

Department of Computer Science and Engineering

Academic Year 2022 - 2023 (Odd Semester)

Degree, Semester & Branch: III Semester B.E. ECE-‘A’ Section

Course Code & Title: CS3353 & C Programming and Data Structures

Name of the Faculty member (s): Dr.V.Anusuya, ASCP/CSE

Innovative Practice Description

- **Unit / Topic:** Unit II / File Handling
- **Course Outcome:** CO2
- **Topic Learning Outcome:** TLO6
- **Activity Chosen:** One Minute Paper
- **Justification:**

In unit II, File handling is an important topic needed for every programming language because the file can be used as a storage medium. This activity helps the students to recall file handling concepts.

- **Time Allotted for the Activity:** 2 Minutes
- **Details of the Implementation:**
 - I explained the topic file handling in class.
 - The time allotted for the topic is 120 seconds.
 - The students were asked to prepare the summary of file handling concepts such as fopen(), fopen(), fclose(), fgets(), fprintf(), fscanf() in a paper within a minute.
 - The papers were collected and corrected. Some student's written wrong answer, that will be discussed in the next day class.

- **CO – PO / PSO mapping:**

CO	PO1	PO2	PO3	PO9	PO10	PO12	PSO1
CO2	3	2	1	1	2	1	1

(1 – Low 2 – Moderate 3 – High)

- **PO / PSO mapped:**

Innovative practice	PO1	PO2	PO3	PO9	PO10	PO12	PSO1
	3	2	1	1	2	1	1
Justification for correlation	Needs to learn the basic knowledge of engineering fundamentals to develop C programs using File handling	The students will be able to know the File handling are used in analysis of complex engineering problems	Interpret the File complex engineering problem with the help of file handling concepts	The students can individually implement file handling concept.	The students able to explain and present file handling concept	The students can continued upgrading of technical knowledge using the concept of file handling.	The students able to implement file handling concepts in emerging trends in ICT applications.

- **Images / Screenshot of the practice:**

Figure 1: One Minute Paper

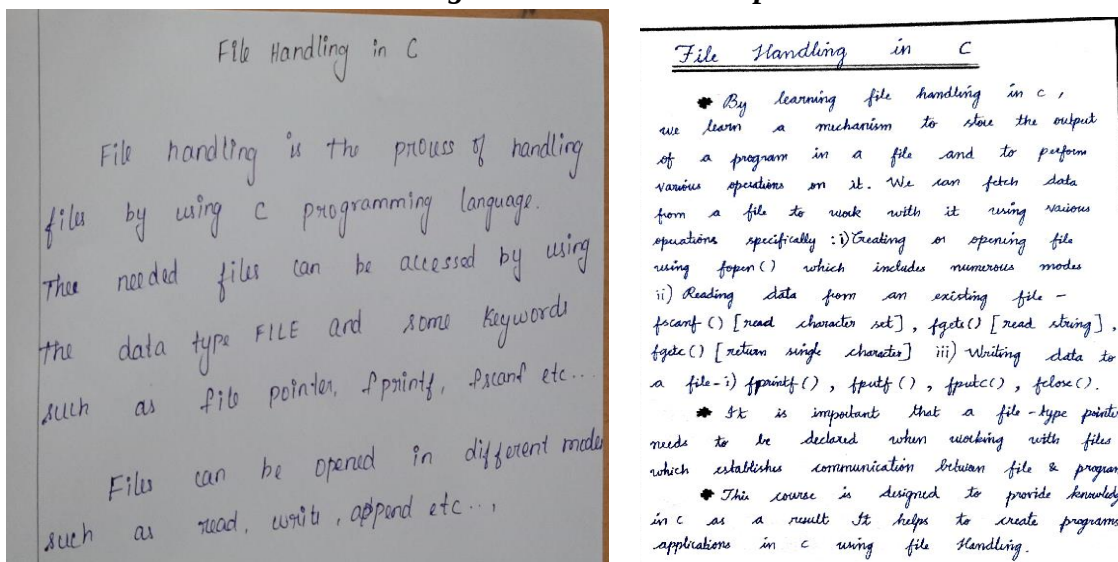

Figure 2: One Minute Paper

- **Reflective Critique:**

- ❖ **Feedback of practice from students and other stakeholders:**

- Students said that they were able to recollect and remember the file handling concepts after the activity.
 - It makes the students to gain knowledge on file handling concept.

- ❖ **Benefit of the practice:**

- Students can able to gain the knowledge of file handling concept and also

- the remembrance of the concept is improved.
- This activity helps the students to identify the lack of their knowledge.

❖ ***Challenges faced in implementation:***

- Few students made a mistake while writing a syntax for opening and closing a file.
- Time allotted for this activity is 2 minutes but students took the time upto 5 minutes.
