

Department of Computer Science and Engineering
Academic Year 2021– 2022(Even Semester)

Degree, Semester & Branch: B.E – II Semester CSE

Course Code & Title: CS3251 Programming in C

Name of the Faculty member (s): Ms.G.Sakthi Priya, AP/CSE

Innovative Practice Description

- **Unit / Topic: Unit IV / Random and Sequential file access**
- **Course Outcome: CO4**
- **Topic Learning Outcome: TLO12**
- **Activity Chosen: One truth two lies**
- **Justification:**
 - One truth two lies is a game based activity in which 3 statements will be displayed to the students. Out of the three statements only one statement is true and other two are wrong statements.
 - Sequential file access and random file access involves many file handling methods and modes which will have minor variations among them
 - To make the concepts clear one truth two lies activity for the file handling is chosen. Three statements related to file handling methods will be displayed. Among the three, one statement about file handling is true.
- **Time Allotted for the Activity: 05 Minutes**
- **Details of the Implementation:**
 - Faculty member revised the concept of sequential and random file handling methods before the activity
 - Then the students are divided into 4 groups and three statements related to file handling methods were displayed as shown in Fig 1
 - The team grabbing the correct statement were awarded with 1 point.
 - Similarly 10 set of questions were displayed to them. The team with higher points were declared as a winner.

- **CO – PO / PSO mapping (specific to this activity) :**

CO	PO1	PO2	PO3	PO10	PSO1
CO2	3	1	1	1	1

(1 – Low 2 – Moderate 3 – High)

- **PO / PSO mapped:**

Innovative practice	PO1	PO2	PO3	PO10	PSO1
Justification for correlation	It makes the students to apply the file handling methods to identify the correct statement	Students will be able to identify the correct file handling methods according to the read/write problem	Students will be able to provide solutions to the problems by reading and writing into file	Students team working skill will be improved as they are involved in this activity as a team	The recollecting/remembering skill earned through this activity helps the students in solving problems related to files

- **Images / Screenshot of the practice:**

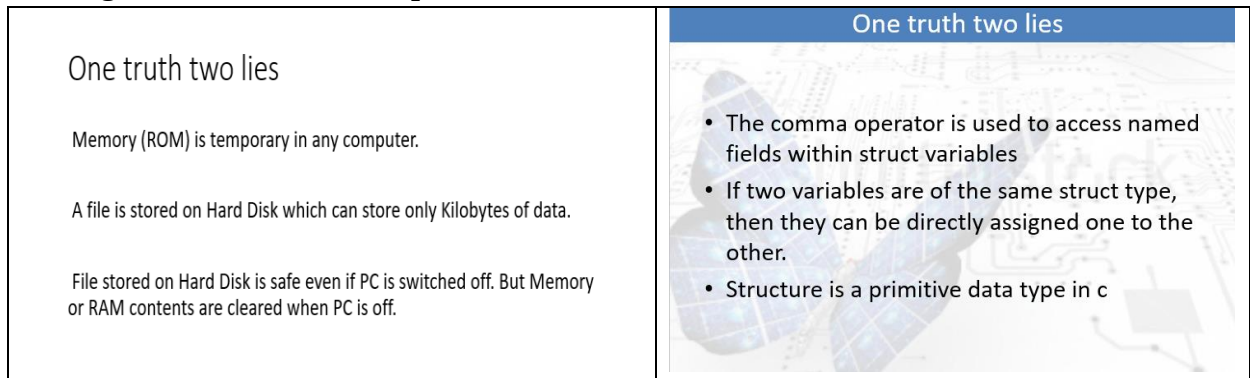

Fig 1: Samples of One truth two lies activity

- **Reflective Critique:**

- ❖ **Feedback of practice from students and other stakeholders:**

- The students said that the activity was interesting
 - They said they were able to classify the correct and wrong statements in file handling
 - They said they were able to correct the wrong statements.

- ❖ **Benefit of the practice:**

- The student's involvement in the activity as a team helps to peer learning
 - File handling methods concepts will be improved by the activity
 - Student can remember the concept easily

- ❖ **Challenges faced in implementation:**

- It was difficult to assess individual performance of the students
 - As it involves oral communication, unable to test the writing capacity of the students
 - Few students found it difficult to recollect the concepts without preparation.
