

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University
Accredited by NAAC & An ISO 9001:2015 Certified Institution
NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Computer Science and Engineering

Academic Year 2022 – 2023 (Even Semester)

Degree, Semester & Branch: B.E., VI & CSE

Course Code & Title: CS8691 & Artificial Intelligence

Name of the Faculty member (s): Mrs. G. Mareeswari

Innovative Practice Description

Unit / Topic: Unit I / Typical Intelligent Agents

Course Outcome: CO1

Topic Learning Outcome: TLO 2

Activity Chosen: Think Pair Share

Justification:

- The topic “Characteristics of Intelligent Agent” is the sub topic of “Typical Intelligent Agent”. After teaching the concept of Intelligent agents and its properties, various types of environment and its properties this task is assigned to the students for finding the PEAS and PAGE description for various types of Intelligent Agent. This activity makes the studentsto get a sound knowledge in this concept. Students think individually about how to write PEAS and PAGE description for the given problem and share their ideas with their classmates that develop their problem solving ability and communication skill. As a result, this activity will assist students to recall for their exams.
- Time Allotted for the Activity:** 20 minutes

Details of the Implementation:

- Instructor explained the basic concept of agents, types and characteristics of agents and the properties of environment in the prior classes.
- Based on the discussion the teacher asked the students to think about the given agent and mention the PEAS and PAGE description for that agent, individually without discussing with other in the class (Think).
- Next, pair up or make a group with others in the class and discuss their points with them 5 minutes and also listen their views (Pair).
- Finally share points with the entire class (Share).
- This assisted the students in recalling the topic taught on that specific day, generating new ideas about the topic, and answering questions about the topic with ease.

CO – PO / PSO mapping:

CO	PO1	PO2	PO3	PO9	PO10	PSO1
CO 1	3	2	2	2	2	1

(1 – Low 2 – Moderate 3 – High)

PO / PSO mapped:

Innovative practice	PO1	PO2	PO3	PO9	PO10	PSO1
	3	2	1	2	2	1
Justification for correlation	Needs engineering and mathematical knowledge for representing the agents PEAS description	The given type of agent is analyzed to represent the characteristics and description of the agents.	Students able to design description for the given agent using the available knowledge about the agent.	Students individually think about the description and also share their way to represent the description with their team.	Able to explain the way of representing the description with their team members.	Able to apply this agent description concepts in emerging trends in Information Technology

• **Images / Screenshot of the practice:**

Figure:1 Glimpses of B. Sathya narayanan, V. R. Ramakrishnan M. Mugesh and S. Ilaya Bharathi doing Think-Pair- Share Activity

Figure:2 Glimpses of Dhiraj N, Gopiy K J Balamuralikrishna R N and Akash Aravind P doing Think-Pair- Share Activity

• **Reflective Critique:**

❖ **Feedback of practice from students and other stakeholders:**

- The students felt that this activity is very useful and got a clear idea about the concept of Intelligent agent characteristics.
- Also they can able to describe PEAS and PAGE description for any intelligent agent.

❖ **Benefit of the practice:** (E.g.: Outcome attainment would have increased due to innovative practice over conventional practice)

- From this activity, the students can get more clarity in the particular topic by discussing and sharing their views with the other students in the class.
- Coordination level among the students increased.
- Students enjoyed this learning activity and builds confidence with students.

Challenges faced in implementation:

Only a few student pairs were randomly selected to perform presentations in front of the class due to time constraints.
