

Department of Computer Science and Engineering

Academic Year 2023– 2024(Odd Semester)

Degree, Semester & Branch: B.E – III Semester CSE ‘B’

Course Code & Title: CS3391 Object Oriented Programming

Name of the Faculty member (s): Ms. G. Sakthi Priya, AP/CSE

Innovative Practice Description

- **Unit / Topic:** Unit IV /Reading and writing– Crossword Puzzles
- **Course Outcome:** CO4
- **Topic Learning Outcome:** TLO9
- **Activity Chosen:** Crossword puzzle
- **Justification:**
 - The File handling is an important topic needed for every programming language. When working without database, file can be used as a storage medium.
 - A crossword puzzle is a word puzzle activity that usually consists of a white and black-shaded squares. By solving clues that lead to the answers, the goal is to fill the white squares with letters, forming words or phrases.
 - So, a crossword puzzle activity is chosen to have a better understanding of the file handling concept by finding the suitable word according to the question
- **Time** Allotted for the Activity: 15 Minutes
- **Details of the Implementation:**
 - Faculty gave a brief overview of file handling and their importance in Java programming and explained the concept of the file reading and writing using Byte stream and character stream
 - Students were given few minutes to individually think about their understanding of java file concepts.
 - Entire class was divided as 25 team. Each team contained 2 to 3 members.
 - Crossword puzzle of 10 questions were given to the students.
 - The students were discussed with the team members and completed the puzzle as shown in Fig 1
 - After completion of the puzzle activity, the faculty member discussed the answer to make the students aware of the correct answer as shown in Fig 2

- CO – PO / PSO mapping:

CO	PO1	PO2	PO3	PO9	PO10	PO12
CO2	2	1	1	1	1	1

(1 – Low 2 – Moderate 3 – High)

- PO / PSO mapped:

Innovative practice	PO1	PO2	PO3	PO9	PO10	PO12	PSO1
Justification for correlation	Students will be able to understand the concept of file handling	Students will be able to choose the appropriate file handler while approaching the problem	Students will be able to store the data by applying concept of file handling	As the student involved in the activity as a team, the team work skill improved	Students communication skill will be improved as they are discussing the answers with peers	The problem solving skill earned through this activity helps the students in solving various problems	File handling concepts can be used in software development

- Images / Screenshot of the practice:

Fig 1: Students solving crossword puzzle

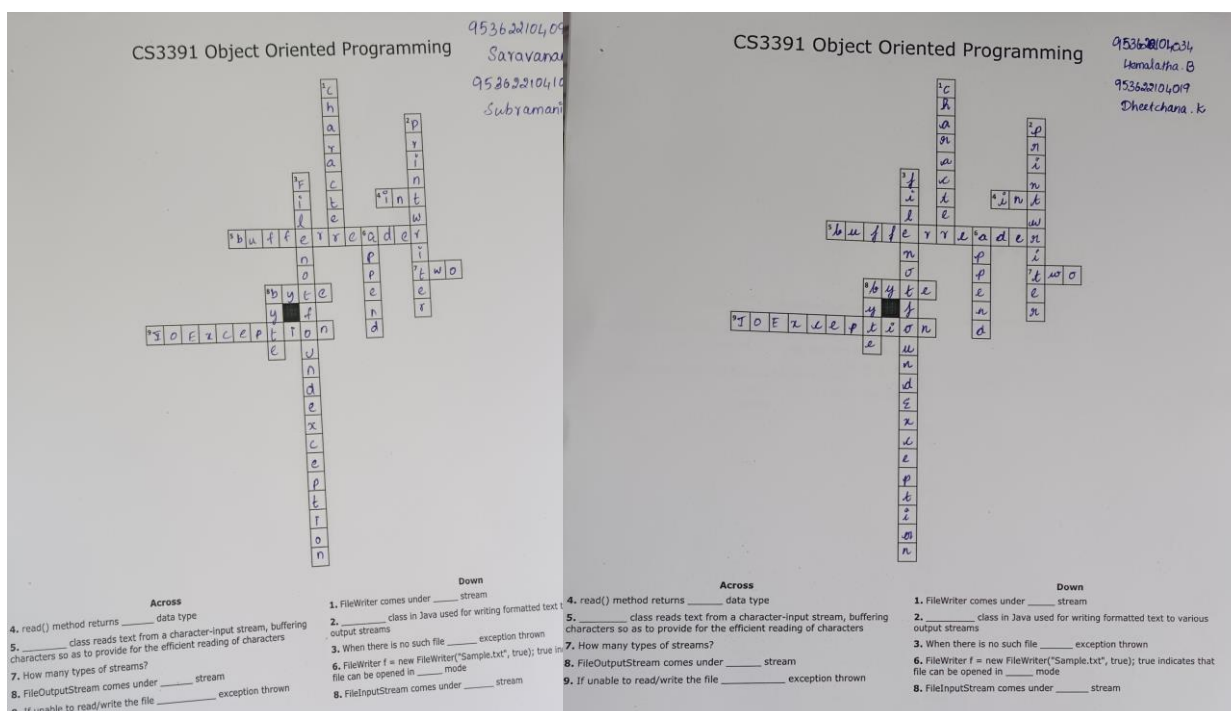

Fig 2: Sample sheets (Saravanan R, Subramani Raja R) and (Hemalatha, Hemapriyah) of solved crossword puzzle

• Reflective Critique:

❖ *Feedback of practice from students and other stakeholders:*

- The crossword puzzle activity was very interesting and able to identify the appropriate name of the event handler.
- It will be helpful while preparing for examination

❖ *Benefit of the practice:*

- Student's understanding on file handling is improved.
- Vocabulary of the terms related to file handling is improved
- This activity helps to test the level of understanding of the students

❖ *Challenges faced in implementation:*

- Few students found it difficult to complete the puzzle
- Students just might not have the necessary knowledge to complete crossword puzzles
