

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University
Accredited by NAAC & An ISO 9001:2015 Certified Institution
NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Computer Science and Engineering

Academic Year 2023 – 2024 (Odd Semester)

Degree, Semester & Branch: B.E, VII & CSE

Course Code & Title: CS8791 & Cloud Computing

Name of the Faculty member : Mrs.K.Jeyageetha

Innovative Practice Description

- **Unit / Topic: Unit II /Basics of Virtualization and Types of Virtualization**

- **Course Outcome: CO 2**

- **Topic Learning Outcome: TLO6**

- **Activity Chosen: Online Demonstration using ICT Academy VLAB**

- **Justification:**

Since the principles of Virtualization technique is mandatory for the Cloud computing, demonstration is given to the students through ICT Academy Vlab by using the following link <https://portal.netdevgroup.com/learn/cloud-virt-concepts/enroll>.

- **Time Allotted for the Activity: 50 Minutes**

- **Details of the Implementation:**

Step 1: Introduction and Concept Explanation: (5 minutes)

- Mrs.K.Jeyageetha started the session by introducing the concept of virtualization and its importance.
- I briefly explained the types of virtualization, emphasizing the focus on virtual machines in VLAB demonstration.

Step 2: Overview of VMWare Workstation: (5 minutes)

- I provided a brief overview of VMware Workstation, highlighting its features and capabilities in virtual machine creation.

Step 3: Demonstration: (30 minutes):

- The step-by-step demonstration of creating a virtual machine using VMware Workstation was done as shown in figure 1.
- Walked through the process, explaining each step clearly and highlighting key settings and options.
- Shared the purpose of each configuration and demonstrated how to navigate the VMware Workstation interface.

Step 4: Recap and Summary (10 minutes):

- Summarized the key steps covered in the demonstration.

- Reinforced the importance of virtualization and the practical skills gained through creating a virtual machine

• **CO – PO / PSO mapping:**

CO	PO 1	PO 2	PO 3	PO 4	PO 5	PO 6	PO 7	PO 8	PO 9	PO 10	PO 11	PO 12	PSO 1	PSO 2	PSO 3
CO 1	3	2	1	1	1	-	-	-	-	2	-	1	1	3	1

(1 – Low 2 – Moderate 3 – High)

• **PO / PSO mapped:**

Innovative practice	PO 1	PO 10	PO 12	PO 2	PSO2
	3	2	1	2	1
Justification for correlation	Students could be able to apply basic theory and principles of Basic Types of Virtualization, Virtualization Techniques	Students could be able to have the hands-on with Virtual machine creation on Vlab	Students could be able to recollect the basic principles of Virtualization	Students could be able to get the knowledge and differentiate the concepts clearly between Virtualization type	Students could be able to identify the difference between Virtualization types

• **Images / Screenshot of the practice:**

Fig1. Screenshot of Demonstration given to the students for VM creation

- **Reflective Critique:**

- ❖ **Feedback of practice from students and other stakeholders:**

Students felt that they can able to understand the concepts of Virtualization, types and creation of Virtual Machine through the Demonstration using VLAB.

- ❖ **Benefit of the practice:** (E.g.: Outcome attainment would have increased due to innovative practice over conventional practice)

- Students had understood the concepts of basics of virtualization, its types and VM creation.
- All the students completed the creation of virtual machine in VMware workstation virtually.

- ❖ **Challenges faced in implementation:**

- Students felt that it could be better if it was a hands on session so that they can work on it by their own.
