

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University
Accredited by NAAC & An ISO 9001:2015 Certified Institution
NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Computer Science and Engineering

Academic Year 2021 – 2022 (Odd Semester)

Degree, Semester & Branch: B.E.VII, Computer Science and Engineering

Course Code & Title: CS8091&BIG DATA ANALYTICS

Name of the Faculty member (s): Mrs.S.Manjula

Innovative Practice Description

Unit 4-Topic: Sampling Data in a Stream

Course Outcome: CO4

Topic Learning Outcome: 4.1

Activity Chosen: Idea Discussion-Best practice

Justification:

The method of discussing ideas is an open and collaborative exchange of ideas among students. It may also encourage student reflection, learning, problem-solving, understanding or literary appreciation, and build confidence.

Time Allotted for the Activity: 20 minutes

Details of the Implementation:

- Topic and the date of the activity were announced to the students for preparation purposes.
- During the activity, students are asked to work in a group to discuss on a topic provided.
- Each student plays a role in the discussion.
- At last students get a clear idea about the topic.

CO – PO / PSO mapping:

CO	PO4	PSO3
CO2	2	3

(1 – Low 2 – Moderate 3 – High)

PO / PSO mapped:

Innovative practice	PO4	PSO3
	2	3
Justification for correlation	Streaming of Data for a video application with filters can be gathered for a particular complex solution.	Research and Investigations of data for Video applications can be done.

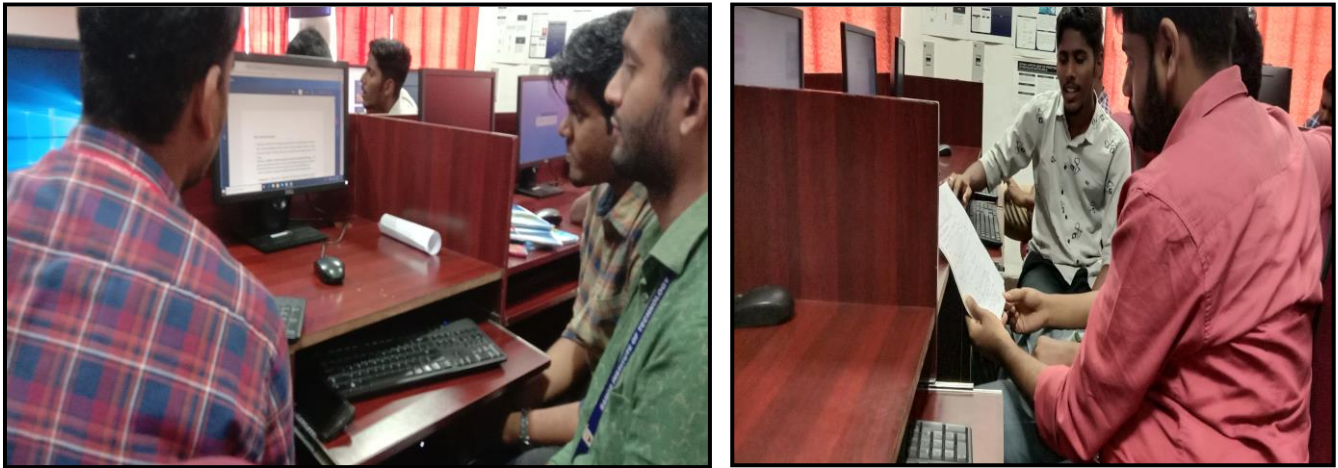

Fig.1. Idea Discussion

Reflective Critique:

- ❖ **Benefit of the practice:** (E.g.: Outcome attainment would have increased due to innovative practice over conventional practice)
 - It also gives them a chance to validate their ideas in a small group before mentioning them to the large group, which may help shy students feel more confident participating.
 - Students answered the questions well in the online quiz.
 - The impact of innovative practice in the quiz is attached Fig. 2. herewith.

Attempts: 9 out of 10

Discrimination
Index ?

A search engine receives a stream of queries, and it would like to study the behavior of typical users. Assume that the stream consists of tuples (user, query, time)

Sampling Query		0 %	
Ad-hoc Query	7 respondents	70 %	✓
hybrid sampling query	1 respondent	10 %	
Standing Query	1 respondent	10 %	
No Answer	1 respondent	10 %	

70% answered
correctly

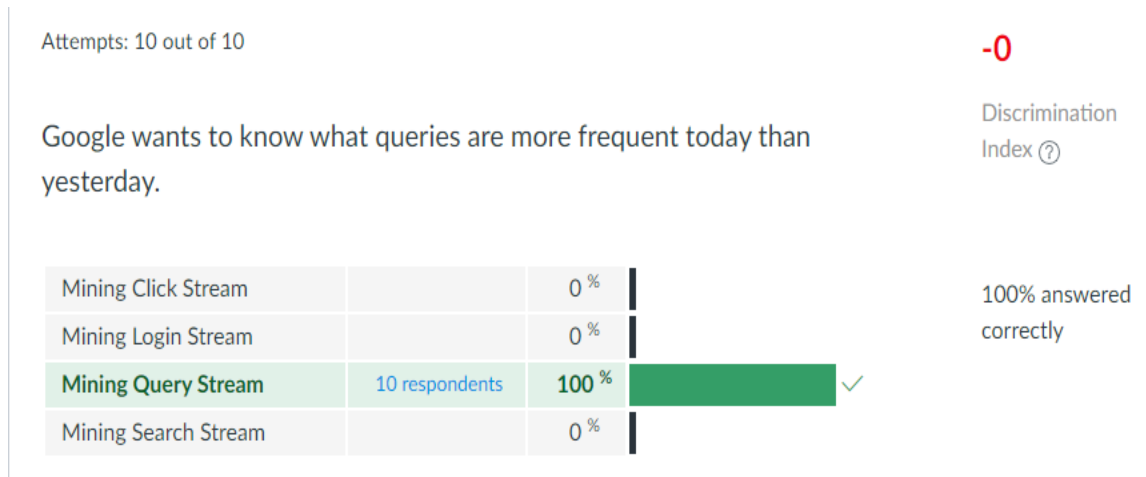

Fig.2. Quiz report on Sampling Data in a Stream

❖ **Challenges faced in implementation:**

- Managing several topics in a single time is extremely difficult due to a lack of planning time.
- Activity may also force to bring in a lot of creativity and diverse strategies within a short duration.
- There may be some instances of serious debate between pupils in order to demonstrate their own ideas.
