics process. The students are eager to discuss and share their ideas. This practice assists students in gaining a thorough understanding of this topic and real-time projects. Students think about a topic on their own and express their thoughts with their classmates, which helps them enhance their identify the objective of the any business problems.

Time Allotted for the Activity:

- **Procedure of the Implementation:**
 - Collaborative, active learning strategy, in which students work on a problem posed by instructor, first individually (Think), then in pairs (Pair) or groups, and finally together with the entire class (Share).
 - T (Think): Teacher asks a specific question about the topic. Students "think" about what they know or have learned, and come up with their own individual answer to the question. [Takes 1-5 Minutes].
 - P (Pair): Teacher asks another question, related to the previous one, that is suitable to deepen the students' understanding of the topic. Each student is paired with another student. They share their thinking with each other and proceed with the task. [Takes 2-5 Minutes].
 - S (Share): Students share their thinking (or solution) with the entire class. Teacher moderates the discussion and highlights important points. [Takes 05-10 minutes].

Details of the Implementation

- First of all, teacher taught the topics and provide the materials to think and discuss.
- Teacher provide a different strategy/real time business based questions about the topic and ask them to form a group and gave a 5 minutes' time to think. The Students come up with their own individual answer to the question.
- Finally, the students shared their ideas and answers bases on their application based questions.

- The Figure 1 shows the Think Pair Share activity done by the students.
- The Figure 2 shows the ideas shared by the students.
- Finally, teacher and students discussed the answers of all questions at the end of the activity.

CO – PO / PSO mapping:

CO	PO1	PO2	PO3	PO7	PO9	PO11
CO1	3	3	3	1	3	1

(1 – Low 2 – Moderate 3 – High)

Innovative practice	PO1	PO2	PO3	PO7	PO9	PO11
	2	2	1	1	2	1
Justification for correlation	Students involves Logical thinking and make the students able to think about different ideas.	Students will be able to understand the problem in real manner than theoretical explanation.	Students will be able to provide solution for the problem	Students will able to understand the problem in environmental contexts	As the students are involved in the activity as team of two, the team work skill improved	Students communication skill will be improved as the are facing audience and communicating the activity

on healthcare business problems**

- **Reflective Critique:**

- ❖ **Feedback of practice from students and other stakeholders:**
- ❖ Most of the students actively participated and enjoyed. Students were given a solution with various formats.
- ❖ Bright students enjoyed with peer learning.
- ❖ **Benefit of the practice:** (E.g.: Outcome attainment would have increased due to innovative practice over conventional practice)
 - Students are actively engaged.
 - Students learn from each other.
 - Makes class interactive.
 - Builds a friendly, yet academic atmosphere.
 - Includes all the students in the teaching-learning process.

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University
Accredited by NAAC & An ISO 9001:2015 Certified Institution
NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Challenges faced in implementation:

- Students were not aware of TPS even though made an announcement and posted the content of TPS in the course web site.
- Slow learners were not interested to participate in TPS.
- Noise level of the class room goes up and a transition was needed to get back on the topic.
- It was hard to keep every student on task.
- It took a longer time than other strategies.
