

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University

Accredited by NAAC & An ISO 9001: 2015 Certified Institution

NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Computer Science and Engineering

Academic Year 2023 - 2024 (Odd Semester)

Degree, Semester & Branch: B.E- V Semester-CSE

Course Code & Title: CB3491 - Cryptography and Cyber Security

Name of the Faculty member (s): Mrs.K.Jeyakarthika, AP/CSE

Date of Implementation: 28.10.2023

Active Learning method- Description

Unit / Topic: Unit V / Tools and Methods of Cyber Crimes

Course Outcome: CO5

Topic Learning Outcome: TLO17

Activity Chosen: Crossword Puzzle

Justification:

- A crossword puzzle is a word puzzle that usually consists of a white and black shaded squares. By solving clues that lead to the answers, the goal is to fill the white squares with letters, forming words or phrases.
- In Cyber Security, there are several types of cybercrimes are available.
- So, a crossword puzzle activity is chosen to have a better understanding of the cybercrimes types and its methods.

Time Allotted for the Activity: 10 Minutes

Details of the Implementation:

- Entire class was divided as a team. Each team contained 2 members.
- Crossword puzzle of 10 questions were given to the students.
- In a class room, a printed sheet of 10 questions given to the team of students.
- The students were discussed with the team members and completed the puzzle.
- After completion of the puzzle activity, the faculty member discussed the answer to make the students aware of the correct answer.
- The sample cross word puzzle activity presented by the students as shown in the figure 1 and figure 2.

CO – PO / PSO mapping:

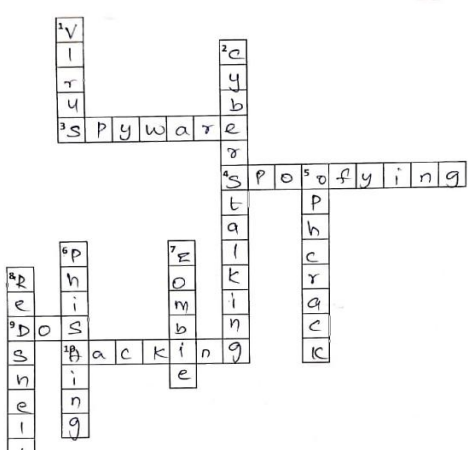

CO	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO12
CO1	3	2	1	2	2	-	-	1	1	1

PO / PSO mapped:

Innovat ive Practice	PO1	PO2	PO3	PO4	PO5	PO8	PO9	PO12
	3	2	1	2	2	1	1	1
	Basic Computer Science Engineering and mathematics Knowledge for implementing cybercrime and Information technology	Analyzing various classification of cybercrimes are highly correlated .	Developing systems with basic cybercrime mechanisms are highly correlated.	Investigate various tools of cybercrimes is highly correlated	Use of virtual environment, tools for performing password cracking, SQL injection is highly correlated.	Students will complete the assignments/ tasks in an ethical way.	The students will able to understand as an individual and team how to work for various projects on cyber security.	Understanding concepts of cybercrimes in cyber security for competing future demands.

Fig 1,2: Crossword puzzle sample sheet

Reflective Critique:

- ❖ Feedback of practice from students and other stakeholders:
 - The crossword puzzle activity was very interesting and able to identify the appropriate name of the cybercrimes.
 - Some of them take more time to complete the puzzle need more clarification on the some of the methods.
- ❖ Benefit of the practice:
 - Student's understanding about cybercrimes is improved.
 - This activity helps to test the level of understanding of the students
- ❖ Challenges faced in implementation:
 - Few students found it difficult to complete the puzzle.
 - Some students do not know the answer for the question.
 - The activity was planned for 15 Minutes, some students not yet completed within stipulated time, it took 25 minutes.
