

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University
Accredited by NAAC & An ISO 9001:2015 Certified Institution
NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Computer Science and Engineering

Academic Year 2023-2024 (Fall Semester)

Degree, Semester & Branch : VII Semester B.E CSE
Course Code & Title : CCS346 & Exploratory Data Analysis
Name of the Faculty member : Mrs. S. Vijaya Amala Devi, AP / CSE

Innovative Practice Description

- **Unit / Topic:** Unit I / Exploratory Data Analysis/ Data transformation techniques-merging database, reshaping and pivoting
- **Course Outcome:** CO1
- **Topic Learning Outcome:** 1b
- **Activity Chosen:** Lecture reaction
- **Justification:**
 - ❖ Lecture Reaction is an instructional strategy designed to immediately engage students in reflecting on and processing the content of a lecture. The goal of a lecture reaction is to deepen students' understanding, foster critical thinking, and identify areas where further clarification is needed.
 - ❖ To reinforce learning and assess student understanding immediately after a lecture, the instructor implemented a "Lecture Reaction" activity. This method serves to actively engage students, allowing them to process the lecture content in a collaborative and reflective manner.
- **Time Allotted for the Activity:** 40 Minutes
- **Details of the Implementation:**
 - ❖ Upon completing the first unit, the instructor employed an engaging activity to assess the students' understanding and encourage deeper reflection on the material. This method also helped the instructor gauge the students' comprehension of specific topics of data transformation techniques and provided an opportunity to address any lingering doubts.
 - ❖ The class was divided into four groups, each assigned a unique role:
 1. **Questioners:** Tasked with asking two questions related to the material, encouraging deeper inquiry.
 2. **Example Givers:** Responsible for providing practical applications or examples, making the concepts more relatable.
 3. **Divergent Thinkers:** Expected to disagree with some points from the lecture, fostering critical analysis and discussion.
 4. **Agreers:** Charged with explaining which points they agreed with or found helpful, reinforcing the key takeaways.

- ❖ After group discussions, the entire class reconvened for a brief session where each group presented their insights. Ms.M.Kartheeswari M presented the idea related to data transformation techniques.
- ❖ This allowed for a comprehensive review of the material and ensured that all doubts were clarified.

CO – PO / PSO mapping:

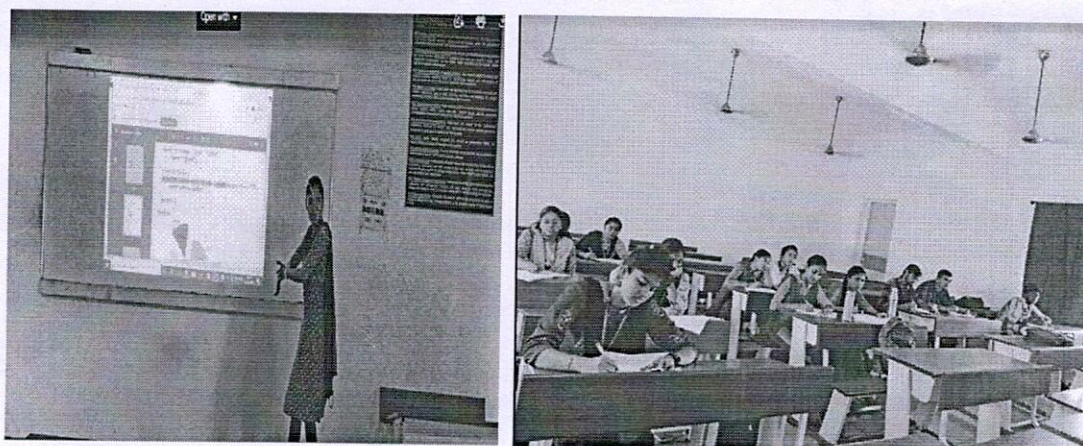

CO	PO1	PO2	PO3	PO9	PO10	PO12	PSO3
CO1	3	3	3	3	3	3	3

(1 – Low 2 – Moderate 3 – High)

• **PO / PSO mapped:**

Innovative practice	PO9	PO10	PO12
	1	2	2
Justification for correlation	Student individuality in expressing their doubts	Written communication/ Asking questions are improved	Student will implement the questioning skill in future in written format

• **Images / Screenshot of the practice:**

Reflective Critique:

❖ **Discussing with students:**

- Prompts students to analyze and evaluate the information presented, fostering deeper intellectual engagement.

❖ **Benefit of the practice:**

- By engaging with the lecture content immediately, students are more likely to internalize and retain the information.
- Students have the opportunity to ask questions and clarify any uncertainties right

away, reducing the likelihood of misunderstandings persisting.

- The practice allows instructors to quickly identify students who may be struggling with certain concepts. This makes it easier to provide targeted support and personalize learning experiences.

❖ *Challenges faced in implementation:*

- Not all students may feel comfortable participating in discussions, leading to uneven involvement. Some students may dominate the conversation, while others may remain passive or reluctant to share their thoughts.
- Some students may come to class unprepared to engage in a meaningful discussion
