

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University
Accredited by NAAC & An ISO 9001:2015 Certified Institution
NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Computer Science and Engineering.

Academic Year: 2023 - 2024(Odd/Even Semester)

Degree, Semester & Branch: B.E, III & EEE

Course Code & Title: CS3353 & C Programming and data Structure

Name of the Faculty member (s): A. Sofia Thanga Mary, AP/CSE

Innovative Practice Description

- **Unit / Topic: Unit II/ C Programming - Advanced Features**
- **Course Outcome: CO 2**
- **Topic Learning Outcome: TLO 6**
- **Activity Chosen: One Minute Paper**

- **Justification:**

In unit II, File handling is an important topic needed for every programming language because the file can be used as a storage medium. This activity helps the students to recall file handling concepts.

- **Time Allotted for the Activity: 2 Minutes**

- **Details of the Implementation:**

- I explained the topic file handling in class.
 - The time allotted for the topic is 120 seconds.
 - The students were asked to prepare the summary of file handling concepts such as fopen(), fopen(), fclose(), fgets(), fprintf(), fscanf() in a paper within a minute.
- The papers were collected and corrected. Some student's written wrong answer, that will be discussed in the next day class.

CO – PO / PSO

CO	PO1	PO2	PO3	PO9	PO10	PO12	PSO3
	3	2	1	1	2	1	2

PO / PSO mapped:

Innovative practice	PO1	PO2	PO3	PO10	PO12	PSO3
	3	2	1	2	1	2
Justification for correlation	Needs to learn the basic knowledge of engineering fundamentals to develop C programs using File handling	The students will be able to know the File handling are used in analysis of complex engineering problems	Interpret the complex engineering problem with the help of file handling concepts	The students able to explain and present file handling concept	The students can continued upgrading of technical knowledge using the concept of file handling.	students able to implement file handling concepts in emerging trends in ICT applications

Images / Screenshot of the practice:

FIGURE 1. Sample Page written by students

Reflective Critique:

Feedback of practice from students and other stakeholders: The students gave good feedback about this activity. They felt that, they could be more thorough with this concept by doing this activity.

Benefit of the practice:

Most of the students take this activity as positive and started writing about Deadlock Detection in the paper.

- It can be easily tracked whether the students have understood the concept clearly or not.

Challenges faced in implementation:

- Very few students are not confident in their understanding towards this concept. They hesitated to prepare a write up on this concept.
