

RAMCO INSTITUTE OF TECHNOLOGY
Department of Computer Science and Engineering

Academic Year: 2019 - 2020 (Even Semester)

Degree, Semester & Branch: VI Semester B.E. CSE

Course Code & Title: CS8691 Artificial Intelligence

Type of Activity: Flash Cards

Topic: Architecture of Intelligent Agent

Date: 26-02-2020

Objectives:

O1: To make the students to understand and explore the concept of different intelligent agent architecture.

Justification for choosing the particular topic:

- The topic “Architecture of Intelligent agent” has more sub topics and under each sub topic the students need to learn more concepts. To make the students familiar with the concept in detail the activity was conducted.

Procedure of Flash card:

- A flash card is a method in which the question and corresponding answer is in separate card.
- Question and answer of the card is prepared based on topic taught by the course instructor in the class on a particular day.
- Answer cards will be distributed to students in the class.
- Once the question will be asked by one of the students in the class from the card, student members of group in the class should identify correct answer card within 2 minutes with their answer cards and explain the answer in front of the class for next 2 minutes.
- This will help the students to revise the particular topic.

Use of Flash Cards:

- It helps students to identify the definition of one important concept.
- It motivates the students to identify the term associated with each definition and questions.
- It helps the students to revise the concepts.

Activity:

- Questions and Answer cards were prepared in chart paper by the course instructor which is shown in fig.1.
- The entire 10 question cards were given to one particular student (M.Prabhu) shown in fig.2.
- The entire class divided into 10 groups with 5 students.
- The answer cards were distributed to the group by the course instructor.
- Questioner asked the questions one by one in the class.
- Questioner gave 2 minutes time to each question for identifying the answer card to the group.
- The members of the group heard the question and found out the corresponding answer card which they were having based on the topic discussed in class on the day.

- Any one of the group found the answer card with them, one of the students from the group came to the stage and he/she explained the answer for the question within 2 minutes is shown in fig.3.

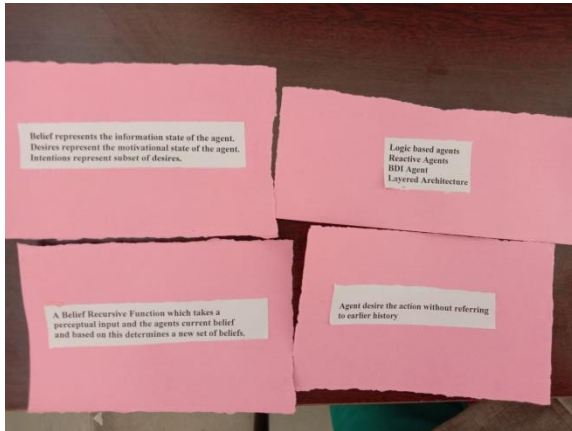

Fig 1: Sample Flash card

Fig 2: Student ask the Questions to the Class

Fig 3: Students discuss the answer

Reflection critique

Pre Implementation

- Course instructor explained the concepts once again and instructed the questioner to repeat the question once again clearly to make the students for clear understanding of question.

Post Implementation:

- Based on the activity student's they felt that it was easy to understand the concept.
- Most of the students were actively participated and enjoyed among their group members once they answered correctly.

Relevance of Program Outcomes

Course Outcome	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12
O1	2	2	3		1			2		2		2
