

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University
NAAC Accredited with 'A+' Grade & An ISO 9001: 2015 Certified Institution
NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Computer Science and Engineering Academic Year 2024– 2025 (Odd Semester)

Degree, Semester & Branch : VII Semester B.E CSE
Course Code & Title : CCS346 & Exploratory Data Analysis
Name of the Faculty member : Mrs. S. Vijaya Amala Devi, AP / CSE

Innovative Practice Description

- **Unit / Topic:** Unit V / Multivariate and Time Series Analysis/ Visualization and Grouping
- **Course Outcome:** CO5
- **Topic Learning Outcome:** 5b
- **Activity Chosen:** Classroom Poll
- **Justification:**
 - ❖ Classroom opening polls are an effective and interactive method to engage students at the beginning of a lesson. By utilizing polls for **visualizing and grouping**, instructors can quickly assess students' pre-existing knowledge, identify gaps, and shape the course of the session accordingly.
 - ❖ These polls help create an inclusive learning environment by encouraging active participation from all students.
 - ❖ Visualization of poll results provides a clear, immediate representation of the class's collective understanding, allowing students to see where they stand in relation to their peers.
- **Time Allotted for the Activity:** 20 Minutes
- **Details of the Implementation:**
 - The class was divided into six groups: Team 1, Team 2, Team 3, Team 4, Team 5, and Team 6.
 - Questions were displayed on the screen for an interactive activity.
 - Each group had one minute to discuss the question.
 - Members collaborated to decide on the best answer.
 - A representative from the group presented their final answer.
 - If the answer was correct, the instructor praised the group.
 - If it was incorrect, the instructor explained the right answer.
 - This approach allowed students to learn from their mistakes.
 - Students gained a deeper understanding of the material.
 - Multiple questions were posed, keeping the activity dynamic.
 - The process promoted active participation from all groups.
 - Students worked as a team to solve problems.

- They engaged in peer learning through group discussions.
- The activity fostered skills like communication and critical thinking.
- Cooperation and teamwork were also strengthened through this exercise.

CO – PO / PSO mapping:

CO	PO1	PO2	PO3	PO9	PO10	PO12	PSO3
CO5	1	2	2	1	2	3	1

(1 – Low 2 – Moderate 3 – High)

- PO / PSO mapped:

Innovative practice	PO1	PO2	PO3	PO9	PO10	PO12
	1	2	2	1	2	2
Justification for correlation	The activity involves analyzing and interpreting data, though at a lower level	Students analyze questions and collaborate to find solutions, leading to moderate engagement	Student focus on designing solutions ensures the development of innovative strategies for specific problems.	Student individuality in expressing their doubts	Written communication/ Asking questions are improved	Student will implement the questioning skill in future in written format

Figure: Class Poll Activity (Student discuss with partners)

Reflective Critique:

❖ *Discussing with students:*

Classroom polling encourages students to actively analyze and evaluate the information presented, which fosters deeper intellectual engagement. This method promotes collaboration and participation, ensuring that students are actively involved in the learning process.

❖ *Benefit of the practice:*

- Encourages the immediate application of concepts, enhancing retention and understanding.
- Promotes teamwork and idea exchange, exposing students to diverse perspectives and improving problem-solving capabilities.
- Develops essential professional skills such as questioning, critiquing, and effective communication, preparing students for real-world challenges.

❖ *Challenges faced in implementation:*

- Some students hesitated to actively contribute, possibly due to shyness or lack of confidence.
- A few students were unfamiliar with the dataset used in polling, limiting their initial involvement and contribution.
