MAGAZINE BY DEPARTMENT OF CSBS

VOLUME -1

Ramco Institute of Technology
CSBS
VISION & MISSION

VISION

- To build competent industry ready professionals to largely contribute the society, by imparting the knowledge in the domain of Computer Science and Business Systems.

 MISSION

- Furnish/Facilitate the department with world-class computing infrastructure and modern teaching methodologies to produce highly proficient and globally competent Computer Science and Business System professionals
- Motivate the students and faculties in research, innovation and foster them in critical thinking with the moral values in the recent technologies of Computer Science and Business Systems
- Equip the students with latest technologies to become an ethically sound Computer Science and Business Systems Professionals and entrepreneurs.

PROGRAMME SPECIFIC OUTCOME

- Apply the various cutting edge technologies including Artificial Intelligence, Machine Learning/ Deep Learning, Cloud Computing, Cyber Security and IOT to solve the contemporary problems with knowledge of management principles.

- Exhibit the proficiency in Computation Statistics, Software development model and business skills through the various professional societies, continuous learning to provide the solution to real-world business problems.
- Apply appreciable knowledge of management skills cultured through Industry Interactions and Real-time project to practice as an ethical software engineer/ researcher in the domain of Computer Science and Business Systems.

PROGRAMME EDUCATIONAL OUTCOME

- Graduate will have successful career in ITes, Business development, Business Analytics and Intelligence as Technical/Managerial responsibilities.
- Graduate will have the ability to pursue higher studies and research or become an entrepreneur in the contemporary areas of Computer Science and Business Systems.
- Graduate will exhibit socially committed productive leadership with high ethical and professionals making sound engineering and managerial decision.

DEPARTMENT

OF CSBS

RIT TECHNEBIZ

RIT-TECHNEBIZ

"Techne" is a Greek word meaning "skill, craft, or art." It is often used to refer to the expertise involved in making something with technical or artistic skill. It is also used to refer to the science of technology and its applications. The Word "biz" means **business**

"Data leads the way,
The future is today.
Data-driven decisions,
A new way of vision.

Innovation on the rise,
Technology for all size.
Automation and analytics,
For the modern business.

Cloud computing and 5G,
The speed of progress will astound thee.
Developers, designers, and engineers,
Partners for success, our future peers."

**SCIENTISTS STUDY THE WORLD
AS IT IS , ENGINEER CAN CREATE THE
WORLD THAT NEVER HAS BEEN
-THEODORE VON KARMANT**

WHAT IS COMPUTER SCIENCE AND BUSINESS SYSTEM ?

Computer Science and Business System (CSBS) is one of the popular courses among engineering aspirants which mainly focuses on computation, analysis of algorithms, programming languages, program design, software engineering, computer hardware, computer networks and problem solving skills. This program has roots in electrical, electronics and communication engineering, mathematics, and linguistics. Students study the design, development and analysis of software and hardware used to solve problems for various business, scientific and social contexts. Since computers solve most of the complex problems in a simplified way, it provides the sophistication to the world and touches the human lives in all the aspects

ART BY :
BALAJI

such as education, transportation, entertainment, banking, mass communication, social media, hospital management, businesses, supply chain management, etc.

ARTICLES

Computer Science and Business System is inherently a interdisciplinary subject, it link to the disciplines including psychology, biology, mathematics, physics, education, art and music with the subjects of bioinformatics, electronics, operations research, theory of computation, help students to understand how Computer Science and Business System fits in to a wide range of domains in the world. This program prepares the students for career as Software Developers, Hardware Engineers, System Designer, System Analyst and Architect, Networking Engineers and Administrators, Database Administrator, web developers, Project Team Associate and Leaders etc. This program enable the students to acquire multidimensional approach of computing knowledge and understanding the problems to solve deep, imagination and sensitivity to a variety of concerns.

KEY OBJECTIVES:

- *Learning common business principles.
- *Exploring business discipline and
- *service orientation.
- *Innovative ability.
- *Strong human ethics and values.

Highlights:

- *The curriculum is designed by faculty members closely working with eminent professionals from TCS and academia and is approved by AICTE.
- *Industrial training & live projects supported by TCS.
- *Dedicated faculty members trained by TCS to deliver the program.

.....அம்மா.....

அனைத்துமாய் அவள் இயக்கம்
உனதாய் உன் தாய்
பல துயர் தாண்டி பாசத்தை
ஊட்டி

உன் இதழ் தரும் சிரிப்பு
மொழிக்கு அவள் படும்பாட்டை
ஒரு மொழி சொல்ல வரி
உண்டோ...

கணமும் ரனமுமாய் காலங்கள்
எல்லாம் அவள் கடந்து
வந்தாலும் மனம் நோகாமல்
உன்னை பார்க்கும் நிமிடம்
அவளிடம் நீ வெறுமையே....

உன் ஒரு துளி பாசம் தானே
அவள் உயிர் வாழ காரணம்...

அன்பை மட்டும் தெறிந்து
அவள் தேவை அறியாது
உன்னை மட்டும் கருவரை
தாண்டியும் சுமக்கும்
தாயை புரியாத மனம் என்ன
மனமே அதில் என்ன மானமே...

Snow Vision

A DREAM COME TRUE

Lovely tree, Yesterday
wild winds of winter combed
your black and twining hair.

When dawn blinked

You emerged

softly capped in ermine,
star-kissed with diamonds.

