

Department of Computer Science and Engineering

Academic Year 2021 – 2022(Odd / ~~Even~~ Semester)

Degree, Semester & Branch: B.E, VII & CSE

Course Code & Title: CS8791 & Cloud Computing

Name of the Faculty member (s): Dr.M.Gomathy Nayagam

Innovative Practice Description

- **Unit / Topic:** Unit III /Cloud Deployment Model & Service Model

- **Course Outcome:** CO 3

- **Topic Learning Outcome:** TLO8

- **Activity Chosen:** Mind Map

- **Justification:**

The topic, “Cloud Deployment Model and service model” is more theoretical. Some of the students felt about the problem oriented subject were easier than theoretical subject. Hence this activity will help the students to know how to grasp the theoretical concepts into picture which will help them to easy remembrance for their examination

- **Time Allotted for the Activity:** 15 Minutes

- **Details of the Implementation:**

- Teacher explained the particular concepts/topic in classroom within 30 minutes
- Based on the discussion and after clarifying the doubts raised by the students, the teacher asked the students to draw a mind map related to the topic which ever discussed earlier within 15 minutes.
- Each student drawn a mind map based on their understanding level of the particular topic (Cloud Deployment and Service Model). The fig 1a,b and c shows the sample mind maps of different students Mr.Esagiraja, Ms. Aswini and Ms. Samyuktha Vikashini respectively.
- Teacher chosen 2 students randomly from each row and asked them to explain whatever they drawn in their paper within another 2 minutes.
- Other students in the class listened the discussion
- This helped the students to recall the topic discussed on the particular day, generate the new idea about the topic and they easily answered the questions from this topic during the exam by their own way.

- **CO – PO / PSO mapping:**

CO	PO 1	PO 2	PO 3	PO 4	PO 5	PO 6	PO 7	PO 8	PO 9	PO 10	PO 11	PO 12	PSO 1	PSO 2	PSO 3
CO 3	3	3	2	1	1	-	-	1	1	2	-	1	2	3	2

(1 – Low 2 – Moderate 3 – High)

- **PO / PSO mapped:**

Innovative practice	PO 1	PO 8	PO 10	PO 12	PSO2
	3	1	2	1	3
Justification for correlation	Students could be able to apply basic theory and principles of Cloud deployment and Services model	Based on the theoretical knowledge gathered, student drawn the pictorial representation of theoretical concept individually without refereeing others.	Students could be able to recollect the various cloud deployment and service model	Students could able to get the knowledge and differentiate the concepts clearly between deployment of cloud and its various services	Students could be able to identify the difference between deployment and services

- **Images / Screenshot of the practice:**

Fig.1.a. Sample Mind map of Student Mr.Esakiraja

Fig.1.b. Sample Mind map of Student Ms.Aswini

Fig.1.c. Sample Mind map of Student Ms.Samyuktha vikashini

• Reflective Critique:

❖ Feedback of practice from students and other stakeholders:

Students enjoyed converting the theoretical concept into pictorial representation. They felt that this will help them to prepare during examination easily.

❖ Benefit of the practice: (E.g.: Outcome attainment would have increased due to innovative practice over conventional practice)

- o Once they completed their mind map drawing, they enjoyed lot and they were confident about the topic in which they practiced in mind map.
- o They knew all the key points viz cloud deployment and services.

❖ Challenges faced in implementation:

- o Few of them are having lack of knowledge in mind map activity.
- o Few of them are very lazy to draw the pictorial representation.
