Name of the Faculty member : Mrs. S. Vijaya Amala Devi, AP / CSE

### Innovative Practice Description

- **Unit / Topic:** Unit I / Search Engine Optimizations/ Keyword Strategy - SEO Strategy
- **Course Outcome:** CO2
- **Topic Learning Outcome:** 2a
- **Activity Chosen:** Reflection
- **Justification:**
  - ❖ Reflection is a process where teachers can identify their own teaching process and analyzing how their teaching might be improved for the better understanding of the students.
  - ❖ Its take place immediately following the discussion of a specific topic of SEO strategy, learners to analyses their own understanding of the concept, so as the teacher can discuss and clarify the concepts that are not understood by the students.
- **Time Allotted for the Activity:** 40 Minutes
- **Details of the Implementation:**
  - ❖ After completion of first unit, the instructor can assess the students understanding level.
  - ❖ This also give a chance to know the level of student understanding in the particular topic and also the activity helps to address the doubts.
  - ❖ Faculty asked the students to write their doubts in Search Engine Optimization Strategy.
  - ❖ The students wrote their doubts and topics which they are not clear.
  - ❖ The questions or the topics that were not understood were written by them and submitted.
  - ❖ The papers are collected by me and discussed all the doubts clarified in that class session.
  - ❖ Student make them understand clearly about their doubts.
  - ❖ The students felt they understood the concepts better.

**CO – PO / PSO mapping:**

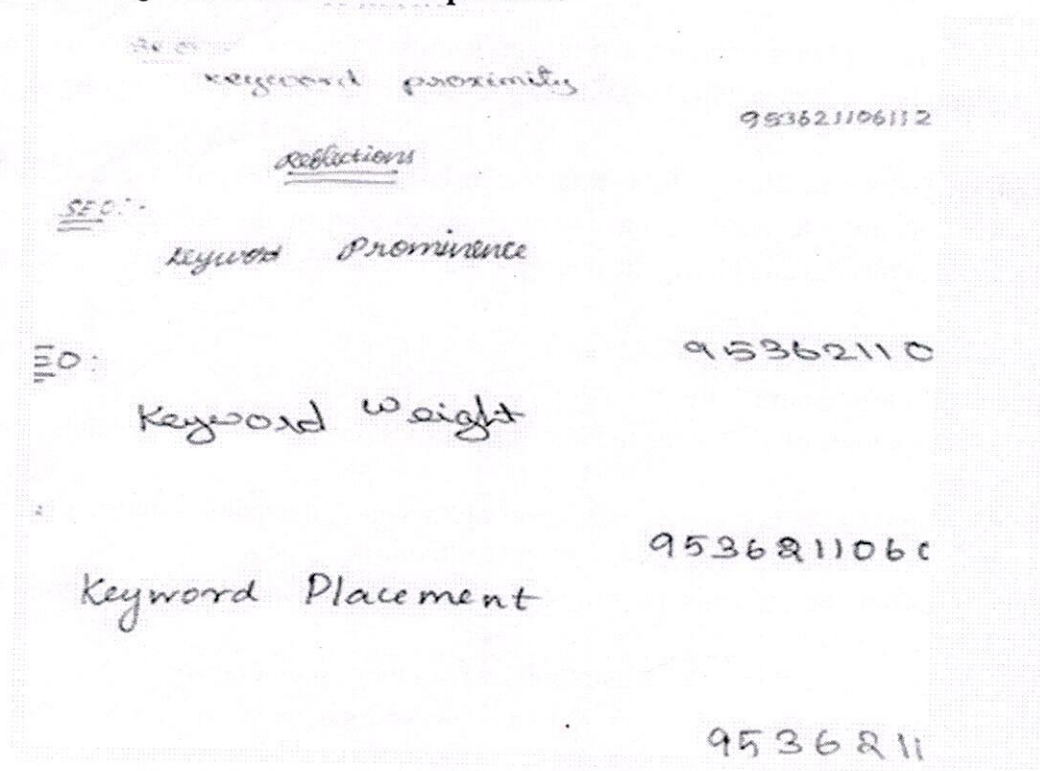

| CO | PO1 | PO2 | PO3 | PO9 | PO10 | PO12 | PSO1 |
|----|-----|-----|-----|-----|------|------|------|
| 2  | 2   | 2   | 2   | 1   | 2    | 3    | 1    |

(1 – Low      2 – Moderate      3 – High)

• **PO / PSO mapped:**

| Innovative practice                  | PO9                                              | PO10                                                 | PO12                                                                     |
|--------------------------------------|--------------------------------------------------|------------------------------------------------------|--------------------------------------------------------------------------|
|                                      | 1                                                | 2                                                    | 2                                                                        |
| <b>Justification for correlation</b> | Student individuality in expressing their doubts | Written communication/ Asking questions are improved | Student will implement the questioning skill in future in written format |

**Reflective Critique:**

❖ **Discussing with students:**

- Drawing on student feedback will make sure your reflections are focused on your students. By reflecting with students, you allow them to play an active part in their learning and gain insight into what needs to improve to support student development.

❖ ***Benefit of the practice:***

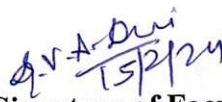

- Through this activity the students can recollect the topics on Data Science process, models, and Data Mining, Data Warehousing. The students are made to understand the concepts in which they are not clear and ensured that they understood the topics thoroughly.
- The activity helped the instructor to analyze, evaluate and improve their own learning.
- Reflection activity helped the instructor to identify the students level of understanding and also helps to plan the next session accordingly

❖ ***Challenges faced in implementation:***

- Students were not able to frame or express their doubts in English sentence properly and some questions were not clear to understand.
- Slow learners were not interested to participate in this innovative teaching and submitted the empty paper.
- Some of the students did not even ready to write their doubts
- Students started to discuss and shout with their neighbors during the activity.