Wind's sharp breath caught in his throat

and sun, stricken sun,

can't turn his eye from you.

-Harikrishna

I used to dream of a life so full of joy,
Sights, sounds and smells that I would savor and enjoy.
My life was once filled with worry, fear and doubt,
But now I'm living life without a care or worry about.

A dream come true, my life has changed,
No more worry, fear and doubt, I'm rearranged.
I'm living life to the fullest,
Smiling wide, feeling joy and happiness.

The future that I dreamed of is here now,
No more nightmares, no more sorrow.
All of my dreams have come true,
So I'm happy, content, and blessed too.

I'm living life to the fullest,
Smiling wide, feeling joy and happiness.
Grateful for the life I have,
It's a dream come true and I'm so glad.

-Hariharasudhan

"No matter how talented or naturally gifted you are, there's no substitute for hard work if you have to maintain standards."

-Rohit sharma

- "Radiate boundless love towards the entire world."
- "A disciplined mind brings happiness."
- "Give, even if you only have a little."
- "Conquer anger with non-anger. ..."
- "Those who cling to perceptions and views wander the world offending people."
- "Drop by drop is the water pot filled."

Department of Computer Science and Business Systems TECHNEBIZ

Inaugural Function & Motivational Talk on Essentials of Creative Thinking

The Department of Computer Science and Business Systems, RIT inaugurated the TECHNEBIZ association on 03.12.2022 (Saturday). Mr. S.Jeevanantha Raja, Project/Test Management Professional, Honeywell, Madurai. Has the chief guest of the function and delivered the chief guest address. He also shared his experience as an project management. Totally 50 students of Department of Computer Science and Business Systems have participated in an Inaugural function.

The office bearers of RIT-TECHNEBIZ were introduced and the secretary of RIT-CSI Ms. A.Srijanani from I CSBS Elaborated the annual plan of TECHNEBIZ association.

Department of computer science and business systems and RIT TECHNEBIZ organized a motivational talk on Essentials

of creative thinking for I Year CSBS students. The resource person is Mr. S.Jeevanantha Raja, Project/Test Management Professional, Honeywell, Madurai.

This guest-lecture was organized by Dr.S.Erana Veerappa Dinesh, AP/CSE under the guidance of Dr.K. Vijayalakshmi, prof. & Head/CSE. The resource person agenda is to elaborate on the scope of the computer science and business system course,

student's engineering and technologies trends. Students were excited to learn the diverse engineering roles from him . He showed a road map to students, on how to plan and practice and succeed in careers. He motivated the students to decide the focus, read more about it and do some certification to get more skills in the area. The students interacted with the speaker well and they felt the talk is much valuable and needed by every student. They were all attentive and enjoyed the whole session.

Report on “Master Mind” Event

Department of Computer Science and Business Systems in association with RIT TECHNEBIZ organized a non-technical event “Master Mind” on 28.12.2022. A written test with 25 questions was used to perform the filtering process. All the 25 questions were general and current affair questions. Six teams of size three were chosen from that. During a 20-minute video that was playing, a few questions were posed by briefly halting the video. The team members actively involved in the event. The video was purely non-technical. The winners were Mr. A.V. Arun, Mr. Balaji P, and Mr. Vijay K, I CSBS. It has enhanced their listening and reasoning skills. Ms.A.Sri Janani, and Mr.N.Anandha Bharathi, I CSBS conducted the event coordinated by Dr.I.Gethzi Ahila Poornima, AP/CSE.

Technical debate

Event Organized

The Department of Computer Science and Business Systems in association with RIT TECHNEBIZ organized a non-technical event "Technical Debate" on 13.01.2023. Students are divided into two teams with a size of 10. The topic given for discussion is "Technological development is good or bad for students". Points presented were accepted by the spectators with cheers and claps. Some of the points even made us think about the facts. Event Coordinators appreciated the students who made their point loud and clear. The event was organized and successful by I CSBS students.

COVID -19

PART-1

THE STUDENTS as with everything in 2020, the world of higher education has been forced to adapt to the impact of Covid-19.

Students the world over have had their studies and university applications interrupted and transformed, as classes and admissions interviews went online for the first time.

While students have had to adapt to a new model of online learning and adjust the ways that they socialise, THE Student has shared as many tips as possible on how to make the switch, as well as publishing blogs from students around the world to ensure you know that you aren't alone.

Below are the top 10 most read articles and student guides this year but be sure to check out the rest of the THE Student site for further advice on everything to do with university. The rapid and unplanned change to teaching and learning in the online format brought by COVID-19 has likely impacted many, if not all, aspects of university students' lives worldwide. To contribute to the investigation of this change, this study focuses on the impact of the pandemic on student well-being, which has been found to be as important to student lifelong success as their academic achievement. Student well-being has been

linked to their engagement and performance in curricular, co-curricular, and extracurricular activities, intrinsic motivation, satisfaction, meaning making, and mental health. The purpose of this study was to examine how student perceptions of their degree completion and future job prospects during the pandemic impact their well-being and what role university support plays in this relationship. We used the conservation of resources theory to frame our study and to develop five hypotheses that were later tested via structural equation modeling. Data were collected from 2,707 university students in France, Germany, Russia, and UK via an online survey

The results showed that university support provided by instructors and administration plays a mediating role in the relationship between the perceived impact of COVID-19 on degree completion and future job prospects and levels of student well-being. Student well-being is decreased by their concerns for their degree completion but not by their concerns for future job prospects.
