Technical Lead

American Express, New York.

A.Agnel Thangadurai,

Technical Lead

IBM, Bangalore.

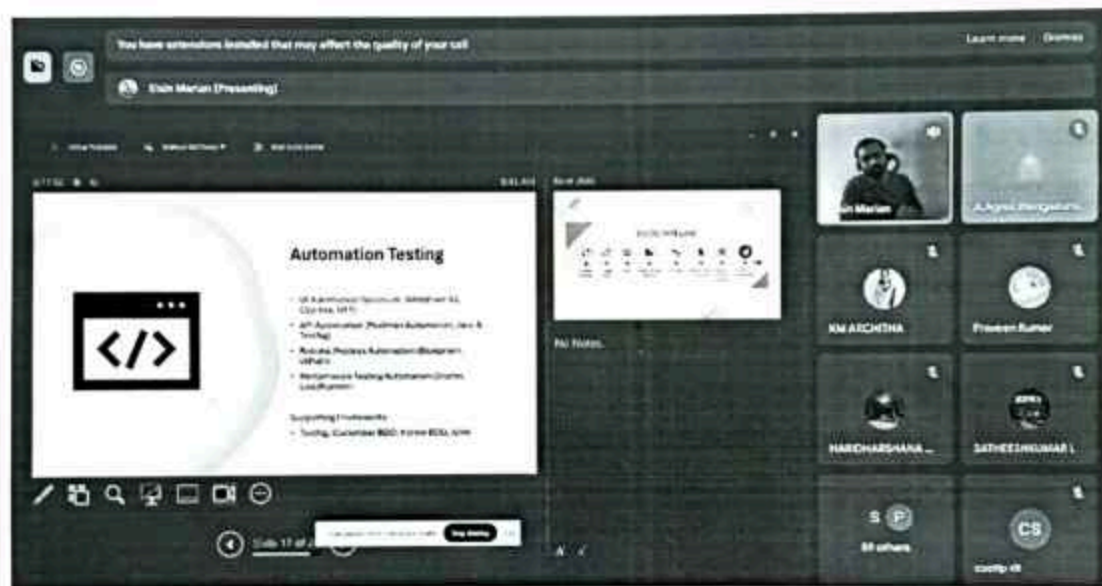

Date : 19.04.2024

Time : 06.30 PM -

8.00 PM

Extramural Lecture Series INT-005

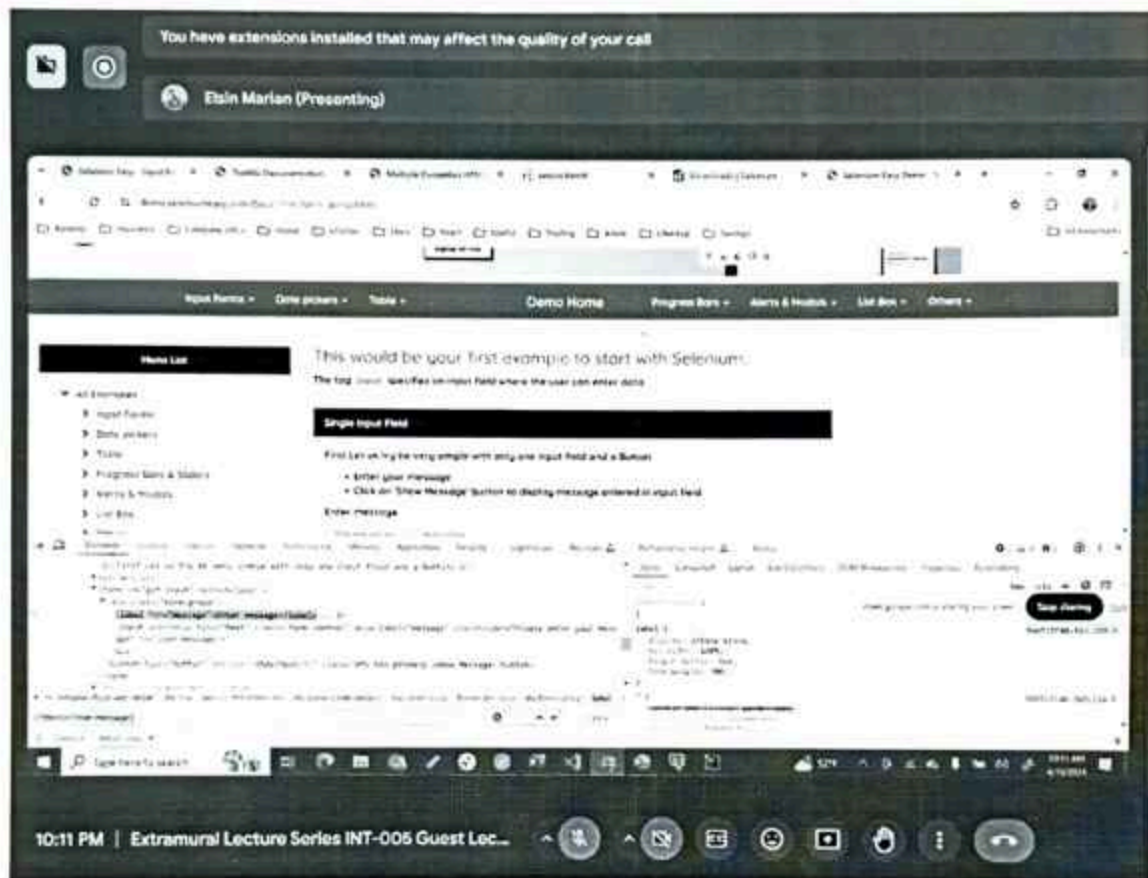

The Department of Computer Science and Engineering at the Ramco Institute of Technology (RIT) in association with RIT-Clustra and IE(I) CSE organized an enlightening online guest lecture on the subject of "**Automation Testing and Tools**". This event, part of the RIT-CLUSTRA series, attracted the participation of approximately 70 enthusiastic students. The lecture, held on April 19, 2024, featured two distinguished resource persons. **A.Anton Elsin Visu, Technical Lead American Express, New York**, **A.Agnel Thangadurai, Technical Lead, IBM, Bangalore**, graciously shared their expertise and insights with the eager audience. They discussed about the Automation Testing and real time tools used for Testing. The session was organized under the guidance of Dr.L.Ganesan, Principal, Dr.S.Rajakarunakaran, Vice-principal, Mr.K.S.Selvaraj, GM(A), Dr.K.Vijayalakshmi, HOD/CSE, coordinated by Dr.R.Venkatesh, Associate Professor/CSE and Mrs.A.Sofia Thanga Mary(AP/CSE) .

