

Department of Computer Science and Engineering

Academic Year 2023– 2024(Odd Semester)

Degree, Semester & Branch: B.E, V & CSE

Course Code & Title: CCS334 & Big Data Analytics

Name of the Faculty member (s): Dr. I Gethzi Ahila Poornima

Innovative Practice Description

- **Unit / Topic:** Unit V / Hive
- **Course Outcome:** CO 5
- **Activity Chosen:** Active Learning- Crossword Puzzle
- **Justification:**

Hive tool is one of the most important data base for analyzing large set of data. Even a non-programmer can analyze the data using Hive. If the students are able to work with Hive, it will be very useful for them to work in Data analytic tasks.

- **Time Allotted for the Activity:** 10 Minutes
- **Details of the Implementation:**

(A brief content about how the practice was followed)

- A crossword puzzle is a fun word game that encourages students to remember the concept and look for the solution. 60 students participated in the event, which was carried out in a classroom. Before class, the announcement was made. Each student was given a form, which they were required to fill out. The right answers to the incorrect questions were quickly reviewed in the following class hour to make sure they knew all of the questions' correct answers.

Reflective Critique:

❖ *Feedback of practice from students and other stakeholders:*

- Every student responded enthusiastically to the puzzle activity.

❖ *Benefit of the practice:*

- They are able to immediately recollect the core idea of the Hive tool. .
