

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University
Accredited by NAAC & An ISO 9001:2015 Certified Institution
NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Computer Science and Engineering

Academic Year 2023 – 2024 (Odd Semester)

Degree, Semester & Branch: III Semester B.E. CSE 'A'

Course Code & Title: CS3391 Object Oriented Programming

Name of the Faculty member (s): Mrs.B.Vijayalakshmi, AP (SG)/CSE

Innovative Practice Description

- Unit / Topic: Unit I / Features of Object Oriented Programming**

- Course Outcome: CO1**

- Topic Learning Outcome: TLO1**

- Activity Chosen: Concept Map**

- Justification:**

The basic understanding of different object oriented programming concept is very much essential to develop applications using Java. Hence a concept map activity is given to them to provide a way to summarize all the concepts involved in object oriented programming.

- Time Allotted for the Activity: 10 Minutes**

- Details of the Implementation:**

- The activity was conducted at the last 10 minutes of the class after discussing the various object oriented programming concepts.
- The students are asked to prepare a concept map by depicting the different concepts involved in object oriented programming.
- The students recollect the concepts involved in OOPS and present the concepts in a easily understandable way.
- Fig.1 shows the concept maps drawn by the students.

- CO – PO / PSO mapping:**

CO	PO1	PO2	PO8	PSO1	PSO2	PSO3
CO2	3	3	1	3	1	1

(1 – Low 2 – Moderate 3 – High)

- PO / PSO mapped:**

Innovative practice	PO1	PO2	PO9	PO10	PSO1	PSO2	PSO3
	3	2	1	1	3	1	1
Justification for correlation	The students apply the knowledge of object	The students identify the ways to	The students individually present their ideas	The students communicate the basics OOPS	The OOPS concept are needed in	The concept is used in security	The concept is used in solving

	oriented programming basics.	represent the concepts of OOPS.		concepts in the form of concept map	developing the software	applications	problems in AI
--	------------------------------	---------------------------------	--	-------------------------------------	-------------------------	--------------	----------------

• Images / Screenshot of the practice:

Fig. 1: Sample Concept Map

• **Reflective Critique:**

❖ **Feedback of practice from students and other stakeholders:**

- All the students are very much interested in drawing the features of OOPS as a concept map.

❖ **Benefit of the practice:** (E.g.: Outcome attainment would have increased due to innovative practice over conventional practice)

- This activity helps them to summarize the entire concepts in one picture.
- The level of understanding can be analyzed by seeing the concept map they have drawn.

❖ **Challenges faced in implementation:**

- Some of the students need more time to complete the map.
- Some students only represent few concepts in the map.
