

Department of Computer Science and Engineering
Academic Year 2023– 2024 (Even Semester)

Degree, Semester & Branch : B.E, VI and CSE
Course Code & Title : MX3085 Well-Being With Traditional Practices
Yoga, Ayurveda And Siddha
Name of the Faculty member (s) : Mrs.S.Vijaya Amala Devi ,AP/CSE

Innovative Practice Description

- **Unit / Topic:** Unit V / Yoga / Types of Yoga
- **Course Outcome:** CO5
- **Topic Learning Outcome:** TLO19
- **Activity Chosen:** Flipped classroom
- **Justification:**

Flipped classroom methodology can be effectively applied to various types of yoga to enhance learning outcomes and deepen students' understanding. By incorporating flipped classroom techniques into yoga instruction, instructors can optimize class time for experiential learning, personalized guidance, and deeper exploration of yoga philosophy and principles, ultimately enhancing students' overall learning experience and mastery of the practice. Therefore, the flipped classroom activity is structured to facilitate detailed discussions during the in-person class sessions.
- **Time Allotted for the Activity:** 40 Minutes
- **Details of the Implementation:**
 - In a flipped classroom setting, students could be provided with pre-recorded instructional videos demonstrating foundational Hatha yoga poses and breathing techniques. They review these materials at home to prepare for the upcoming session.
 - This allows them to familiarize themselves with the basic concepts and techniques at their own pace before attending the in-person class. This sets the stage for interactive discussions exploring key concepts, alignment principles, and philosophical aspects of yoga.
 - During the class, the instructor can focus on refining alignment, providing individualized adjustments, and leading guided relaxation or meditation practices.
 - Students are divided into small groups or pairs to discuss their reflections on the pre-class materials, share insights, and ask questions. The instructor moves around the room, facilitating discussions, providing guidance, and offering additional explanations or demonstrations as needed.
 - After the group discussions, students come together as a whole class to apply what they've learned in practical exercises or guided practice sessions. This hands-on approach allows students to deepen their understanding of the material and integrate it into their yoga practice.

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University
Accredited by NAAC & An ISO 9001:2015 Certified Institution
NBA Accredited UG Programs: CSE, EEE, ECE and MECH

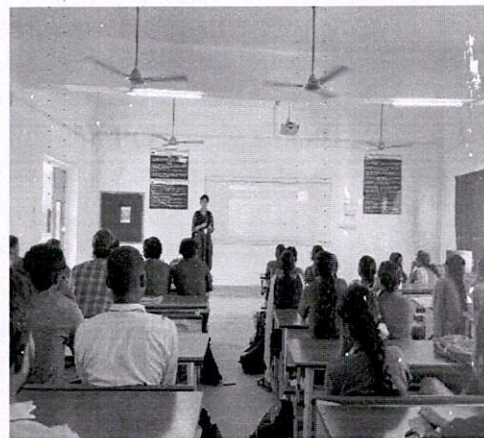

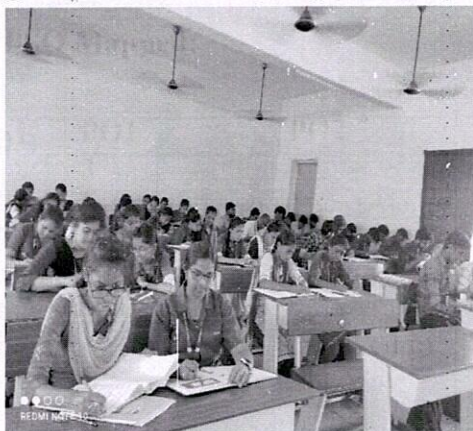

CO – PO / PSO mapping:

CO	PO1	PO2	PO3	PO4	PO9	PO10	PSO1
CO4	3	3	2	2	1	2	2

PO/PSO Mapped:

Innovative practice	PO1	PO2	PO3	PO4	PO9	PSO1
	3	3	2	2	2	2
Justification for correlation	Needs to learn the basic knowledge of Yoga types	The students will identify the relevant Steps involved in The yoga	Interpret the complex engineering problem	The students can identify best Yoga techniques	The students can do individually perform yogasanas	The students can continued upgrading

Reflective Critique:

Feedback of practice from students and other stakeholders:

- Student felt good, since they can study at their own pace/time.
- They felt that through such learning, they can explore more.

Benefit of the practice:

- Students learn at their own pace.
- Practical things – like missing class due to illness – become less problematic.
- It encourages students to come to class prepared.
- More one-to-one time between teacher and student.
- More collaboration time for students

Challenges faced in implementation:

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University
Accredited by NAAC & An ISO 9001:2015 Certified Institution
NBA Accredited UG Programs: CSE, EEE, ECE and MECH

- Relies on student preparation – few students did not come prepared.
- The depth of the subject can be dictated by the student themselves.
- The time and effort required from a teacher's perspective initially when creating the flipped class material is higher than for a traditional class.
