

RAMCO INSTITUTE OF TECHNOLOGY
Department of Computer Science and Engineering
Academic Year: 2019 - 2020 (Odd Semester)

Degree, Semester & Branch: I Semester B.E. Civil Engineering & EEE

Course Code & Title: GE8151 & Problem Solving and Python Programming

Name of the Faculty member: Ms.P.Jothi Thilaga, AP/CSE

Date, Time & Venue: 17.08.2019, 9.20 am to 9.50 am & CRIV

Innovative practice: Word Search Puzzle

Topic: Python Basics

Type of Learning:

Active Learning

Learning Objectives:

O1: To Make the students familiarize with the basic concepts and definitions in python.

Description:

A word search puzzle is a word game that consists of the letters of words placed in a grid. The objective of this puzzle is to find and mark all the words hidden inside the grid. The words may be placed horizontally, vertically or diagonally. A list of the hidden words is provided, but more challenging puzzles may let the participant figure them out.

Uses of Word Search Puzzle:

- It helps the students to think and identify the basic terms in the python programming and recollect the definition of the particular terms.
- It motivates the students to assess their knowledge in basic concepts of python programming.
- It helps focus attention and engage students actively.

Justification for chosen the topic:

Most of the students are not familiar with python programming and struggled to do code in python. This activity makes the students to understand the basic concepts and also it make them to code various programs during the laboratory classes. Also helps in understanding the further concepts in python programming.

Implementation of Word Search Puzzle:

- The students have to find the hidden words from the grid and mark the words.
- And also they have to tell the definition of the marked words.
- This makes everyone to learn the important definitions in python programming.

Word list

- | | | | |
|-------------|---------------|-------------|---------------|
| ▶ parameter | ▶ comments | ▶ data | ▶ expressions |
| ▶ functions | ▶ interpreter | ▶ keywords | ▶ list |
| ▶ modules | ▶ operators | ▶ python | ▶ statements |
| ▶ string | ▶ tuples | ▶ variables | |

PYTHON BASICS - WORD SEARCH

S	T	N	E	M	E	T	A	T	S	B	L	P	A	L	T	B

Outcomes:

- Through this activity the students can able to identify and understand the important terms and definitions.
- It also helps the students in recollecting all the basic definitions in python programming.
- This activity encouraged the students to share their knowledge with others.

Relevance to POs

Objective	PO1	PO2	PO5	PO9	PO10
O1	3	3	2	2	2

Reflective Report:**Identified Problems**

- Involvement of students in this activity is varied from person to person.

Initiatives to address the problems

- University two marks in python basic concepts were discussed with the students.

Post-implementation

- The students were actively participated in the activity and able to recollect all the python definitions.
- They can also able to know all the basic concepts of python.