The guest lecture on automation testing proved to be a valuable learning experience for all attendees, providing them with a comprehensive understanding of the importance, benefits, and challenges of automation testing in software development. The event succeeded in fostering awareness and appreciation for automation testing practices, empowering attendees to leverage automation tools and techniques to enhance the quality and efficiency of their software projects.

They also gave demonstration on Selenium. The Selenium demonstration provided a thorough exploration of its capabilities, starting with an overview highlighting its role in automating web browser interactions. Participants were walked through setting up a Selenium environment, including installing crucial components like JDK, Eclipse IDE, and Selenium WebDriver, with the presenter offering detailed instructions and troubleshooting common setup issues. They were then introduced to creating test scripts using Selenium WebDriver, learning to interact with web elements and validate outcomes in Java. Execution techniques for running scripts on

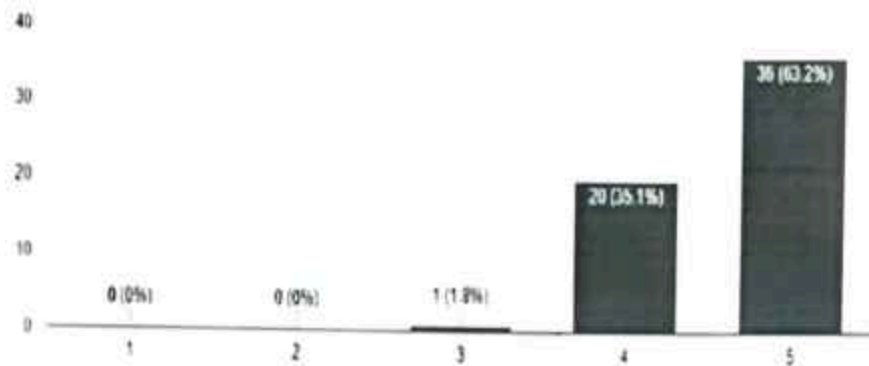

various browsers emphasized the importance of cross-browser testing. Advanced topics like handling dynamic elements and synchronization were covered, addressing challenges such as asynchronous behaviour and page load delays. Integration with TestNG and JUnit enabled efficient test organization and report generation, enhancing participants' testing practices and understanding of Selenium's capabilities.

