

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University
Accredited by NAAC & An ISO 9001:2015 Certified Institution
NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Computer Science and Engineering

Academic Year 2021 – 2022 (Odd Semester)

Degree, Semester & Branch: B.E.VII, Computer Science and Engineering

Course Code & Title: CS8091&BIG DATA ANALYTICS

Name of the Faculty member (s): Mrs.S.Manjula

Innovative Practice Description

Unit 4-Topic: Stock Market Predictions

Course Outcome: CO4

Topic Learning Outcome: 4.1, 4.2

Activity Chosen: Blended Learning through Project Demo

Justification:

A blended learning approach is necessary in order to address the target group's various learning styles. It can also be beneficial to demonstrate various types of project challenges, issues, and competencies. Overall, blended learning is an excellent teaching method that is both adaptable and accessible.

Time Allotted for the Activity: 20 minutes

Details of the Implementation:

- Prepared the questions or assignments related to the project's topic and conveyed them to the students.
- Provide some sufficient time for the students to access the online resources and then they will share their own views.
- If there are any questions between the students, they should visit the online resources and clarify their doubts.
- This activity is continued until they get clear pictures of their project work from other students.

CO – PO / PSO mapping:

CO	PO4	PSO3
CO4	2	3

(1 – Low 2 – Moderate 3 – High)

PO / PSO mapped:

Fig.1. Blended learning practice

Reflective Critique:

- Blended learning combines the benefits of both traditional and online learning approaches to provide a more interesting learning experience for students.
- It is helpful for improve the student's behavioral, emotional and cognitive processes knowledge.

Benefit of the practice:

- Self-pacing also creates a natural space for collaboration because students are free to help, or seek help from.
- Students answered standards-aligned test questions, explained something to the instructor in person, completed an online quiz.
- The impact of innovative practice in the quiz is attached Fig. 2. herewith.

Attempts: 10 out of 10

+0.69

Monitoring stock market trends provide analytics to help users make a decision to buy or sell all in real time.

Discrimination Index (?)

Continuous Real Time Analytics	9 respondents	90 %	✓	90% answered correctly
Content Based Analytics		0 %		
Time based Analytics	1 respondent	10 %		
On Demand Real Time Analytics		0 %		

Fig.2: Quiz Score in the topic Stock Market Prediction

Challenges faced in implementation:

- Students must search a wide range of resources for learning materials in a variety of situations.

- Students find it difficult to come to a clear conclusion on specific themes. It appears to be a time-consuming activity.
- There is a possibility that students will use technology outside of the classroom and also a lack of direct contact.
