Degree, Semester & Branch: B.E. Computer Science and Engineering, VII Semester

Course Code & Title: CS8091&BIG DATA ANALYTICS

Name of the Faculty member (s): Mrs.S.Manjula

Innovative Practice Description

Unit 5-Topic: Analyzing big data with twitter

Course Outcome: CO5

Topic Learning Outcome: 5.1,5.2

Activity Chosen: Self Reflection- Topic Discussion

Justification:

Reflection activity is conducted after the discussion of a topic, so that students can evaluate their own understanding. The prime objective of Reflection is to make the students write their doubts in a paper on topics which they are not clear, so as the teacher can discuss and clarify the concepts that are not understood by the students.

Time Allotted for the Activity: 20 minutes

Details of the Implementation:

- After the discussion of the topic, in order to address the doubts and to know the level of understanding of the students, were asked to write what they have understood from the topic.
- The students also wrote their doubts and topics which they are not clear.
- The faculty member uses the written material of each student to assess their understanding on the topic.
- The faculty revises the topic based on the assessment.

Reflective Critique:

- Students were able to evaluate themselves when they were able to recall independently.
- Students were able to reflect on their learning and also helped me to plan my next session in view of that.

Benefit of the practice:

Internal Assessment Test III was conducted on 01.12.2021. The impact of the innovative practice is analyzed in the table below.

Total No. of Students present for IAT III	10
No. of students attended Q.No. 6a.i	5
No. of students scored above 60% marks in Q.No. 6a.i	4

Challenges faced in implementation:

- Not all the students may understand the reflective process.
- May feel uncomfortable challenging and evaluating own practice.
- Could be time-consuming.
