

Department of Computer Science and Engineering
Academic Year 2021– 2022(Even Semester)

Degree, Semester & Branch: B.E – II Semester CSE

Course Code & Title: CS3251 Programming in C

Name of the Faculty member (s): Ms.G.Sakthi Priya, AP/CSE

Innovative Practice Description

- **Unit / Topic: Unit II / Arrays and Strings**
- **Course Outcome: CO2**
- **Topic Learning Outcome: TLO5, 6**
- **Activity Chosen: Technical connection**
- **Justification:**
 - Connection activity helps to find a word/ sentence by connecting the given pieces of information.
 - As the students are learning array and strings concepts, the technical words are new to them which may be difficult to remember while writing programs and preparing for exams.
 - The technical connection activity makes the students to find the word (related to arrays and strings) by connecting the pictures which will help them to remember the new terms they have learnt and helps in the implementation.
- **Time Allotted for the Activity: 05 Minutes**
- **Details of the Implementation:**
 - Faculty divided the class into two groups (group1 and group 2) and displayed the technical connection pictures one by one as shown in Fig 1.
 - Group 1 students were asked to find the term related to the concept – Array and strings
 - If the group1 responded with correct answer they were awarded with 1 point. The same was carried with group 2
 - If either the group fails to answer, the question will be passed
 - The group with higher score were declared as winner group.
- **CO – PO / PSO mapping:**

CO	PO1	PO2	PO3	PO9	PO10	PSO1
CO2	2	1	1	1	1	1

(1 – Low 2 – Moderate 3 – High)

- **PO / PSO mapped:**

Innovative practice	PO1	PO2	PO3	PO9	PO10	PSO1
Justification for correlation	It involves thinking and make the student able to	Students will be able to identify	Students will be able to provide	As the student involved in the activity	Students communication skill will be improved as	The recollecting skill earned through

	recollect the words they have learnt in arrays and strings	the suitable functions related to strings and able to choose appropriate array dimension while executing program	solution by using arrays and strings	as team, the team work skill improved	they are discussing with team members	this activity helps the students in solving various problems
--	--	--	--------------------------------------	---------------------------------------	---------------------------------------	--

• **Images / Screenshot of the practice:**

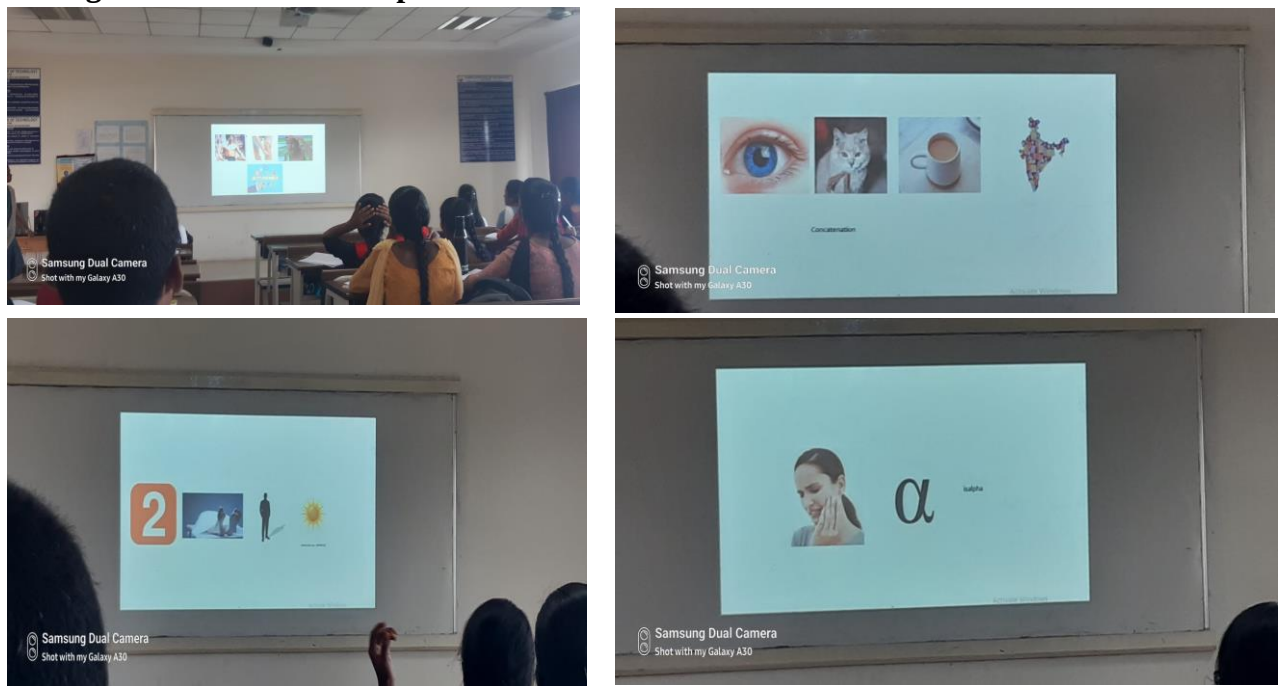

Fig 1: Students answering technical connection

• **Reflective Critique:**

❖ **Feedback of practice from students and other stakeholders:**

- Students felt they are able to remember the new terminologies they have learnt in arrays and strings.
- They felt it will be useful in while solving problems.
- They said the it will be useful when they prepare for exams.

❖ **Benefit of the practice:**

- As the students are recollecting the topic it helps them to remember it for long time.
- Understanding and remembering of the topic arrays and strings help the students to solve the problems in C
- The students can improve the communication by involving as a team

❖ ***Challenges faced in implementation:***

- As the words related to arrays and strings are quite different from normal English words, it was difficult to relate them with pictures.
- As it involves oral communication, unable to test the writing capacity of the students
- Individual assessment was difficult