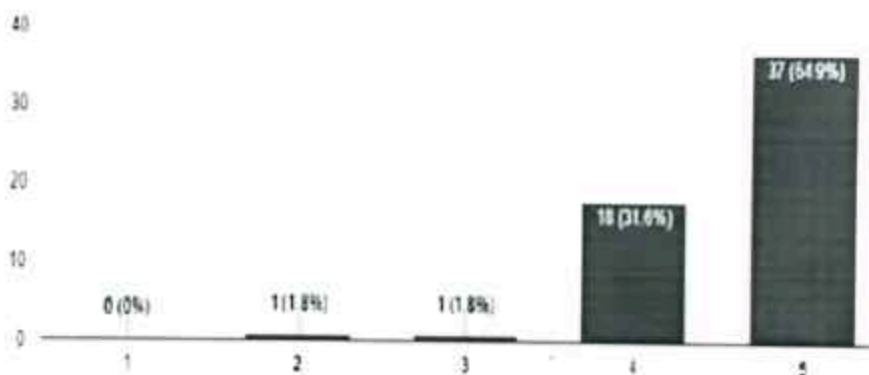

The lecture, filled with valuable insights and knowledge-sharing, underscored RIT's commitment to providing quality education and fostering a deeper understanding of cutting-edge technologies among its students. This event serves as a testament to RIT's dedication to academic excellence and its efforts to empower students with the knowledge and skills needed to thrive in the ever-evolving field of computer science and engineering.

Feedback Details

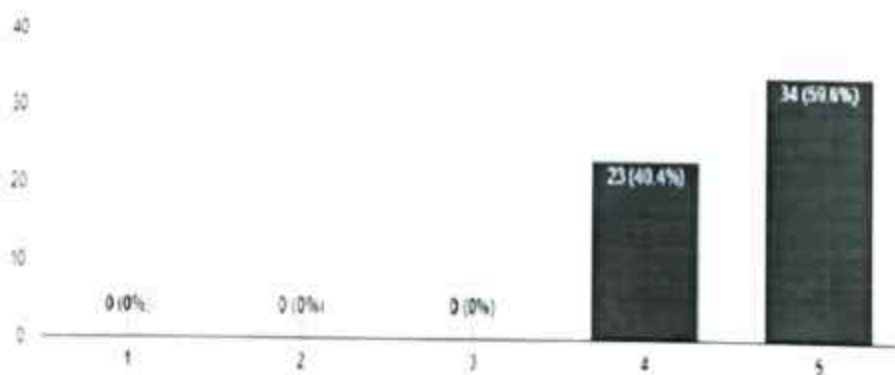

The lecture provide me with valuable information regarding theme

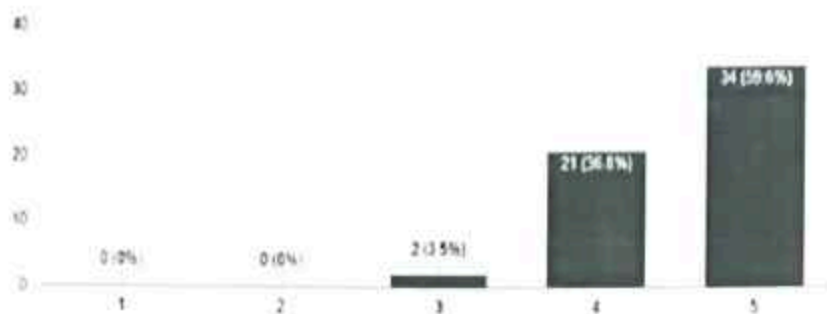

The content delivery by resource person was useful

The technological support was enough to execute lecture smoothly
