

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University

NAAC Accredited with 'A+' Grade & An ISO 9001: 2015 Certified Institution

NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Computer Science and Business Systems
Academic Year 2024 – 2025(Even Semester)

Degree, Semester & Branch: B.Tech., VI & CSBS

Course Code & Title: CCS334 Bigdata Analytics

Name of the Faculty member: Ms.K.Usharani, AP/CSBS

Innovative Practice Description

- **Unit / Topic:** Unit 5 / HiveQL queries
- **Course Outcome:** Apply Hadoop-related tools such as HBase, Pig, and Hive for big data analytics for given problems.
- **Topic Learning Outcome:** 5g. Students will be able to creation of HiveQL queries
- **Activity Chosen:** Minute paper
- **Justification:**
 1. Minute paper activity will enable the students to recall the topics on their own.
 2. Better tool for brainstorming the ideas and concepts discussed in lecture.
 3. Before discussion on HiveQL, it is a better way to make them think in their own. After discussion, they will get better perspective about HiveQL.
- **Time Allotted for the Activity:** 10 Minutes
- **Details of the Implementation:**
 1. The students were asked to take a paper and pen.
 2. They were asked to the write the Need for HiveQL in bigdata analytics and HiveQL Queries individually.
 3. The students were asked to present their content.
 4. This activity shows whether the students have real time knowledge on specific topic and their involvement the particular class.
- **CO – PO / PSO mapping:**

CO	PO1	PO2	PO9	PO12	PSO2
CO3	3	1	1	2	1

(1 – Low

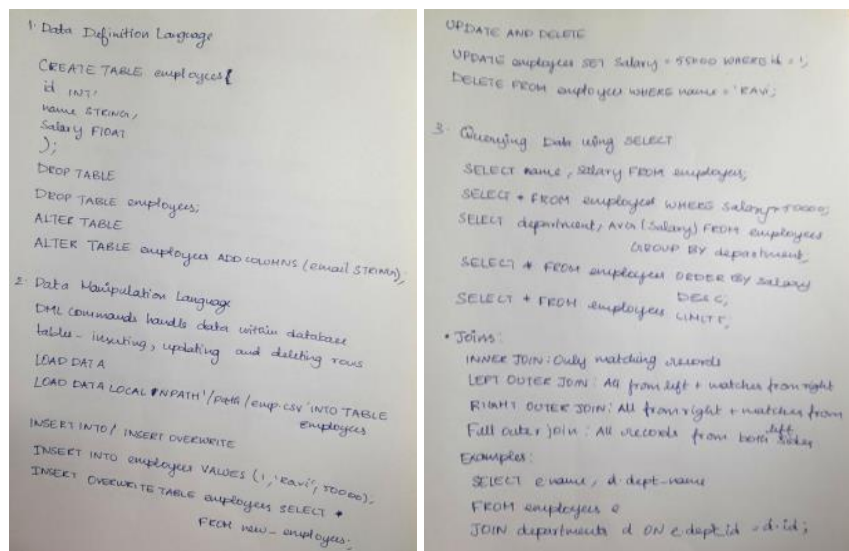

2 – Moderate

3 – High)

- PO / PSO mapped:

Innovative practice	PO1	PO2	PO9	PO12	PSO2
	3	1	1	2	1
Justification for correlation	Apply the knowledge of engineering fundamentals	Identify and analyze the need for HiveQL in bigdata analytics	Function effectively as an individual by reflecting the ideas on the given topic.	Recognize the need and have the preparation and ability to engage in independent learning.	Motivates Continuous learning to provide the solution to real world problems.

- Reflective Critique:

❖ **Feedback of practice from students and other stakeholders:**

Students felt that they can able to think the importance of having HiveQL in bigdata analytics. And this activity helped them to analyze their level of understanding in HQL.

❖ **Benefit of the practice:**

1. Students were actively participated in this activity.
2. It improves students ability to monitor the scenarios and to write queries.

❖ **Challenges faced in implementation:**

Some students felt difficult to explain their understanding in the topic on their own.
