

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University
Accredited by NAAC & An ISO 9001:2015 Certified Institution
NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Computer Science and Engineering

Academic Year 2024 – 2025 (Odd Semester)

Degree, Semester & Branch: V Semester B.E. CSE 'A'

Course Code & Title: CCS375 Web Technologies

Name of the Faculty member (s): Mrs.B.Vijayalakshmi, AP (SG)/CSE

Innovative Practice Description

- Unit / Topic: Unit I / CSS**

- Course Outcome: CO1**

- Topic Learning Outcome: 1c**

- Activity Chosen: Real World Learning**

- Justification:**

The basic understanding of different style sheets and its usage is very much important to develop a good looking web applications. A real world learning activity is given to them to provide a way to identify the different types of style properties used in a different website.

- Time Allotted for the Activity: 10 Minutes**

- Details of the Implementation:**

- The students were asked to inspect a website's styles using tools like browser developer tools. They explore the variety of CSS properties such as layout (e.g., flex, grid), typography (e.g., font-size, font-family), and colors. style property used for designing the web page.
- The activity was conducted at the end of the class for the duration of 10 minutes.
- The students are asked to list the different style properties used in their favorite webpage for designing a particular section of the website.
- The students inspect the page and write the different style properties. The students finding were shown in Figure.1.

- CO – PO / PSO mapping:**

CO	PO1	PO2	PO3	PO5	PO8	PO9	PO10	PO11	PO12	PSO1
CO1	3	3	3	3	3	1	2	2	1	3

(1 – Low 2 – Moderate 3 – High)

- PO / PSO mapped:**

• **Reflective Critique:**

❖ **Feedback of practice from students and other stakeholders:**

- All the students are very much interested in inspecting their favourite website and find out the different style properties.

❖ **Benefit of the practice:** (E.g.: Outcome attainment would have increased due to innovative practice over conventional practice)

- By directly inspecting a website's styles using tools like browser developer tools, students get practical, real-world experience.

- This activity encourages a sense of curiosity and creativity in learning about web development among the students.
- Students get exposed to a variety of CSS properties in action which deepens their understanding of how styles affect the presentation of web pages.

❖ ***Challenges faced in implementation:***

- Some of the students feel difficult to identify which styles apply to specific elements since Websites often have a large number of CSS rules.
- Some students find it difficult to understand how styles are applied, as they may not see the direct CSS rules but rather utility classes in the case of CSS frameworks.
