

Department of Computer Science and Engineering
Academic Year 2021– 2022(Even Semester)

Degree, Semester & Branch: B.E – II Semester CSE

Course Code & Title: CS3251 Programming in C

Name of the Faculty member (s): Ms.G.Sakthi Priya, AP/CSE

Innovative Practice Description

- **Unit / Topic: Unit III / Functions**
- **Course Outcome: CO3**
- **Topic Learning Outcome: TLO7**
- **Activity Chosen: Learning by Teaching**
- **Justification:**
 - Learning by teaching helps to improve student's knowledge and get updated to the latest technological developments.
 - Functions concept helps in writing modular programming. As the students already have knowledge on functions which was learnt by them during the first semester, the learning by teaching activity was chosen.
- **Time Allotted for the Activity: 30 Minutes**
- **Details of the Implementation:**
 - Faculty asked the student to prepare for the topic “functions” two weeks before the implementation of this activity.
 - The required materials were given to the student
 - The topics to be covered were instructed
 - The demo for the activity conducted before the implementation to test her **learning**
 - Finally, the student **taught** the topic to the class as shown in Fig 1
- **CO – PO / PSO mapping:**

CO	PO1	PO2	PO3	PO10	PSO1
CO2	3	1	1	1	1

(1 – Low 2 – Moderate 3 – High)

- **PO / PSO mapped:**

Innovative practice	PO1	PO2	PO3	PO10	PSO1
Justification for correlation	It makes the student to learn beyond the class room delivery and helps to explore a lot	Students will be able to write modular programming according to the problem	Students will be able to provide solutions to the complex problem by dividing into sub problems using function concept	Students communication skill will be improved as they are facing the audience and teaching the concepts	The teaching and self learning skill earned through this activity helps the students in knowing and solving various problems

- **Images / Screenshot of the practice:**

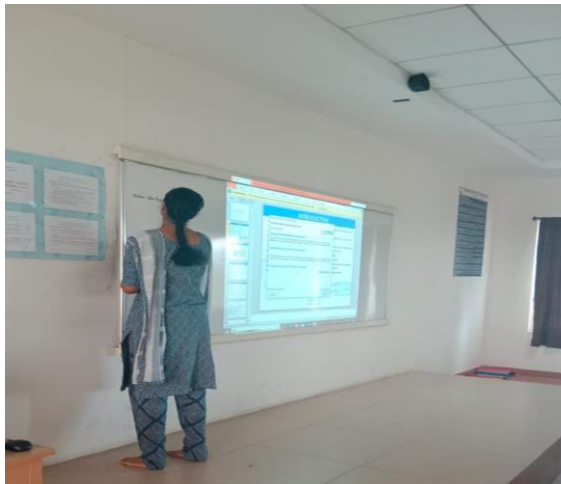

Fig 1: Learning by teaching activity

- **Reflective Critique:**

- ❖ ***Feedback of practice from students and other stakeholders:***

- Students felt they are able to understand the topic as it was taught by their classmate.
 - They felt comfortable to ask doubts while teaching.
 - The student who took the class said it helps in improving self learning skills.

- ❖ ***Benefit of the practice:***

- As the student involves in teaching the new topic, it improves the technical knowledge, confidence, communication.
 - Peer to peer learning activity makes the students to get good wrapo
 - The students can share their gained knowledge.

- ❖ ***Challenges faced in implementation:***

- As the activity involves only one student, unable to persuade all students to engage in self learning.
 - As it involves oral communication, unable to test the writing capacity of the students
 - Team activity and team assessment was difficult.
