

RAMCO INSTITUTE OF TECHNOLOGY
Department of Computer Science and Engineering
Academic Year: 2019 - 2020 (Odd Semester)

Degree, Semester & Branch: I Semester B.E. Civil Engineering & EEE

Course Code & Title: GE8151 & Problem Solving and Python Programming

Name of the Faculty member: Ms.P.Jothi Thilaga, AP/CSE

Date & Venue: 26.09.2019 & CRIV

Innovative Practice: Zero Minute Speech

Topic: List Methods and List Operations

Type of Learning:

Active Learning

Learning Objectives:

O1: To make the students to familiarize with the list methods and list operations.

Description:

Zero Minute Speech will lead to express concepts of the particular topic by different students. The important topics were allotted to set of students and they will give speech on the topic with doubt clarification.

Uses of Zero Minute Speech:

- This activity helps the students to familiarize and clear doubts in particular topics.
- Few students share the ideas and information about the topics given to them with their classmates and the other students are interacted to clarify the doubts.

Justification for chosen the topic:

- List concept is one of the important topics in python programming. It includes various operations and methods. This activity was chosen to make the students to easily familiarize with the list methods and operations.

Implementation of Zero Minute Speech:

- Important topics were allotted to set of students and they will give a brief explanation on the topic with doubt clarification.
- After the explanation of particular concept by the students, the doubts in certain terms were discussed and made clarifications.

Outcomes:

- This activity encouraged the students to share their knowledge with others.
- Through this activity the students can able to understand the important concepts clearly.
- It also helps the students in recollecting all the list methods and operations in python.

Relevance to POs

Objective	PO1	PO2	PO5	PO9	PO10	PO12
O1	3	3	2	2	2	2

Reflective Report:

Identified Problems

- Not able to give chances to all students to explain the concepts.
- Some students are hesitated to ask doubts.

Initiatives to address the problem

- Advised the students to ask doubts regarding the topic to make better understanding of the important concepts in list

Post-implementation

- Selected students were actively explained the concepts and the others can able to recollect and clarify the doubts in those topics.
- This activity makes the students to understand list methods and operations clearly and effectively.
