Innovative Practice Description

- **Unit / Topic:** Unit I/ INTRODUCTION TO ONLINE MARKET/ Digital Marketing Strategy Components
- **Course Outcome:** CO1
- **Topic Learning Outcome:** 1a
- **Activity Chosen:** Class Polling
- **Justification:**
 - ❖ Using class polling enhances student engagement by presenting open-ended questions, fostering interactive Q&A sessions. It encourages critical thinking and active participation in class discussions. The chosen topic for review, digital marketing components, builds on prior knowledge and aids in easy recall. Groups were formed in class, promoting interaction. Students collaborated when questions were displayed, providing answers collectively.
- **Time Allotted for the Activity:** 40 Minutes
- **Details of the Implementation:**
 - ❖ The class was split into 5 groups namely team1, team2, team3, team4 and team5.
 - ❖ Questions were projected onto the screen.
 - ❖ Groups were given a minute to think about the question shown on the screen.
 - ❖ After that, students worked together in their groups to choose the right answer.
 - ❖ When the group agreed on an answer within the time given, one student from the group spoke up.
 - ❖ If the answer was correct, the instructor praised them.
 - ❖ If not, the instructor went over the correct answer with the class.
 - ❖ Once the group had identified the correct answer for the question within one minute, one of the students from the group answered to the question.

CO – PO / PSO mapping:

CO	PO1	PO2	PO3	PO9	PO10	PO12	PSO1
2	3	1	2	1	2	3	1

(1 – Low

2 – Moderate

3 – High)

• **PO / PSO mapped:**

Innovative practice	PO1	PO9	PO10	PO 12
	3	1	2	2
Justification for correlation	This activity helps the students to find their level of understanding of digital marketing strategy	Student individuality in expressing their doubts	Written communication/ Asking questions are improved	Student will implement the questioning skill in future

Reflective Critique:

❖ **Discussing with students:**

- All the students understood the idea on class poll easily.
- Class Poll brought energy into the classroom when most of the students started answering the questions.
- Students who were hesitant to answer actively participated in class poll.
- When a question is answered incorrectly by most of the students, the sub-topic that requires additional clarity is identified and explained immediately.
- This activity brought greater satisfaction to students as well as the faculty.

❖ **Benefit of the practice:**

- All the students were interestedly participated.
- They felt, this class polling session helped them to brush-up their mind during the continuous listening of the class and recap the concepts of distributed computing and its evolution.

❖ **Challenges faced in implementation:**

- Student has to answer the questions only after the approval of the course instructor.

- A small token of appreciation was given to the students those who have answered.
