

Department of Computer Science and Engineering
Academic Year 2022– 2023(Odd Semester)

Degree, Semester & Branch: B.E – V Semester CSE

Course Code & Title: CS8592 Object Oriented Analysis and Design

Name of the Faculty member (s): Ms.G.Sakthi Priya, AP/CSE

Innovative Practice Description

- **Unit / Topic: Unit V / Test cases**
- **Course Outcome: CO5**
- **Topic Learning Outcome: TLO14**
- **Activity Chosen: Retrieval Practice**
- **Justification:**

Retrieval practice boosts learning by pulling information out. Test cases is one of the important topics in software testing which helps in testing the implemented system. Make the students to retrieve the concept of how to write test case for a given description help them to remember it while developing applications and will also help them examine what they know.

- **Time Allotted for the Activity: 05 Minutes**

- **Details of the Implementation:**

- Faculty randomly asked students to recall how to write test cases for a given problem as shown in Fig 1.
- Students recalled the concept of Software Quality Assurance, Test Case scenario, Test case description, Test case steps, Test Data, Expected Result and Actual Result.
- The students were able to retrieve the operator symbols and able to identify the functionality of each operator.

- **CO – PO / PSO mapping:**

CO	PO1	PO2	PO3	PO12
CO2	2	1	1	1

(1 – Low 2 – Moderate 3 – High)

- **PO / PSO mapped:**

Innovative practice	PO1	PO2	PO3	PO12
Justification for correlation	It involves thinking and make the student able to	Students will be able to write the suitable	Students will be able to provide solution by	As the student involved in the activity as team of two, the team

	write testcases for the developed application	testcase on analyzing a problem	using operators	work skill improved
--	---	---------------------------------	-----------------	---------------------

• **Images / Screenshot of the practice:**

Fig 1: Students recollecting the concept of operators

• **Reflective Critique:**

❖ **Feedback of practice from students and other stakeholders:**

- Students felt they are able to remember the test case format by recollecting it.
- They felt it will be useful while applying in developed applications.

❖ **Benefit of the practice:**

- As the students are immediately recollecting the topic it helps them to remember it for long time.
- It will be easy for them to apply when developing a product/application.
- The students can improve the communication

❖ **Challenges faced in implementation:**

- Only few students were involved in the practice. So unable to test the understanding level of the remaining students within stipulated time.
- As it involves oral communication, unable to test the writing capacity of the students
