

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University
Accredited by NAAC & An ISO 9001:2015 Certified Institution
NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Computer Science and Engineering

Academic Year 2022 – 2023 (Even Semester)

Degree, Semester & Branch: VI Semester B.E. CSE

Course Code & Title: CS8691 Artificial Intelligence

Name of the Faculty member (s): Mrs.G.Mareeswari, AP/CSE

Innovative Practice Description

Unit / Topic: Unit V / Speech Recognition

Course Outcome: CO 5

Topic Learning Outcome: TLO 12,13

Activity Chosen: Reflection

Justification:

- The reflection activity takes place immediately following the discussion of a specific topic, letting learners to analyse their own understanding of the concept. The instructor can also assess the students' understanding level. This activity also gives a chance to the student to address their doubts on the particular topic and instructor clarify the doubts.
- Time Allotted for the Activity:** 20 minutes

Details of the Implementation:

- Instructor explained the particular concepts/topic in classroom within 40 minutes. Instructor gave last ten minutes time to the students.
- The students were asked to write what they have understood from the topic and also insisted to write if they have any queries about the topic.
- The instructor uses the written material of each student to assess their understanding on the topic.
- The papers are collected by me and allotted 10 minutes time in the next hours and discussed all the doubts in next class session and make them understand.
- The students felt they understood the concepts better.

CO – PO / PSO mapping:

CO	PO1	PO2	PO3	PO9	PO10	PSO1
CO 5	2	2	2	2	2	2

(1 – Low 2 – Moderate 3 – High)

PO / PSO mapped:

Innovative practice	PO1	PO2	PO3	PO9	PO10	PSO1
	2	2	2	2	2	2
Justification for correlation	Students can be able to apply basic knowledge of engineering in Speech Recognition	Able to apply this AI applications in different problem solving	Able to interpret the complex engineering problems with the help of AI.	Students expressing their doubts individually	Written communication/ Asking questions are improved	Students can be able to apply speech recognition to solve complex computation task with soft skills.

- Images / Screenshot of the practice:**

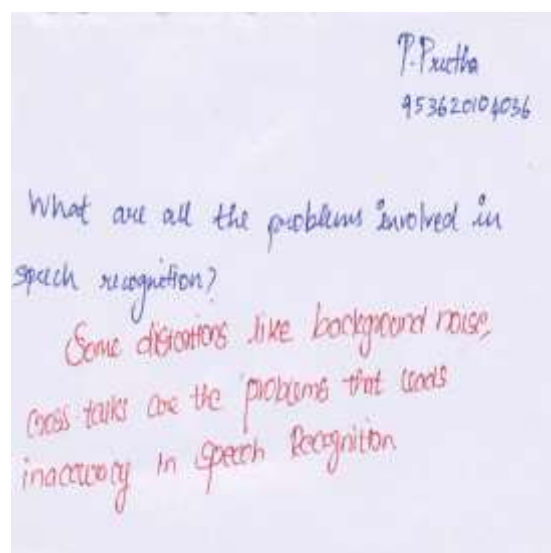

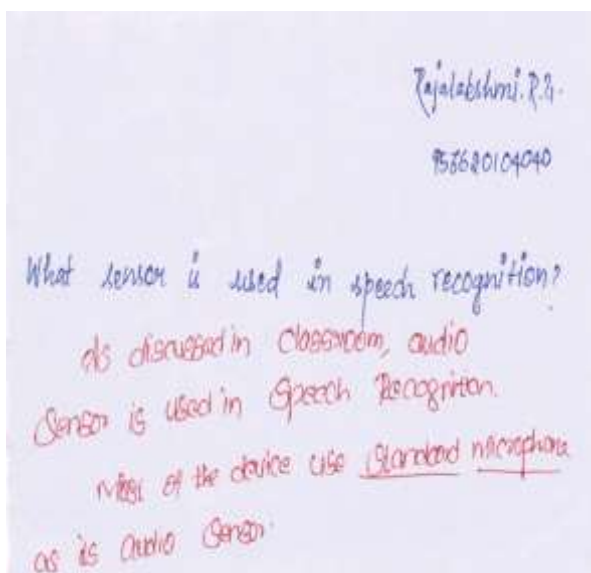

Fig 1: Sample reflection activity of students Rajalakshmi. R.S and Preetha. P

- Reflective Critique:**

- ❖ **Feedback of practice from students and other stakeholders:**

- Students expressed that the activity helped to identify the understanding level of the concept.
- Students informed the instructor that the activity motivates them to be attentive in the class for asking doubts further.

- ❖ **Benefit of the practice:**

- The activity helped the instructor to analyze, evaluate and improve their own learning.
- Reflection activity helped the instructor to identify the students level of understanding and also helps to plan the next session accordingly.

❖ ***Challenges faced in implementation:***

- Most of the students actively participated except few students. They are not involved to share their understanding level and raising the doubts.
- Motivate the students those who are not involved in the activity effectively by means of addressing the benefits of reflections and creative thinking.
