

Department of Computer Science and Engineering
Academic Year 2022– 2023(Odd Semester)

Degree, Semester & Branch: B.E, V & EEE

Course Code & Title: CS8392 & Object Oriented Programming

Name of the Faculty member (s): Dr. I Gethzi Ahila Poornima

Innovative Practice Description

- **Unit / Topic: Unit IV / Interthread Communication**
- **Course Outcome: CO 4**
- **Topic Learning Outcome: TLO 10**
- **Activity Chosen: Active Learning- Crossword Puzzle**
- **Justification:**

Interthread Communication is one of the important concept in java to synchronize the threads in multithreading applications so that the access of multiple threads to a shared resource could be made possible. One way of achieving synchronization is inter-thread communication which is the best solution to producer consumer problem.

- **Time Allotted for the Activity: 20 Minutes**
- **Details of the Implementation:**

(A brief content about how the practice was followed)

A crossword puzzle is a fun word game that encourages students to remember the concept and look for the solution. There were 60 students participating in the exercise, which was held in a classroom. The students received the announcement beforehand. The crossword puzzle is shown on the screen in the classroom as seen in figure 1.

The students looked at the display, wrote down the solutions, and came back. filled the sheets, then came back. To ensure that they knew the answers to all the questions, the correct answers to the incorrect questions were promptly reviewed in the following class session. The student-written sample papers are displayed in Figure 2. Pictures from the occasion are shown in Figure 3.

- **CO – PO / PSO mapping:**

CO	PO1	PO2	PO3	PO12	PSO1
CO3	2	1	2	2	2

(1 – Low 2 – Moderate 3 – High)

