

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University
Accredited by NAAC & An ISO 9001:2015 Certified Institution
NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Computer Science and Engineering

Academic Year 2021 – 2022 (Even Semester)

Degree, Semester & Branch: VI Semester B.E. CSE

Course Code & Title: CS8691 Artificial Intelligence

Name of the Faculty member (s): Mrs.S.Manjula

Innovative Practice Description

Unit / Topic: Unit I / Typical Intelligent Agents

Course Outcome: CO 1

Topic Learning Outcome: TLO 2

Activity Chosen: Mind map

Justification:

- A mind map is a visual representation of ideas and concepts. It's a visual thinking tool that aids in the organization of data. It jots down ideas quickly. As a result, this activity will assist students in identifying the theoretical concepts in the image as well as aid in easy recall for their exams.
- Time Allotted for the Activity:** 10 minutes

Details of the Implementation:

- Instructor explained the particular concepts/topic in classroom within 35 minutes.
- Based on the discussion and after clarifying the doubts raised by the students, the teacher asked the students to draw a mind map related to the topic within 10 minutes.
- Each student created a mind map based on their level of understanding. Instructor collected the sheets from the students.
- This assisted the students in recalling the topic taught on that specific day, generating new ideas about the topic, and answering questions about the topic with ease.

CO – PO / PSO mapping:

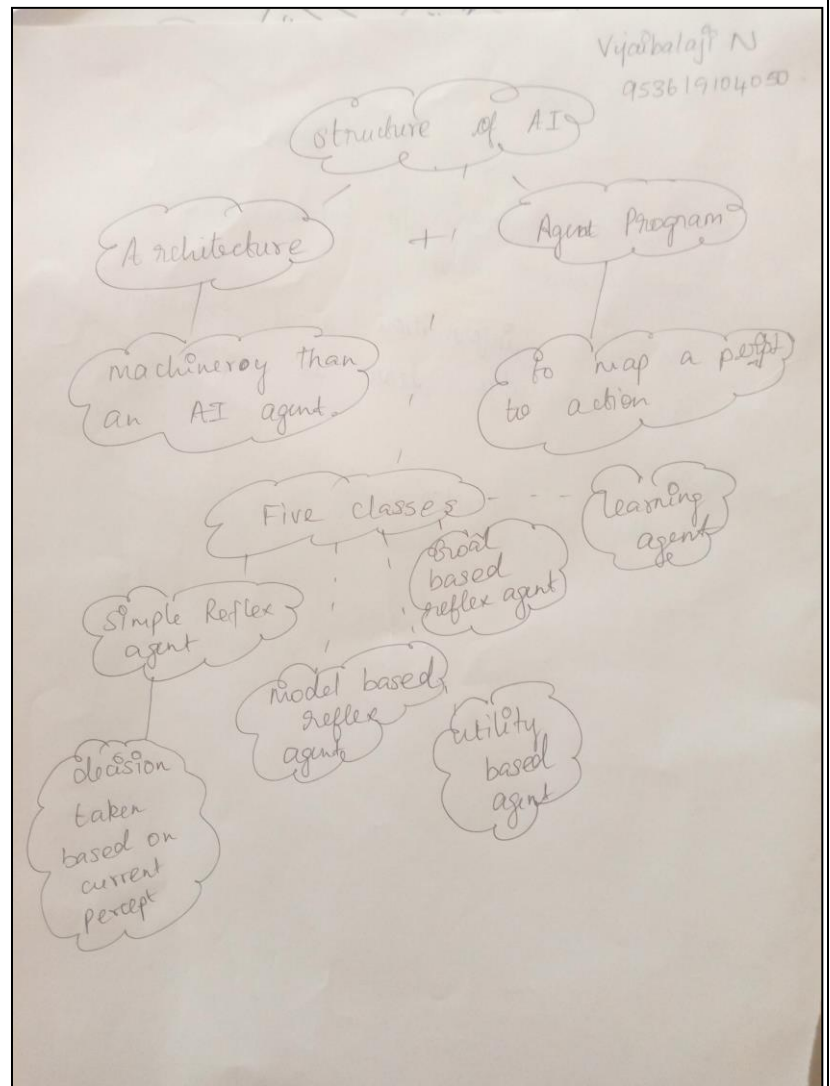

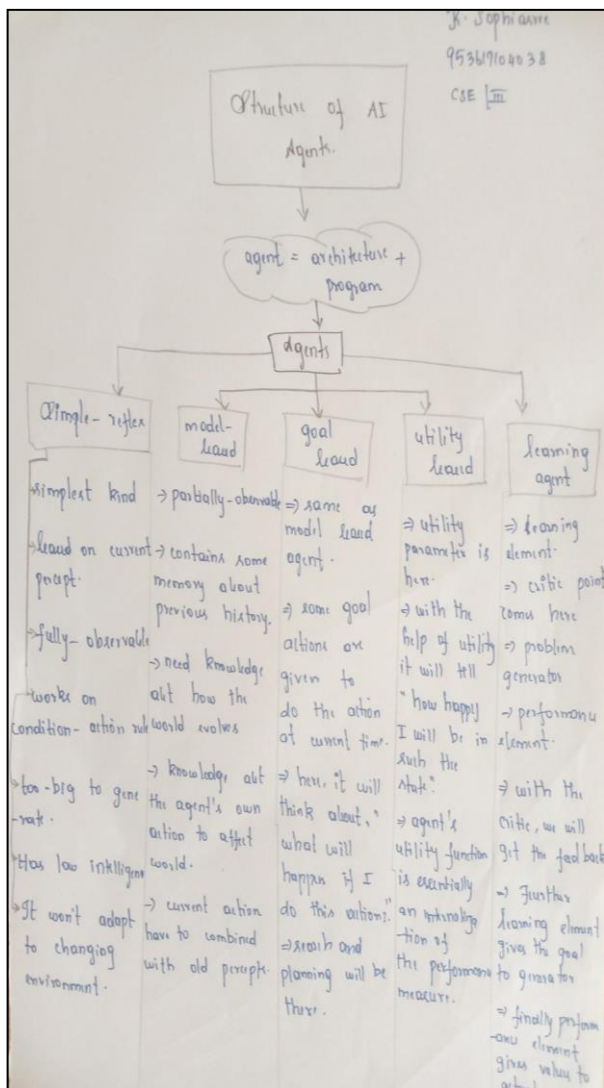

CO	PO1	PO3	PSO2
CO 1	2	1	2

(1 – Low 2 – Moderate 3 – High)

PO / PSO mapped:

Innovative practice	PO1	PO3	PSO2
	2	1	2
Justification for correlation	Apply knowledge of mathematics to solve agent Problems	Problem Solving Approach used to design solutions to complex engineering problems	Students can apply the knowledge of AI in the latest technologies to develop reliable IT solutions

• **Images / Screenshot of the practice:**

- **Reflective Critique:**

- ❖ **Feedback of practice from students and other stakeholders:**
- ❖ Students grasped the topic, as evidenced by their responses to the questions I posed during the discussion session.
- ❖ **Benefit of the practice:** (E.g.: Outcome attainment would have increased due to innovative practice over conventional practice)

The benefits of Mind Maps are a great way for students to make notes on all of the information they receive. It helps the students to note down only the most important information using key words, and then make connections between facts and ideas visually. It made key note making easier to students, as it reduces pages of notes into one single side of paper. Also mind map made slow learners to remember the information more quickly.

Challenges faced in implementation:

Some of the students represent very less key points in the mind map. I planned the activity for 10 minutes only. But in real scenario it takes 15 minutes to complete this activity.
