

Department of Computer Science and Engineering
Academic Year 2021– 2022(Even Semester)

Degree, Semester & Branch: B.E – II Semester CSE

Course Code & Title: CS3251 Programming in C

Name of the Faculty member (s): Ms.G.Sakthi Priya, AP/CSE

Innovative Practice Description

- **Unit / Topic: Unit II / Arrays**
- **Course Outcome: CO2**
- **Topic Learning Outcome: TLO5, 6**
- **Activity Chosen: Freewrites**
- **Justification:**
 - It is an activity where the students are asked to write nonstop for a set amount of time.
 - The students can write anything comes into their mind.
 - The free write activity is chosen for the students on the topic array and strings to test their understanding of the concepts 1D array and 2D array and string functions.
- **Time Allotted for the Activity: 05 Minutes**
- **Details of the Implementation:**
 - After the completion of unit 2, the free writes activity was conducted.
 - The students were asked to write the concepts on arrays and strings comes into their mind as shown in fig 1.
 - The students took a separate sheet and wrote the topics that were taught during the class without discussing with their friends.
 - After completion, their sheets were collected and corrected by the faculty member as shown in fig 2.
 - The mistakes were pointed out and corrected.
- **CO – PO / PSO mapping:**

CO	PO1	PO2	PO3	PO10	PSO1
CO2	2	1	1	1	1

(1 – Low 2 – Moderate 3 – High)

- **PO / PSO mapped:**

Innovative practice	PO1	PO2	PO3	PO10	PSO1
Justification for correlation	This activity helps the students to recollect and remember the knowledge gained on	Students will be able to analyse the problem and determine which concept to be applied	Students will be able provide solution by using arrays and strings	Students writing and documentation skill will be improved as they are involved in reproducing the	The recollecting/ remembering and writing skill earned through this activity helps the students in solving problems

	arrays and strings	either char array or int/float array		concepts they learnt	related to arrays and strings
--	--------------------	--------------------------------------	--	----------------------	-------------------------------

• **Images / Screenshot of the practice:**

Fig 1: Students involvement in free writes activity

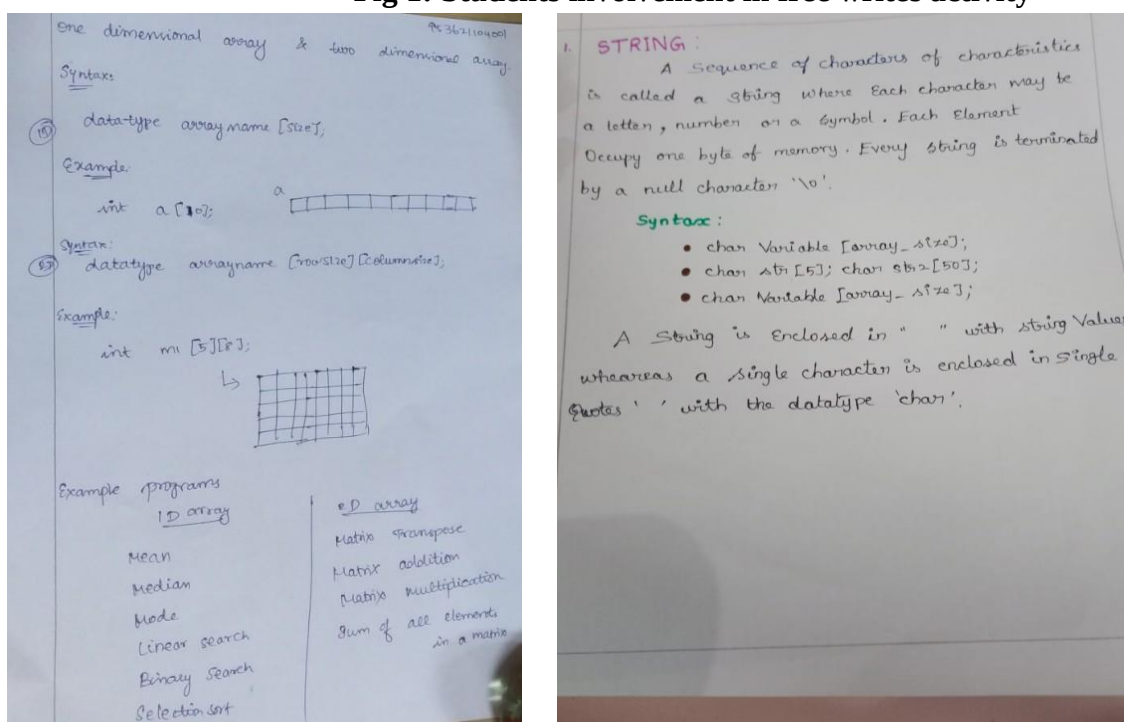

Fig 2: Samples of freewrite activity sheet

• **Reflective Critique:**

❖ **Feedback of practice from students and other stakeholders:**

- Students felt they are able to remember the concepts they have learnt in arrays and strings.
- They felt it will be useful in while implementing programs.
- The immediate spotting of mistakes was helpful to rectify the same

❖ **Benefit of the practice:**

- As the students are involved in writing the concepts they have learnt, it helps them to remember it for long time.

- Understanding and remembering of the topic arrays and strings help the students to solve the problems.
- This activity helps in testing the understanding level of the students

❖ ***Challenges faced in implementation:***

- Few students found it difficult to recollect the concepts without preparation.
- Few students took more time to write the concepts