- **PO / PSO mapped:**

Innovative practice	PO1	PO2	PO3	PO12	PSO1
	2	1	2	2	2

- **Images / Screenshot of the practice:**

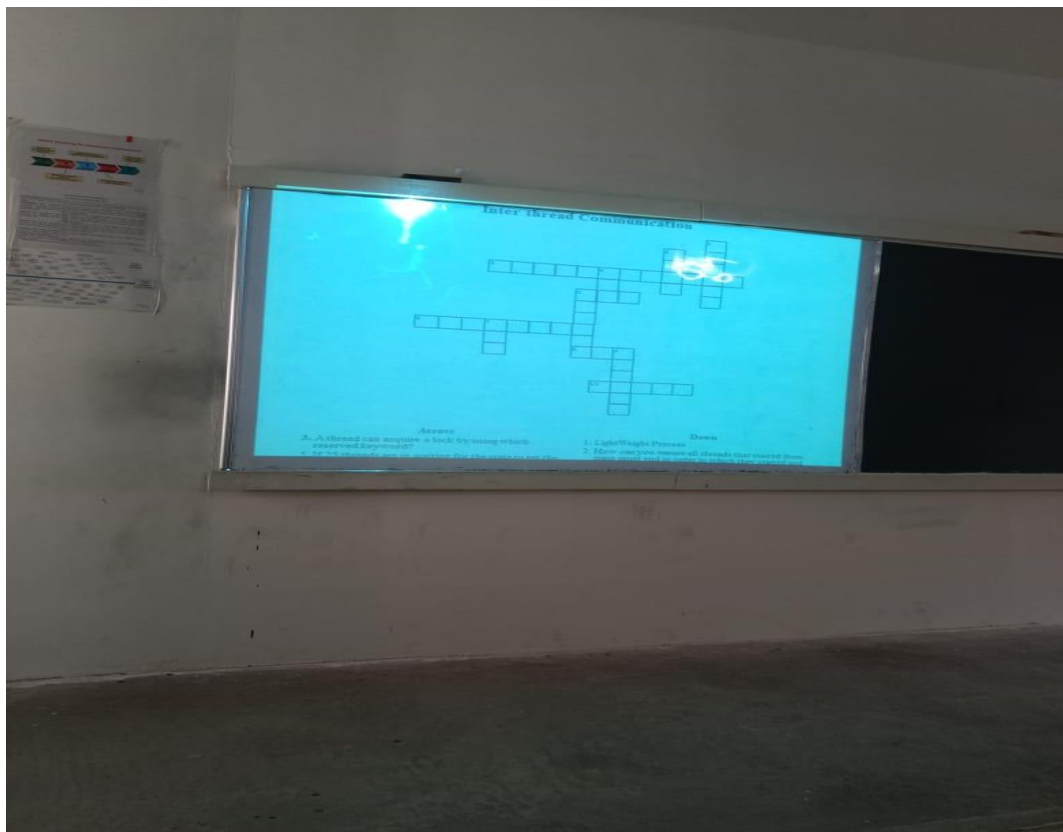

Figure 1: Cross word Puzzle Question shown in class

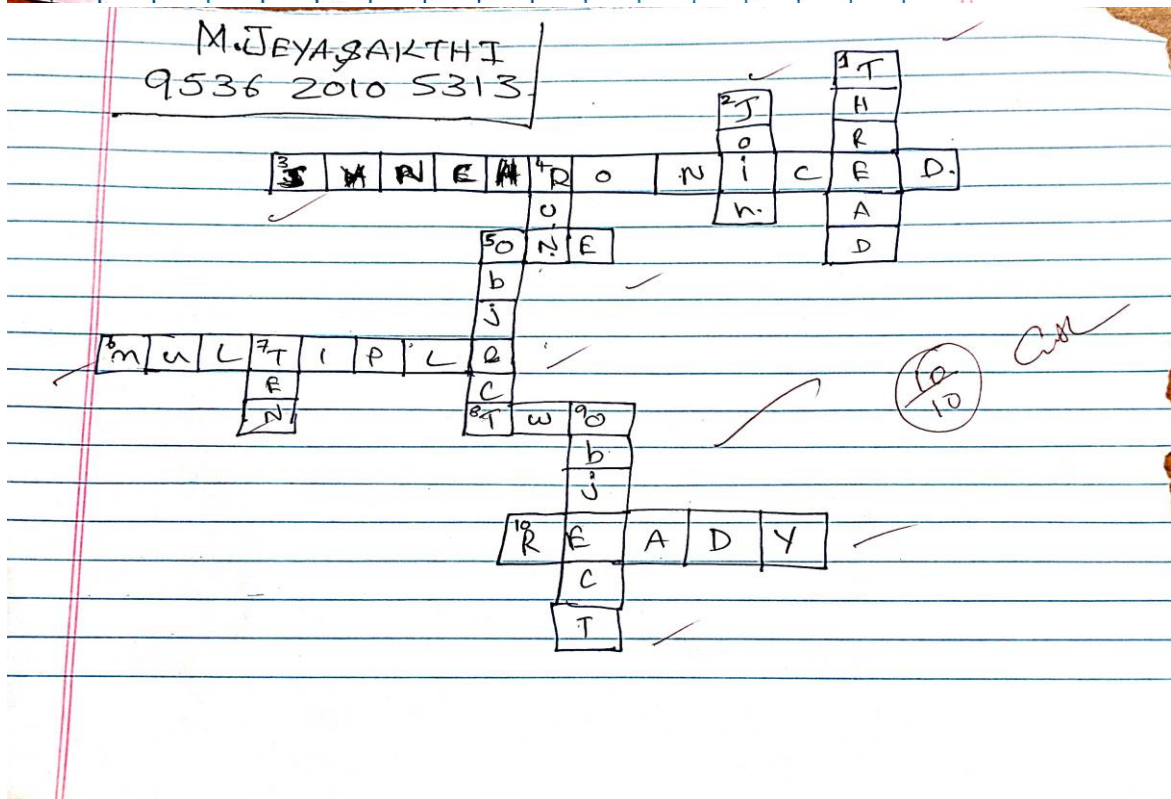

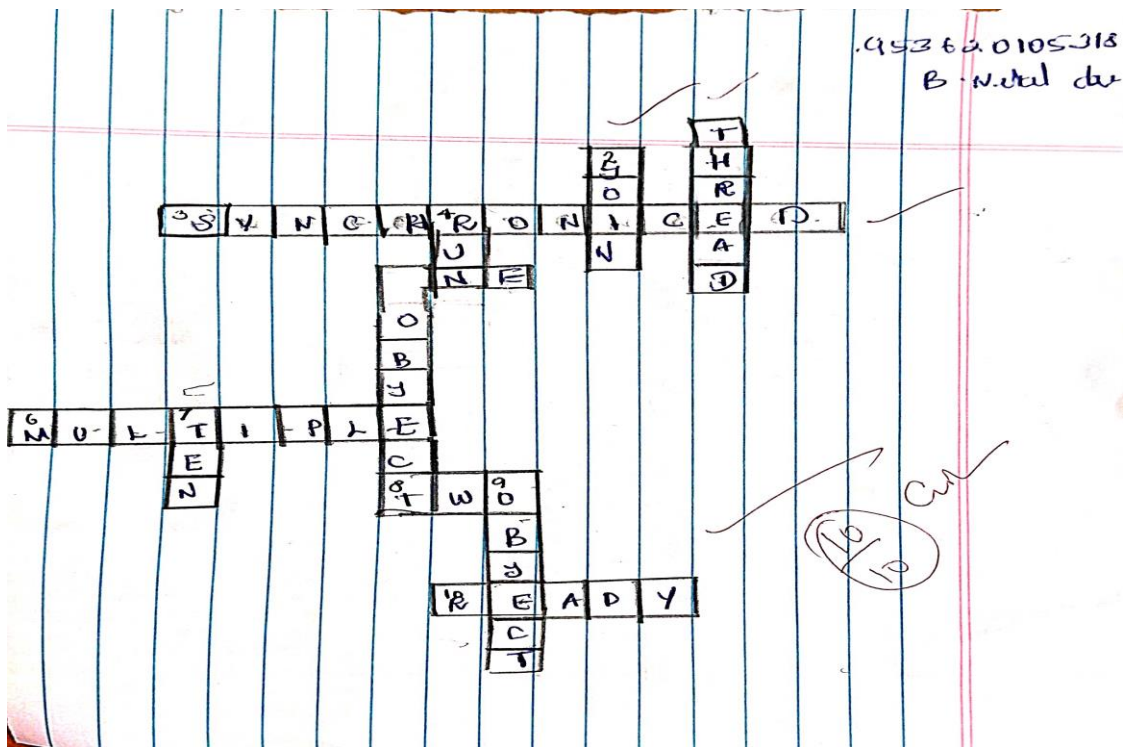

Figure 2: Sample corrected papers

Figure 3: Snapshots taken during the activity

- **Reflective Critique:**

- ❖ ***Feedback of practice from students and other stakeholders:***

- The puzzle activity received enthusiastic responses from every student.

- ❖ ***Benefit of the practice:***

- They can quickly recall the fundamental and important phrases used in inter-thread communication.

- ❖ ***Challenges faced in implementation:***

- The producer-consumer issue is not commonly remembered by students.
